DOPELETS BY FULLERTON

A Johns Hopkins surgeon has discovered that pain is a blessing; which ought to make Connie Mack a bit happier.

If Ty Cobb had waited until now to punch a butcher he would be a national hero.

Coffey, who is to replace Hans Wagner at short for the Pirates will seem weak tea to the Pittsburgh fans.

"And after all I've done for him," now can be changed to "And after all I've done to him." They should have known better than to want more salaries in Philadelphia in an off year.

Christy Mathewson started to make a campaign speech in New Jersey. He started with a fast one, handed up a wild pitch, then fell back on the fade-away.

President Gilmore declares the Federal league club owners are loyal to a man; but is Gilmore the man?

Now they are retiring Connie Mack from baseball, which is less likely than that baseball will retire from Connie Mack.

BERLIN BEGINS TO REALIZE THE TRUTH

Crown Prince Blamed For Failure of Dash to Paris—Where is That Promised Glorious Victory?

London, Nov. 11.—Telegraphing from Copenhagen yesterday, W. Duckworth, special correspondent of The Daily Telegraph says:

"A neutral subject, who has just returned after a week's stay in Berlin, says the crown prince is being blamed for the failure of the German advance in France. The people had put their trust in him to reach Paris and guide the scheduled train. Now he is being openly attacked for failing to penetrate the French right."

"An enormous number of slightly wounded men and boys limp about the streets of Berlin, drive in open motors, or are seen in the restaurants and theatres. These are so numerous that they seem to be part of a gigantic street campaign to advertise the army. There men appear to be decorated with the Iron Cross. The number of Iron Crosses distributed now is approaching 100,000.

"Gayety in the Berlin cafes seems further reduced. The general impression is that the people realize that the success of the German arms has been too long delayed. This along with the mysterious whereabouts of the Kaiser and the joyful monotone of statements in the daily reports of the headquarters staff have, it is feared, some deeper significance.

"Winter shadows are black in Berlin. Hundreds of women are in mourning. The people are beginning to learn that they are faced with an economic crisis. It is reflected in the faces of the business men, in the street, in increasing numbers of the unemployed, and in the sudden jump in the cost of living in the last fortnight. This increase is local. More business houses have closed and still further reductions of salaries have been made by those houses remaining open."

LEPROSY IN AMERICA

(From the Missionary Review) Recently two bills have been introduced in congress looking to the establishment of a national leprosyarium. One of these would provide \$100,000 for a national leprosyarium on some island. The other bill appropriates \$500,000 for a leper home, the location now being specified.

By those familiar with the facts, leprosy is believed to be a serious national danger. The United States is in frequent communication through shipping with countries where leprosy is widely prevalent, and enquiries have shown that in some parts of the United States foreign lepers have little difficulty in effecting a landing and passing thence into the interior, where they may spread the infection unobserved. This source of danger is said to be rapidly increasing.

Leprosy is known to be common in some of the foreign possessions and dependencies of the United States—for example, the Hawaiian Islands, the Philippines (where at present some 5,000 lepers are under supervision) and Porto Rico. There is a great need for a national leper home, where suitable care can be given to these sufferers, who are now often subjected to virtual persecution. A physician in St. Louis reports two such cases. One a man 35 years old, who had been a soldier in the Philippines ten years before, developed a disease of the skin, of the nature of which he was entirely ignorant. When it proved to be leprosy, he was banished to a hut on the outskirts of the city, occupied by a Chinese leper, mutilated hideously. He fled in terror, but was recaptured by the authorities and brought back. Another in the same hut is an American who had assisted in opening a railroad in the Philippines ten years before the disease appeared.

The members of Centenary church held a delightful "at home" last evening in connection with the anniversary of its founding. A dainty luncheon was served, with the following ladies in charge of the arrangements: Mrs. W. G. Smith, Mrs. W. H. Purdy, Mrs. Lockhart, Mrs. J. Ferguson, Misses P. Jenkins, A. Bailey, E. Teed, Davy, Devine and Holder. Musical selections were given by an orchestra under the direction of M. L. Harrison.

Quebec Liberal Nomination. Richmond, Que., Nov. 11.—Walter G. Mitchell, lawyer, Montreal, was chosen yesterday as the Liberal candidate to succeed the late Hon. P. E. G. MacKenzie, provincial treasurer, in this riding. A rider was attached, however, to the effect that unless Mr. Mitchell is to be provincial treasurer, another convention will be called and a local man chosen as candidate.

THE FIELD BATTERY.

Fredericton Clearer—The battery of field artillery which is to be mobilized here for the second Canadian contingent will consist of four officers and 142 men. Their equipment will be made up of four guns and there will be 128 horses, forty-one for riding purposes and eighty-two draft animals. The guns will be 12-pounders. All the nine batteries to be organized in Canada for this contingent will be similarly equipped. Col. T. M. Seeley, of Yarmouth, will be in command of the battery to be mobilized here. He is an officer of the 11th Brigade and his appointment indicates that recruits will come from both New Brunswick and Nova Scotia.
