MOFFAT'S

VECETABLE LIFE PILLS, AND
PRENIX BITTERS.

WHO WANTS BETTER EVIDENCE?—
I would refer the reading public to the numerous voluntary letter's published, recently in the
Good Samaritan and other papers, relative to the
happy and beneficial effects of the administration of
MOFFAT'S LIFE PILLS AND PHENIX
BITTERS.

Those who have perused the letters above referred
to will observe that in almost every case they attest
the fact, that no inconvenience of any sort attends
the taking of these medicines in ordinary cases, but
that the patient, without feeling their operation, is
universally left in a stronger and better state of
health than was experienced previous to being afdicted with disease; and in all cases of acute suffering great relief is obtained in a few hours, and a
cure is generally effected in two or three days.

In cases of FEVER of every description, and all
bilious affections, it is unnecessary for me to say
aught, as I believe the LIFE MEDICINES are
now universally admitted to be the most speedy and
effectual cure extant in all deseases of that class.

The LIFE MEDICINES are also a most excellent relief in affections of the Liver and Bowels, as
has been proved in hundreds of cases where patienthave come forward and requested that their expesrience in taking them might be published for the
benefit of others. In their operation in such cases
they restore the tone of the Stomach, strengthen the
digestive organs, and invigorate the general functions of the whole body, and thus become to both
sexes (for they are perfectly adapted to each) an invaluable means of preventing disease and restoring
health.

In affections of the head, whether accompanied
with pain and giddiness or marked by the grievous

health.
