

PRESBYTERY AND THE POLITICIAN

Resolution Strongly Condemns Wrongful Political Practices and Does Not Excuse Member—Church Union Vote

That their action in selecting a certain committee to the General Assembly is not to be taken as condoning improper political practices was explained in a resolution adopted by the Presbytery of St. John at their meeting yesterday afternoon. Rev. Dr. Smith was heard in protest against the action taken in March and three hours discussion behind closed doors followed.

As a result of the discussion a committee was appointed to draw up a resolution setting forth the attitude of the Presbytery and the resolution was finally adopted as follows:

"The Presbytery, having heard the protest of Dr. W. H. Smith touching its action in appointing a committee to the General Assembly at the quarterly meeting in March last, does, in the interests of righteousness and the honor of the church, recognize the timeliness of the protest and, in accord with the principles of our church, emphatically condemns all wrong practices in political life."

This closes the matter, as far as the Presbytery is concerned, and it will not be carried to the synod.

The name of the commissioner whose appointment caused the discussion was not announced officially.

A committee was appointed to arrange for the vote on church union in the mission fields before October 1. Norway was granted 2000 from the augmentation fund and the Bible Society was congratulated on the opening of their new Bible house.

QUEEN DIRECTS AUCTION OF LOTTERY TICKETS

Pavia, July 7.—Queen Helena of Italy directed the auction of tickets in the lottery for the benefit of the Red Cross Society, which took place in the great courtyard of the Royal stables at the Quirinal, says the Rome correspondent of the Havas Agency.

The correspondent states that a vast crowd of the public was present, as well as members of the Royal family, and that a great number of tickets were sold, some of them at extraordinary prices, for the lottery, which contains 40,000 prizes.

Among those present, says the despatch, were the young crown prince, the Princesses Lollando and Giovanna and other royal children. The prince sold postcards and the little princesses passed among the people with baskets filled with bouquets, buying emptying the baskets many times. The Duke of Genoa (Prince Henry of Savoy), Lieut.-Governor of Italy, during the King's absence at the front, also was present.

The people of the United States spend about \$750,000,000 on theatres in the course of a year.

It contains no caffeine or tannin (the drugs in tea and coffee)—nothing but the nourishing elements of whole wheat, roasted with a little wholesome molasses.

Postum comes in two forms: Postum Cereal—the original form—must be well boiled to bring out the flavor and food value—and Instant Postum—the soluble form—prepared in the cup with hot water instantly!

Grocers everywhere sell both kinds. They are equally delicious, and cost about the same per cup.

MAYOR SPEAKS OF TAX COMMISSION

Not Fewer Than Five or More Than Seven Members—No Politics in Its Selection—Mr. Rising's Complaint

That the new assessment commission will be composed of not less than five and not more than seven members was announced by Mayor Frink at the meeting of the Common Council yesterday. He said that he had ignored all political considerations and the demands of organizations for representation and had selected men only according to their ability. He would announce the names at a full meeting of the council.

The city solicitor was given instructions to take action against a dozen insurance agents who have refused to pay the license.

Tenders for coal were opened but owing to the difficulty in reconciling quantities and prices the decision as to the contracts was left over until the next meeting.

E. L. Rising, in complaining of the receipt of three special tax bills for property in Sydney, Union and Queen streets wrote in part: "We cannot say that there is much economy practiced by the council. There are several things being done which are not necessary. We managed to get along for a good many years without the expenditures that are now being made, such as the new fire engine which we could have gotten along without for a couple of years longer. We cannot see where there is any economy in providing the city with luxuries to the detriment of the necessities which are glaringly neglected. The writer was an ardent advocate of commission form of government but must admit that it has not proved the success anticipated and believes that unless things are better handled most any other system will defeat it at the next election."

The library commission reported that the term of office of the council's nominees, Mrs. Daniel Mullin and Dr. Christie, had expired. It was decided to order their reappointment.
