BASEBALL

Suburban League.

The Suburban Baseball League was formerly opened at Pandemonium on Saturday when a large number of spectators watched the home team defeat Baywater by the score of 8 to 6. Both Dunlop for Baywater and Latham for Pandemonium pitched excellent ball, Dunlop allowing only three hits. Baywater started out well and at the end of the fifth inning were leading by the score of 5 to 1, but Pandemonium came back strong in the last few innings and managed to win out. The players, while lacking much practice, all showed up well. McColegan, in centre field, was easily the star of the Baywater team, taking everything that came his way, and also showing up well at bat. The line-up was as follows:

Pandemonium—Smith, c.; Latham, p.; Colwell, 1b.; Henderson, 2b.; Johnston, 3b.; Whippley, ss.; H. Johnson, lf.; Halliday, rf.; McPherson, cf.

Baywater—W. Howard, c.; Dunlop, p.; Pattison, 1b.; MacNutt, 2b.; Perry, 3b.; J. Howard, ss.; McLeod, lf.; McRae, rf.; McColegan, cf.

Vanitie Wins Again. The Vanitie took the fourth race in the trial series for the defenders of the America cup, by defeating the Remolote on Long Island Sound Saturday. The Vanitie won by five minutes, fifty-two seconds.

CAMPAIGN TO SAVE HOUR OF DAYLIGHT

Paris, June 8.—An account of the campaign in England to save day light, and the interest which other countries are taking in this subject, were presented in reports to the International Congress of Chambers of Commerce here today.

William Willett of London reported a long list of organizations in England which have passed resolutions in favor of the bill for daylight saving. "That so many as 164 hours of daylight are, to all intents and purposes, wasted every year is a defect in our civilization," he asserted. "Standard time is so fixed that for nearly half the year the sun shines for several hours each day while we are asleep and it is rapidly nearing the horizon when we reach home after our work is over."

"By a simple expedient this may be overcome. If we will reduce the length of one Sunday in the spring by sixty minutes, of which no one would be conscious, we shall have sixty minutes more daylight after six o'clock on each succeeding day until autumn."

Dr. Von Böttger, a member of the Prussian House of Lords, added a report on the subject, declaring that the daylight saving idea was regarded with great favor throughout Europe. Many German chambers of commerce were working in behalf of the reform.
