

SOME CONFESSIONS OF GERMAN EX-SPY

Tells How He Was Sent to U. S. With Orders to Enlist in Army.

New York, Dec. 7.—Sensational disclosures of his mission to the United States as a spy for the German government, were given in an alleged confession by John Willers, formerly captain in company 1, 48th United States Infantry, alleged deserter and deserter, after his arrest here tonight, charged with absconding with \$5,000 of his company funds in December, 1918. His regiment was then stationed at Camp Sevier, Greenville, S.C.

Willers, the police said, recited in brazen fashion how he was sent to the United States as one of 200 cadets trained in the art of espionage to enlist in the United States army.

On his arrival in the United States, Willers went to Albany, where he enlisted, he said, as a private. His military aptitude won him rapid promotion, and his knowledge of English and his ability to "speak like an American" enabled him to get a commission.

"What was your plan after reaching the other side?" he was asked. "I could lead the company to slaughter," the police say he replied. "You would also be killed," he was reminded.

"What of that? Thousands of better men died that way," he said. While being questioned at the police station, the police say Willers remarked that they would be surprised if they knew the number of officials at Washington during the war who were employed by Germany as spies.

"Are they still there?" he was asked. "That I don't know," he said. "Have answered. But there were many of them during the war."

Fled With Funds.
The 48th Infantry was still at Camp Sevier when the armistice was signed, and, his usefulness as a spy at an end, Willers told the police, he decided to become a deserter and to take, they alleged, the funds of his company.

The deserter then went to Chicago, where, about a year ago, he married a young woman named Crab and from Chicago, Willers roamed about the country; at various times in his travels trying unsuccessfully to get to Germany. He disguised himself and awaited an opportunity to quit the country. A pair of heavy eyeglasses, he said, was an important part of his disguise.

When questioned by military authorities at Governor's Island, Willers declined to amplify his alleged confession to the police.

PRINCE BEARS TESTIMONY TO UNITY OF THE EMPIRE

London, Dec. 7.—Replying to an address of welcome tendered to him today by the city of London, upon the termination of his tour of the empire, the Prince of Wales said: "The British people never were more united in devotion to the empire and its head, the King, than they are today. It has been no merit of mine, but merely my good fortune to enable that devotion to value none the less the generous congratulations offered me today on such small services as my tour has rendered to that great British Commonwealth, of which this great city is the heart."

FOR TWO MILLION EDUCATION BLOCK

(Continued From Page 1).
The motion for a joint committee on the division of the site was adopted unanimously.

Approval of Plans.
Principal A. C. McKay said that in view of the fact that the officials of the education department had expressed general approval of the tentative plans of the Riverdale branch technical school for the Greenwood-Danforth site, as prepared by W. W. Pearse, recommended that Mr. Pearse be further instructed to proceed immediately with the complete plans and details in order that tenders may be called for at an early date.

Trustee Laxton lived up the committee for a time by calling in Mr. Pearse to explain why the plans called for a \$750,000 building when the combined grants from the city council and Ontario government offered \$750,000.

Principal McKay and Mr. Pearse gave explanations, showing that the \$750,000 would cover the entire cost of the school, including a permanent character in connection with the technical school, but that they could be put up with the required building construction and that the school proposed would be well within the grants.

Principal McKay's recommendation for the preparation of a plan as a basis for tenders was then agreed to. The Greenwood-Danforth educational block will be the second of the central technical school block, that having been the first of the central technical industrial high school.

20,000 PEOPLE ARE NOW TAKING ASPROLAX

New Scientific Discovery Is Rapidly Becoming Sensation of the Drug Trade Throughout Canada.

BREAKS UP A COLD BY REMOVING CAUSE

Thousands Using It With Gratifying Results—Great Superiority Over Ordinary Remedies Clearly Demonstrated.

Remarkable as it may seem, over 20,000 people in Toronto and vicinity are now taking Apsrolax, the new scientific treatment for colds, which is rapidly becoming the sensation of the drug trade throughout Canada.

The great superiority of Apsrolax over the ordinary remedies heretofore prescribed has been clearly demonstrated, and people everywhere have been quick to recognize it as a preparation of remarkable merit.

The Lyman Brothers Drug Co., Ltd., have just placed their third order for one hundred gross, or 14,000 bottles, to supply the drug trade in this immediate territory, and it is with difficulty that the manufacturers have

been able to supply the large and rapidly growing demand. The phenomenal success of the preparation can be readily explained, by the fact that it is a real specific and breaks up a cold by removing the cause, while the great majority of the present day remedies relieve the symptoms only. Thousands of people who have used Apsrolax state that it is almost magical in its effect, and are recommending it to their friends.

Apsrolax is a combination treatment, and acts as an antipyretic, which reduces the fever; an expectorant, which loosens the phlegm, relieves the congestion and stops the cough; a laxative which opens the bowels, and an antiseptic, which retards germ growth and prevents the spread of the infection.

It is delightful to take, and produces no unpleasant after-effects whatever. Even children take it readily and the third dose you are and young, with the same gratifying results.

If you are suffering from a cold, go to your nearest drug store and get a bottle of Apsrolax. Open it on the spot; take one teaspoonful, repeat the dose in one hour and again repeat the dose in two hours. If, by the time you have taken the third dose you are not surprised and delighted, take the bottle back and your money will be refunded without question.

CONSTANTINE GOT 98 PER CENT. VOTES

Wants Impartial Commission to Investigate Greece's Part in War.

Paris, Dec. 7.—Ex-King Constantine received 98 per cent. of the votes cast in Sunday's plebiscite on the question of his return to the throne of Greece. It was announced, in an Athens despatch, dated Monday, received by the Greek legation here today.

The voters, it is added, numbered 800,000 more than the total taking part in the recent parliamentary election.

"With the object of refuting 'inaccuracies and even injustices' with which part of public opinion, misled, continues to accuse me," former King Constantine of Greece suggested in the course of an interview with the correspondent of the Havas Agency at Lucerne, that the League of Nations appoint an impartial committee to proceed with a public investigation of the events in Greece during the war.

"The plebiscite, which has just been concluded in Greece, was a solemn manifestation of the bonds which unite my people to me, and in no way a disparagement of the sentiments," said Constantine.

"I should like the fullest light thrown on the situation, and I should not offer opposition if the Greek government went so far as to ask the League of Nations to appoint an impartial committee to proceed with a public investigation. I ask that my accusers act with the same honesty. The times has come to clear up public opinion and establish the truth, which for me represents justice."
