HIGH PRESSURE NEEDED.

Winnipeg, Man., Oct. 25.—(Special.)—A special meeting of the fire insurance committee of the board of trade was held this morning for the purpose of meeting Robert Howe, inspector for the Canadian Fire Underwriters' Association. He leaves to-day for Montreal, where he will make his report to the association on fire protection in Winnipeg. The principal feature of Mr. Howe's recommendations was his advising the immediate construction of a high pressure system for fire protection, with a pumping station on the Red River. He also stated that the city's electric lighting apparatus should be located in a separate station from the pumping house. Mr. Howe also recommended the construction of a 12-inch water main on Main-street between Graham-avenue and the C.P.R. tracks.

Pigeons Disappeared.

Stanley Bayley, who says he lives at 36 1-2 East King-street, was locked up last night on the charge of stealing a number of pigeons from Bert Whitney, 73 Summerhill-avenue.

Dodd's Kidney Pills Doing Good Work Around Port Arthur.

Mr. Dick Souvey and Wife Both Had Kidney Troubles and the Great Canadian Kidney Remedy Cured Them.

Port Arthur, Ont., Oct. 25.—(Special.)—That Dodd's Kidney Pills cure the kidney ills of men and women alike has been proved time and again in this neighborhood, but it is only occasionally they get a chance to do double work in the same house. This has happened in the case of Mr. and Mrs. Dick Souvey, a farmer and his wife, living about seven miles from here. In an interview Mr. Souvey said:

"My wife and myself have used Dodd's Kidney Pills and have found them a big benefit to our health. We had la grippe two winters and were exposed to much frost and cold. Our sleep was broken on account of urinary troubles and pain in the kidneys. We each took six boxes of Dodd's Kidney Pills and now enjoy good health."

DEWART SPOKE IN FRENCH MR. BIGGS HAD GOOD NEWS

These, With Mr. McBrady's Medley of Matters, Were Features of Last Night's Meeting.

O'Neill's Hall, at the corner of Parliament and Queen-streets, was about half filled last night, when H. H. Dewart, Liberal candidate in South Toronto, accompanied by a large number of prominent east end Liberals, mounted the platform. Accompanying the candidate were David Carlyle, Hon. S. C. Biggs, J. M. Clarke, L. V. McBrady, K.C., and J. W. Mogan. Jas. Delaney was chairman. Mr. Dewart, in deference to the presence of a number of French electors, first addressed the meeting in that tongue. Mr. Dewart's remarks evidently struck a responsive chord judging by the applause which came from a small circle. In concluding the candidate addressed a few words in English, in which he declared his firm belief in the policy of Sir Wilfrid Laurier, who had settled all race distinctions.

J. Knox Leslie, candidate in East Toronto, entered into an exhaustive discussion of the G.T.P. contract, and questioned the honesty of A. E. Kemp in opposing the road. The late member for East Toronto had deplored the lack of railways to transport his manufactured goods, but on the floor of the house he opposed the measure that would bring him relief. Mr. Kemp desired more protection, but his success had been rapid enough without any further aid from the tariff.

J. M. Clarke declared that Sir Wilfrid Laurier was the greatest statesman in all the colonies, and the G.T.P. the best effort of the best government.

The chairman called upon Hon. S. C. Biggs, but the audience called loudly for Mr. McBrady. Mr. Biggs expressed a willingness not to remove his overcoat, implying a short address, and this was agreed to. Mr. Biggs gladdened the audience by saying that he was the bearer of good news. North Toronto was waiting to elect Mayor Urquhart, T. C. Robinette was aldeady elected in the centre, and a glance at the audience before him satisfied him as to the triumphant return of Mr. Dewart. To Major Leslie the Hon. Mr. Biggs imparted no comfort.

L. V. McBrady started out by saying that the hired man did not make the rain, but he could provide the water barrels to catch it in. Sir Wilfrid in like manner could not control Providence, but he could and did trim his sails to catch the breeze of prosperity. E. B. Osler opposed the G.T.P. in the opinion of the speaker because he did not have a finger in the pie. Sir Wilfrid was more powerful than the C.P.R. From this point the speaker rambled into "words, words, words," declaring that without Sir Wilfrid there would be no Canada; that the father of H. H. Dewart had supported the Hon. John D'Donahue in a contest in this city; that four years ago Tarte was a barnacle on the Liberal ship; that Hon. Andrew Blair was not strong enough to oppose Sir Wilfrid, and the latter had given him his dismissal; that Lord Dundonald was referred as a man who had outgrown his breeches.

NOW, WHERE WAS THE MAYOR?

Important Business of Police Commission Had to Be Postponed.

The police commissioners met yesterday, at least, the members of the board who are still taking an interest in the city's welfare were present.

Mayor Urquhart was absent. His colleagues, Judge Winchester and Col. Denison, thought perhaps he was busy electioneering.

A few routine matters were dealt with, and all the important questions were left over.

FOUND SHOT.

Medicine Hat, Man., Oct. 25.—(Special.)—Russell Crowe, aged 20, was found in a stable between 8 and 9 o'clock this morning, shot thru the head. The bullet had entered over the eye and passed out thru the back of the head. No motive can be given for the sad act. He came here from Nova Scotia one year ago, and was employed with L. B. Cochrane & Son as grocery delivery man. Crowe is still alive, but cannot recover.

DROPPED DEAD.

Brockville, Oct. 25.—(Special.)—Going from his house to the barnyard, Alexander Perrie, a life-long farmer of the Township of Augusta, was seized with heart failure this morning, and died in his tracks. He had not been in good health, but was able to be around looking after the minor duties of the farm. Deceased was twice married and highly respected in the community.

DEATH LOOKS SUSPICIOUS.

Montreal, Oct. 25.—A mysterious case is reported from the General Hospital here this morning, which has every appearance of foul play. A man named Robert Wright, aged 55 years, was brought there on Sunday in an unconscious condition. He had evidently been badly handled, altho there were few serious marks to be found except a cut on the head. Wright died late last night. The secrecy with which the affair has been conducted has aroused some suspicion and the coroner will conduct an investigation.

PRONG PIERCES HER BRAIN.

Preston, Oct. 25.—Mary Sachs, aged 18, of Doon, met with a shockingly sudden death last evening. She fell from the steps at her mother's home, landing on an iron gate, a prong of which entered her eye, piercing the brain. Death resulted a few minutes after.

TAKES PARIS GREEN.

Peterboro, Oct. 25.—(Special.)—Mrs. Anne Feitch, a widow, who came to Peterboro from England about two years ago, committed suicide last night by taking a dose of paris green. She lived with her only relative in Canada, Mrs. Kovilick, and up to several months ago appeared to be mentally deranged. Subsequently, however, signs of this condition had disappeared, but last night about 6 o'clock she took a dose of the poison and went out to a neighbor's. There she became unconscious and expired about 12.30. On learning the circumstances, the coroner considered an inquest unnecessary. Mrs. Feitch was 40 years old and leaves two sons, both living, in England.

Almost every play in which there is a Kate has succeeded emphatically, and "Cousin Kate," to be presented at the Princess Theatre next week, forms no exception. Two of Shakespeare's sprightly heroines were Katherine, and gave us the delicious comedy to be enjoyed in "The Taming of the Shrew" and "Henry V." Goldsmith made Kate Hardcastle the centre of interest in "She Stoops to Conquer," and in more modern English comedy, the play of "Squire Kate" is a classic.

Berlin to Have Houses.

Berlin, Oct. 25.—F. P. Cornell has disposed of the Oelschlager property on Yonge-street to a building syndicate in London, Ont., and the latter will erect upwards of twenty tenement houses on the property. To do this it will open thorofares on the rear and side on which there are no streets at present. Plans are being prepared, and contracts will be let at an early date.

INDETERMINATE SENTENCE WILL COME WITHIN A YEAR

Brigadier Archibald Believes it is the Best Method of Reforming Criminals.

Brigadier W. F. Archibald, of the Salvation Army Prison Gate work department, and recently appointed as commissioner for paroled and discharged prisoners under the Canadian government, has returned from Quincy, Ill., where he attended in his official capacity the National Prison Congress. There were representatives from all parts of the world, including a Scotland Yard official and a delegate from Japan. The brigadier was royally received and was greatly interested in the reformatory measures discussed. He is a great believer in the indeterminate sentence. The parole system in Canada is working very well. He has over 60 men now reporting to him and not one has he had to recommend for a cancellation of the license. "That is only one branch of the indeterminate sentence plan. We will have in Canada the indeterminate sentence before the close of another year. It is a necessary moral reform." In the case of first offences, the system is nearly always a success in leading to reformation, and with the habitual criminal who is determined to "stick to the graft," it is the only hope.

Aided in Doing Better.

Just now Brigadier Archibald has 200 business men interested in the "patron" system, who give discharged prisoners employment and a fair chance to do better. Here, when a prisoner is discharged it is only a moral influence that is wielded over him; in New York State, under the indeterminate sentence, a prisoner released, if he is arrested again, can be sent to jail without even the formality of a trial, as it is considered that his first offence has not been atoned for.

In his report to the government for the year ending Sept. 30 last, the brigadier will say that in the 12 months work of the prison gate department of the Salvation Army, 1159 men have been med and advised on their discharge from prison; 945 met and aided,; 990 placed in employment and 146 professed conversion. The free labor bureau ploced 252 men in permanent situations and 723 in temporary work.

All the work done is absolutely free and not one cent in return has been received from men assisted.

Reliable to a Degree.

The brigadier has had seven years' experience in the work and has met with thousands of prisoners, but he says, tho "in almost every case they possess a weakened will power from the indulgences of an evil life, yet I have found in almost every man in and out of prison, there is a degree of moral reliability." In the last few years the reformation of "hardened criminals" and "recidivists" has progressed to a gratifying extent. The indeterminate system he would apply to every man going to prison on his third commitment.

Brigadier Archibald leaves in a few days for the west, to visit the Stony Mountain penitentiary in Manitoba, and the prisons at Prince Albert, Regina and New Westminster. He will have a personal interview with every man in confinement.

To Loosen the Cough

AND BRING ABOUT A THOROUGH CURE OF COLDS, USE

DR. CHASE'S SYRUP OF LINSEED AND TURPENTINE

It is sometimes dangerous to stop a cough.

The aim should be to loosen the cough, relieve the tightness and pain in the chest, and aid expectoration, so that the obstructing and irritating mass may be passed out of the air passages.

This is exactly what is accomplished by the use of Dr. Chase's Syrup of Linseed and Turpentine.

It is not a mere cough mixture, and not intended to stop the cough, but rather to cure the cold.

If you have tickling in the throat, pains and tightness in the chest, sensations of irritation, of oppression or suffocation this great family medicine will afford almost instant relief, and thoroughly overcome the cold which gives rise to these symptoms.

Not only is Dr. Chase's Syrup of Linseed and Turpentine a positive cure for croup, bronchitis, whooping cough, and the prisons at Prince Albert, Regina and New Westminster. He will asthma and severe chest colds, but is also a preventive of all diseases of the lungs.

It has time and again proven its right to a place in every home, and is the stand-by in thousands of families.

Health of body, strength of mind, steadiness of nerves are the best and most precious gifts man can lay upon the altar of his conjugal love. Restorine operates on the nerves which control the sexual system, and infuse into it, power and vigor. No such thing as failure in life, is possible in perfect manhood; it is the lack of vital force, and the depletion of sexual energies that makes failures of men. Restorine awakens a man to a sense of restored vitality and power. Why be weak when you can so easily become strong? Proofs are the test. Sworn testimonials sent to any one on receipt of name. should be freed from partisan interference and from party political control.

Extend Inland Waterways.

We also affirm the necessity of thoroly equipping our national ports and of developing and extending our system of canals and inland waterways. The principles upon which Sir John A. Macdonald based his fiscal policy in 1878 guide us to-day. We maintain and we will develop that policy for the advancement of the whole Dominion. It is a stable policy avowed openly without reserve. It is a practical business policy adjustable to the needs of the time. Our aim is so to apply it for the common good of the people and for the conservation of the Canadian market for the Canadian producer, that honest industry in every leigtimate calling may receive a just reward; that the toiler may enjoy in his own land full employment under conditions which ensure a just wage; that capital may be attracted to and may be safely invested in our industries, and that articles and commodities required for the use of our people may be produced as far as is reasonably possible in this country. We believe that any extension of our markets by means of reciprocal trade arrangements should be sought among those within the empire who are our chief customers, rather than in foreign countries. A preference for our products in British markets would lead to an immediate enormous development of our resources. Such a preference the Conservative party will endeavor to obtain on favorable terms.

Character Counts.

In making appointments to public offices we shall place personal character and capacity above considerations of party service and such additional safeguards will be provided as may be found necessary for the full protection of the public treasury.

More efficient means will be devised to guard against corrupt practices at elections and to protect the electorate from fraudulent devices by which the will of the people has been so often thwarted and the name of Canada degraded.

Inspired with an abiding faith in the justice and wisdom of our policy, and with an earnest confidence that it will prevail, we now submit it for your consideration, believing that it merits and that it will receive your approval.

ROBERT L. BORDEN.

A. J. Sims has offered $20,000 for Kingston opera house. The shareholders will consider the matter.

Dr. McLaughlin's Electric Belt

It gives lasting strength. Its cures are permanent, forever. Its touch is the touch of magnetism; it creates in a weakened body new life, strength, energy, courage, happiness and long life. Try it, you weak, debilitated man, your poor, weary and disheartened woman; feel the life blood warming your heart, the fire in your blood and the steel in your nerves. Let it cure you.

Cured Without a Drop of Medicine.

DR. MCLAUGHLIN:

Dear Sir,—When I began wearing your Belt I had been suffering from articular rheumatism for fifteen years, and was so badly affected that I had to use a cane to get around. I am pleased to say that your Belt has completely cured me without a drop of medicine of any kind, and I have recovered the use of my limbs, and can walk and run as well as ever I could in my life. I will be only too pleased to give any one the particulars of my case, which are well-known in my part of the country, where I have been in a public position since boyhood, and am well known. Yours very truly, JAS. W. AINSLIE, Drumbo, Ont.

All I ask is that you will secure me that I will receive my pay when the work is done.

MR. ROWELL IN PRESTON.

Preston, Oct. 25.—(Special.)—A big Reform rally was held in the Preston Opera House to-night in the interests of George Laird, the Reform candidate for South Waterloo. The meeting was enlivened by Laird's quartet of New Hamburg and the Preston Silver Band. P. E. Shantz occupied the chair. Dr. Thompson of Galt spoke in the interest of the Reform party and Mr. Pattinson of Preston for the Conservatives, making a strong plea for the Conservative candidate's re-election. N. W. Rowell, K.C., of Toronto, made the closing address. He was given attentive hearing and explained how the government was benefiting the Canadian people in its efforts to build the transcontinental railway.

John Holmes Arrested.

Brantford, Oct. 25.—(Special.)—Jack Holmes, the notorious, perhaps the best safe cracker in the Dominion, was very neatly trapped here by Chief Slemin last night. Slemin was walking past the Woodbine Hotel, when the face of Holmes loomed up in the electric light Chief Slemin seized him, asked him whom he meant to rob and persuaded the crook to accompany him to the jail. The charge will be vagrancy, but Holmes is wanted for some of the smoothest operations in Canadian criminology. There was a bank robbery at Clarksburg, and a postoffice robbery at Milton that may be successfully laid at his door.
