BRONCHITIS PERMANENTLY CURED. A NEW DISCOVERY.

Catarrhozone Cures Bronchitis of Three Years' Standing After Four Doctors Failed - Convincing Proof That Ca-tarrhozone is a Speedy and Infallible Cure.

Mr. R. H. Boyd of Leonardville, N. B., writes: "I feel it my duty to let you know I have been cured of bronchitis of three years' standing by Catarrhosone. Four doc-tors did not benefit me in the least. Hav-ing been fooled so often by dangerous nos-trums at first I only used a trial size, but experienced immediate relief. Then I got the complete outfit, six weeks' treatment, but before it was all used I was cured. That was several months ago. Since then

That was several months ago. Since then I have not had any bronchial trouble, and never felt better in my life than I do to-day. Catarrhozone is a very pleasant rem-edy to use and does all that is claimed for it. Too much cannot be said in its praise."

CATARRHOZONE

IS A GUARANTEED CURE FOR CATARRH, BRONCHITIS, ASTHMA.

FOR CATARRH. BRONCHITIS, ASTHMA. Catarrhozone is a new treatment that has won a most eaviable reputation as a specific for these diseases and is spoken of in terms of hignest praise by physicians of acknowledged standing and eminence, and the long record of remarkable cures which have been effected by Catarrhozone enminently entities it fo rank as an im-portant scientific discovery. Catarrhozone is a new and powerful cermicide that simply burns up the baccilli of Catarrh and kindred diseases. It is soothing and healing and very pleasant and convenient to use. Complete outfit, price \$1; extra inhaint 50c per bottle. At all reliable draggists, of by mail. Twenty-five cent trial sizes for 10e in stamps, from N. C. Polson & Ce., Kingsten, Ont.

TORONTO, Merch 19 .- Dr. G. A. Japan and China. He noticed a gradual friendliness between the two na-tions and prophesied that when Japan had taught the Chinese the art of war, neither England, Russia nor Germany Ryerson, Canadian Red Cross comner in South Africa, cablin from Kimberley under date of March 16, says he has established 90 beds at Kimkerley, and that the Canadian nurses are being sent there to assist would decide the fate of the east. The Chinese do not love the Japanese, but in nursing. He also reports there are recognizing that they have nothing to hone from the European nations are one thousand sick and wounded at Kimberley glone, with 1,700 of all ranks gladly establishing an entente cordiale with the Japanese. in hospitals, either by reason of wounds or sickness. Bishop Potter said he went to the is-lands in an attitude of antagonism. He

COM PAUL NUT. HOPEFUL. LONDON, March 20 .- A Daily Tele graph special from Bloemfontein says: "In a speech made here a few days before the British entered town, President Kryger admitted that his men would be unable to keep in the field for another month."

WAR SUMMARY.

LONDON, March 20 .- No important rews has been received from South Africa during the past twenty-four hours. The much desired relief of Mafeking has not yet been announced, and March 10th continues to be the latest date of news from that town. There is a disposition here to suspect intentional mystification in General Roberts's reference to Gen. Methuen having been at Warrenton. Some further details of Gen. Methuen's operations have been received, but they do not indicate that any attempt was made to cross the Vaal River, or that the operation was necessarily anything but a reconnaisance. The people here hope yet to learn that General Roberts detached part of his force and sent it to relieve Mafeking when

the siege of Kimberley was raised. The Telegraph correspondent at

Cape Town, in a despatch dated March 19, records the belief there, based on private telegrams, that Mafeking Las lready been relieved by the Boers departing and thus raising the siege, The same correspondent says he learns that a standing force will be, placed at Gen. Methuen's disposal. He adds

Potter said he saw no reason why it that this movement is a highly importshould not successfully be introduced ant one. to the natives. He had found, he said, Its objective is not necessarily Mafe-

MR. BRITTAIN'S MILL. To the Editor of the Sun:

BRISTOL, March 10th, 1900. Str-I have seen some reports of a discussion that took place in the legislature in regard to the bonus for a wheat mill in this ection of Carleton county and in one report which I read in The Dispatch of the 7th inst. H. H. McCain, M. P. P., is reported as saying that the bonus was not given to Brittain because "Brittain's water rower was not sufficient and he

had four children attending our schools and one of them took the disease, but we al-lowed the other: to continue at school, but one of the teachers having questioned the subplars as to whicher there were any cases of memory in their families my child said there was one of the subers had them. The teacher is once to the teacher and then. The teacher is once to the teacher recurring to school. When I was told this I was an-noyed, as I did not want my children to lose school on account of so simple a disease. There was also another objection I had; that was to bits medical certificate, as everybody knows the the physician is only entited upon to stand that a very small pro-torier certificate? Certainly not, as he only takes the parents work is the sub certificate business is not mate more than a farce in most cases. New I interviewed our local board but they contend the heat a board on be al-iowed to attend when the board not be al-torier dentificate that the being a con-tagions disease children could not be al-lowed to attend the now of this law being yield at they contend the board, i sent my thindren back to school when any one of the tunily have it. However, as at this very time I happened to know of this law being yield but they contend the board. I sent my children back to school and they were not sent home, although at this very time the attendance at our bools was being cut charge descents accord and they were not sent home, allieuth at this very time the attendance at our schools was being cut down by this simple epidemic. Now as to the dangerous contagious dis-eases, such as diphtheria, seculations, can be enforced too strictly, and it is my opinion that it would be more effectually both by teacher and parents were the milder con-tagious diseases not put in the same class with them.

curred. Van Wykes Vlei seems now to be the centre of the Boer movement and a large force of them is reported to be in that neighborhood. The New Zealanders arrived at Van Wykes Vlei on Sunday from Carnarvon. They did not encounter the enemy. The Canadian Mounted Rifles, commanded by Col. Herchmer, the Janadian Artillery, under Col. Drury, and some of the English yeomanry, are now at Carnarvon. The outbreak is regarded here as exaggerated. It is assumed that it has not detained Gen. Kitchener, who has probably re-joined General Roberts.

Gen. Gatacre's division is now restng at Springfontein. A standing force of mounted troops had been sent to Smithfield, forty miles east of Springfontein. The commander of this force was instructed to distribute Gen, Roberts's proclamation at every up portunity.

If the expedition defeats or induces he surrender of the Boers thereabouts, t will open the way for an advance by Gen. Brabant's colonial brigade. The temporary trestle bridge over the Tugela River at Colenso was opened to traffic Monday. Princess Christian's ambulance train was the first to cross.

The Standard's correspondent at Ladysmith reports the discovery of what purported to be a grave, on which a cross had been erected, near Pieters. It did not contain a body, but a great number of expanding bul

lets, presumably buried by Boers. The Times' correspondent at Lorenzo Marquez says that the Portuguese autherities hurriedly despatched infantry by a special train on the night of March 18 to reinforce the garrison on the Transvalal border. The governor accompanied the troops for part of

their journey. "he Brussels correspondent of the Morning Post say that Dr. Leyds, the diplomatic agent of the Transvalal, has returned to that aity from Holand. Queen Wilhelmina did not receive the Boer envoy, but he conversed with several statesmen in reference to intervention. He will now go to Paris to see M. Delcasse, the French foreign minister, on the same subject. The legation admits that some of the Free State Boers have laid down their arms, but declares that the submis sions were obtained by questionable merns. It says that the Free State

SPENCER WILKINSON'S REVIEW

LONDON, March 20 .- During the pause in the military operations in South Africa, Spencer Wilkinson, writing in the Morning Post, deals specuatively with possible movements. He says

"Lord Roberts may send one or two strong cavalry columns to move unexpectedly on various points, thus upsetting the Boer plans of defence and rendering possible an advance of three converging forces on Pretoria. without any heavy preliminary fighting."

"OUR BOYS" SHOWED MAGNIFI-CENT COURAGE.

TORONTO, March 19 .- The Evening Telegram has special cables from London saying that letters describing the surrender of Cronje at Paardeberg, Feb. 26, show that the Royal Canadian regiment, with the Shropshires, ad-

the tenets of the Anglican declined to guarantee to increase Church would receive general acceptit." Now I have the following state ance ment to make, and I make it not with any

BRITISH PARLIAMENT.

LONDON, March 19 .- In the house of commons today, in answer to a question on the subject of the seizure of the British steamer Mashona, lader with American flour for the Transvaal by the British gunboat Partridge, and whether the government, through the U. S. ambassador, Joseph H. Choate, had undertaken to meet any claims for less or damage sustained by American itizens interested in the cargo, in consequence of the delay of the delivary of their goods, and whether the claims of British subjects would treated on the same footing, Mr. Brod-

rick confirmed the announcement that the prize court had released the Mashona, and added : "Her Majesty's government does not

admit liability in respect to claims of the nature indicated. Claims with respect to the non-dalivery of cargo appear to be a matter for settlement between the claimants and the shin undertaking to deliver the goods. British subjects owning goods on a British ship have no right to trade with the enemy, and they are not in the

same position as foreign owners." During the budget discussion, John Redmond, the Irish leader, said the Irish members abstained from the discussion, but they did not regard it as a humdrum budget, as it imposed upon Ireland an additional war tax of over a million a year, at which the concience of Ireland, he added, revolted. The bill passed its second reading by a vote of 182 to 30.

The chancellor of the exchequer, Sir Michael Hicks-Beach, announced that the total number of applications for the war loan was 39,800, and that the total amount of subscriptions was £335,500,000: The largest application, he added, was for £10,000,000. Applicants for £10,000 and upwards would get six per cent of their application. Below £10,000 the assignments would

vary from six per cent to an allotment in full. Being asked a question today regarding the reports of trouble threatening to occur in China, the parliamentary secretary of the foreign office, Sir Wm. St. John Broderick, said Her Majesty's government had taken and continued to take all necessary steps to protect British interests in this connection. He also denied the story published in the United States that the American government was sending war ships to China.

TAUGHT LORD DUNDONALD.

LONDON, March 6 .- Fencing-instructor Corporal Major William Standley of the 2nd Life Guards, has died at Burnham, Bucks.

Among the prominent officers to whom he taught the art of fencing was Lord Dundonald. In witnessing the latter's departure for the front, the late corporal major, already invalided, caught a severe cold, and only lived long enough to say "God bless him!" upon being told that Lord Dun-

doreld had relieved Ladvamith. Children Cry for

CASTORIA

ment to make, and I make it not with any hopes of inducing the government to give me the bonus, but merely in the interest of truth and justice, so that the people who are the most interested in the establishment of a roller mill for the grinding of, wheat in this vicinity may be able to judge be-tween the representatives of the government and myself as to the facts of the matter. Mr. McCain told me in my own mill in the presence of my son, before the last general local election, to go and make my prepara-tions and he would see that I would get the bonus. Some time after this, and before It can election, to go and make my prepara-tions and he would see that I would get the bonus: Some time after this, and before said election. I met him on the platform at Florenceville station and he said: "My brother tells me that you think I will not favor you in getting the bonus, but I tell you now I will do all I can for you." No word was said about my power not being sufficient at any time by Mr. McCain. On the strength of Mr. McCain's probaises I pro-cured the lumber necessary and built a re-serve dam. After the election in guestion Mr. McCain, in conversation with McCkwen, traveller for Greey, to whom I expected to give my order for the rollers for the wheat run, said he would not give the bonus to fine for some reason, but would give it to

run, said he would not give the bonus to fine for some reason, but would give it to my son. My son, in company with Mc-Ewen, at once waited on Mr. McCain, and Mr. McCain would give them no satisfac-tion whatever. Mr. Smith, who was at that time a representative of the county, also told me to put in my application for the cours and he would do all he could for me. These are the facts in regard to this mat-ter as between myself and the gentlement in have named representing the covernment in have named representing the government in this county.

have named representing the government in this county. I may say further and those who know me, I am sure, will have no hesitation in believing the statement, that I have no in-tention of spending 80 per cent. for the ptrpose of obtaining a benus of twenty per cent, in an enterprise of this kind without knowing that I have sufficient power to run it. This section of country needs an im-proved mill for grinding wheat, and with your permission, Mr. Editor, I take this op-portunity of notifying my numerous patrons throughout the county that it is my inten-tion to furnish my mill with the most mod-ern rppliances in order to mest their wishes. I have the power necessary and am located in the most convenient section for the ac-commodation of the middle and northern residents of the county. In conclusion I the middle and northern residents of the county. In conclusion I have this to say to the government: Send an expert to examine my site, privilege and power, and if his report is adverse I will pay the expenses.

GEO. A. BRITTAIN. To the Editor of the Sun:

Sir-In reading the report of Dr. J. R. Inch, chief superintendent of education, in the Globe of 15th, I notice that he calls at-

tention to the irregularity of attendance of the pupils at the public schools and ques-

the pupils at the public schools and questions the wisdom of the closing of the schools on account of children having whooping cough or some of the milder epidemics to which children are subject.
I think this might be an opportune time, for the provincial board of education to have more clearly defined what the locat beard and school teachers are to consider as contagious diseases or such as preclude the children from attending school, as there are a number of so called contagious diseases or such as preclude the children from attending school, as there had some of our best physicians say should not be included in the list as prohibiting attendance at school. The writer had some little experience in this matter a few years ago when our schools were visited by a mild type of mumps. At that time I

Now I have no desire to criticise cur pro-inical hoard of education, as 't is in good ands, but I certainly think if this matter was made a little clearer it would be much leasanter for teachers and parents. Thanking you for the space, I am, yours truly, A PARENT. ONLY LITTLE TROUBLES.

with them.

WASHINGTON, Morch 19.-Admiral

Watson has not yet advised the navy department of the name of the vessel he has selected to proceed from Manila to Taku, in accordance with the re-

quest of the state department that a ship be sent to China to safeguard American interests. It is sold at the state department that the extent of the egitation in China has been very much exaggrated. It is asserted that as a matter of fact there is no more disturbance in China now, as a whole,

than at any time during the past 29 ycers. But the concentration of the world's attention upon the flowery kingdom has had the effect of magnifying little troubles in the various provinces out of all proportion to their real importance and significance. This is said to be true as to this last demonstration by the "Boxers." This is a sevret scriety of anti-foreign tendencies, and is the successor to a long line of just such sceleties that have preceded it. Usually those societies are more annoying than dangerous to foreign interests, but sometimes they dabble in politics, as is said to be the

case with the "Bexers," and thus threaten interference with large foreign politics.

JOHN RUSKIN.

Quenched is the lamp, ev'n in its flickering dear. We miss the light; we would not have him

here : No carping littlenesses lift their head Where he is, 'mid the great unjealous dead.
