Flash, and "The Little World" a story of Japan, and poetry.

A volume begins with the number for July 7th.

For fifty-two numbers of sixty-four large pages each (or more than 3,300 pages a year) the subscription price (\$8) is low; while for \$10.00 the publishers offer to send any one of the American *Living Age* for a year, both postpaid.

The Regatta.

We observe that a good many of our boating men are practicing for the coming regatta. That is right, as practice makes perfect and there is nothing like training in such matters. There is now only about a month in which to make preparations, and those who have not yet commenced should lose no time in doing so. The Secretary at Newcastle or any other of the Stewards will cheerfully give any information that may be required concerning the regatta, how to procure them, prices, etc. It is time the intending competitors in the tub race were getting their craft ready. They should all bear in mind that the tub race is the best for speed. The Stewards are to meet regularly at the Secretary's office, Newcastle, every Tuesday afternoon and will always be glad to hear from intending competitors or others interested in the Regatta.

Chatham Driving Park.

The Directors of the Chatham Driving Park have arranged to have their largest meeting of the year earlier than last year, and they have placed on Thursday, Friday, 6th and 7th of September, and the prizes will amount to \$400. The races will be as follows:—

Three minute class—Purse of \$100; 100 to 140, 20 to 1, and 10 to 1.

Two minute class—Purse of \$125; 80 to 140, 20 to 1, and 10 to 1.

County Trotting—Purse of \$45; 20 to 1, 10 to 1, and 5 to 1.

County Running—Purse of \$15; 10 to 1, 5 to 1, and 2 to 1.

County Trotting—Purse of \$175; 10 to 1, 5 to 1, and 2 to 1.

The track is one of the best in the Maritime Provinces and the management is determined to maintain its reputation for fair dealing, so as to attract the better class of horsemen.

Dr. W. Armstrong, Toronto, writes "I have been using Northrop & Lyman's Emulsion of Cod Liver Oil and Hypophosphites of Lime and Soda for Chronic Bronchitis with the best results. I have tried the different kinds, I am unhesitatingly giving it the preference when prescribing for my consumptive patients, or for Throat and Lung affections."

Distressing Accident.

On Tuesday morning Mr. Fred G. Burpee, second son of Hon. Isaac Burpee, started from the Neptune Club boat house, St. John, in a shell boat and rowed down the harbor, with a strong tide. When off the railway pier he ran upon a line stretched between a woodshed and a house, both of which were at anchor. His boat immediately caught. He cleared his feet from the stretcher attachments and succeeded in grasping the pole, while about started to give assistance, but, owing to delay in getting the oars out, drifted considerably down stream. Mr. Burpee, becoming exhausted no doubt, let go the pole and endeavored to submerge himself, instead of braving his strength by drifting with it and towards the approaching boat. Before the boat could reach him he was seen to sink and rise again, making desperate struggles to sustain himself, but he finally disappeared and was drowned. The body was recovered three hours afterwards a quarter of a mile below where the drowning took place. The young man was one of the most estimable in the city and his early death causes widespread mourning and the most sincere sympathy for the bereaved family. *The Globe* says,—"The accident in the harbor this morning clouded the brightness of a summer day. It was the main topic of conversation in all mouths. For young life, suddenly extinguished, there is ever deep sympathy for this young man so well known, a hearty, frank, generous, handsome lad, with a pleasant word for everybody, heartily liked by all his young associates, and admired by young and old, there was genuine sorrow. For his father, the most active of business men, and to whom the community gives a high opinion, it was a great loss. For the whole family it was a great sorrow. For the public, it was a great loss. This is just such a case, and the feeling of the whole community is that if any act of expression could soften the blow which has fallen that act should be accomplished, that expression should be offered. All that can be done, however, is to tender the deep sympathy which is often the strongest when it is expressed in the fewest words."

"The Sea" or "The Cold"

NEWCASTLE, JULY 10th 1883.

My leisure moments do not come as frequently as those of the correspondent to the *World*, nor do they last as long when they do come. Nevertheless, I can generally find time to let that person know we are still alive and that he has not yet annihilated us with the withering touch of his sarcastic pen. I am now prepared to shake off the gold dust of industry gathering on my skirts, and devote a short moment to the good of the public, and resign myself to the unpleasant task of answering the production of one who evidently thinks himself a scholastic phenomenon. It is a curious fact, that small minds become fixed on small objects. Any school boy in our locality who is asked to write "Ode to the sea" will be wrong, seen though he would find in constructing the sentence, that "qui meruit palma ferat (palma) should be palma in the accusative, with om instead of a. This mistake was, in fact, either a slip of the pen on my part, or a typographical error on the part of the typesetter. (The word was printed as "merit" in the *World*, and was intended as a pun on the word "merit".) I grasp this small fact, but at once ascribed it to the illiterateness of the writer.

As regards studying English composition, I think that it is he who should be right and he could be wrong. Great is the world, "I have never occurred to him that the sentence could be read thus:—"The correspondent (writing) to the *World*."

Had we half a dozen more such men as he, boys would be thrown entirely in the shade. Thank Heaven, we have no such affliction!

Could not some enterprising citizen import a mate for "the motherless colt." If they match well I will undertake to drive them rough shot over mountains of the correspondent's inquiries.

The Lobster Fishery.

SHIPPERS, July 3rd, 1883.

To the Editor of the *Miramichi Advance*.

Dear Sir,—I notice in your issue of 28th ult. your remarks on the lobster fishery. I think air that we will all agree with you, inasmuch as that some effective means must be resorted to if ever our now almost destroyed—lobster fishery are to be restored. It is true that we have protective laws regulating lobster fishing, but they are too protective, and cannot be enforced without a month in which to make preparations, and those who have not yet commenced should lose no time in doing so.
