

PHYSIOLOGY.

PROFESSOR ARMSTRONG.

These lectures will be devoted to the consideration of the structure, composition and properties of the several Fluids, TISSUES and Organs of the body ; the natural changes through which they pass ; and the functions they discharge.

Microscopic specimens will be used to illustrate the subjects.

Books Recommended—Kirke, Foster, Yeo, Power.

DESCRIPTIVE AND SURGICAL ANATOMY.

PROFESSOR ROWELL.

This course of Lectures will embrace a minute and detailed description of the various systems of which the Human Body is composed severally, and their relations to each other and to the more practical points in Surgery.

Reference will be made, as occasion offers, to Surgical Diseases, the relative position of parts will be dwelt upon, so as to embrace Regional Anatomy. The lectures will be illustrated by careful dissections, preparations, plates, etc., and every anatomical fact will be thoroughly demonstrated to the Class.

Books Recommended—Quain & Wilson, Gray, Reeves, Allan's System of Anatomy.

HYGIENE, OR STATE MEDICINE.

PROFESSOR SIMPSON.

The lectures on this subject, the importance and value of which is now universally admitted, are intended :—

To teach the application of Sanitary Science to questions concerning Public Health.

To afford rules for the conduct of the Medical Practitioner in Sanitary Inquiries.

To inculcate the use of suitable Hygienic Measures in the prevention and arrest of Contagious Diseases.

To confer such knowledge of the principles of State Medicine as it is desirable that every medical man should possess.

Books Recommended. *Traité d'Hygiene*, par M. Levy ; Wilson's *Handbook of Hygiene* ; *Practical Hygiene*, by Parkes.
