Baron A. Won From Jenny Penn

Captured Match Race on Moosepath Yesterday in Three Straight—Second Heat Driven With But One Rein.

Sweeping around the Moosepath track with the right rein unfastened and the right tire off the sulky, Baron A. captured the second heat of the match race with Jenny Penn yesterday and clinched the event, the time for the sensational and spectacular exhibition of driving being 2:23 flat.

Both Carvell and McNamara alternated in putting Jenny Penn over the course, but the best they could do was not enough to lead Baron A. who teamed by "Bonny" Steele, a veteran of many eastern circuit meets, captured each of the three heats in good style, the time being 2:22, 2:22, 2:23.

Carleton and Fairville Tied In St. John League Last Evening Two Teams Went Eight Innings With Score of Nine to Nine.

The three safe hits which the Fairville team secured off Seely in the first half inning of the game last night gave them a good start of six runs, which the Carleton club could not overcome, much as they tried, and the end of the eighth inning and darkness saw both teams tied, nine runs each.

Garnett and Burpee made several spectacular stunts during the game, and the pitching of O'Toole, who was bothered with a sore arm, was a splendid example of it.

Report on The Overseas Forces

Hon. Sir Edward Kemp Has Submitted the Same to Parliament—Canadian Military Y. M. C. A. is Given Prominence.

In a report of the Ministry, Overseas Military Forces of Canada, 1918, the Canadian Minister for the Overseas Military Forces of Canada, the Hon. Sir Edward Kemp, K. C. M. G., M. P., has submitted to parliament a report on the Overseas Forces of Canada.

As a branch of this force, the work of the Canadian Military Y. M. C. A. is given prominence. In the beginning the Canadian Y. M. C. A. instituted its first military work in 1871 at the Niagara Camp. It also did work in the Boer War, but the Great War brought it to its present place.

When the first contingent sailed the organization had 114 officers and 265 other ranks were allowed for England and France. The numbers were gradually increased afterwards.

In May, 1917, formal establishment was authorized and 114 officers and 265 other ranks were allowed for England and France. The numbers were gradually increased afterwards.

The report further deals with the work carried on by the Y. M. C. A. throughout the war, and after the armistice was signed.

The official review of the Y. M. C. A. work with the troops as presented by the overseas minister has been published in pamphlet form by the National Council of the Y. M. C. A. of Canada.

APARTMENT HOUSES TO MEET HOUSING PROBLEM.

The apartment house has come to stay. In this age no one doubts that the apartment house is the answer to the housing problem.

The report further deals with the work carried on by the Y. M. C. A. throughout the war, and after the armistice was signed.

MILLING COMPANIES SHOW TREMENDOUS PROFITS TO THE COST OF LIVING COMMISSION

Investigators Draw from Ogilvie Company That Their Net Profits on the Common Stock Last Year Were 72 Per Cent.—Carried Forward Over a Million—Official of the Maple Leaf Company Was Possessed of a Poor Memory and Hedged on the Important Questions.

Ottawa, Ont., June 23.—The net profits of the Ogilvie Milling Company on the common stock last year were 72 per cent. The total net profits amounted to \$1,965,414. After paying seven per cent on the preference stock there was left \$1,815,414. The company paid 15 per cent on the common stock, gave a bonus of 15 per cent, and carried forward \$1,140,414.

W. A. Black, vice-president of the Ogilvie Company, appeared before the Cost of Living Committee of the Commons this afternoon and was examined as to the profits his company has been making. He said the company was incorporated in 1902 with an authorized capital of \$4,000,000, of which \$2,000,000 was preferred stock and \$2,000,000 common stock. He could not say how much had been paid for in cash, but the new company had taken over the old Ogilvie company, which had been in business since 1891.

Mr. Black said that the rest of the account amounted to \$2,500,000, the contingency account \$1,596,407, and investments \$8,975,149. The directors were Charles R. Hooper, W. A. Black, Sir Herbert Holt, Sir Montague Allan, Sir Herbert Ogilvie, Charles Chaput, Sir Augustus Nanton and Sir Charles Gordon.

It was brought out that originally the common stock amounted to \$1,500,000, but in 1908 this had been doubled and allowed to the shareholders of that date. Mr. Black stated that they had paid for it at par.

When Mr. Black mentioned that the common stockholders last year had received 72 per cent, Mr. Pringle remarked: "You could have paid them 72 per cent, but that would not have looked very well, would it? I suppose you men are returning from overseas there is a greater need than ever for housing."

Building operations, which have been held up for four and a half years through the high war cost of material, have been going on again. Apartment houses are included in the list of new buildings as announced.

The advantage of the apartment for small families are many, and too well known to enumerate. A disadvantage, however, which is not often thought of is the apartment house dweller, is the fact that the apartment house dweller is the man who has to do the washing and bathing purposes. Luckily this disadvantage can be overcome.

Mr. Black declared that the profits had been taken out of the public. "The public have enabled you to accumulate this surplus," said counsel.

Mr. Pringle grew angry. He retorted that the man who had the profits had been taken out of the public. "The public have enabled you to accumulate this surplus," said counsel.

For the year 1917 the profits of the company were stated to be \$1,358,847, but the net profit on the common stock after paying dividends was 48 3/4 per cent.

Mr. Black said he did not have the statements regarding the three previous years with him.

Mr. Pringle said to the witness that these large profits were causing unrest in the country, those profits on textiles and shoes and they found that these men who were at the head of commissions were the men who had been making the very large profits.

Mr. Pringle—"These are very abnormal times." The witness stated that for a great part of this year the company had sold flour in Canada at lower than cost.

He said, also, that the margin of profit which was talked about was never put in force by the food board. The company had turned out 3,385,000 barrels of flour last year. Over a million dollars had been paid in 1915 by selling wheat on hand.

"We have paid to the Government all they asked," said the witness. Mr. Stevens declared emphatically that these profits should not occur, and the public should get some benefit from them. This statement would help the committee in advising the Government as to what action should be taken.

"You could have afforded to drop the price of four 25 cents a barrel and still have made a handsome profit. I think you ought to reduce the price 50 or 60 cents right away, and it would be a very fine act on the part of the Ogilvie Company. It would be a fine advertisement," said the member for Vancouver.

Mr. Black replied that it could not be figured out so that the public would benefit.

Mr. Pringle remarked that they were all agreed that the public had to pay the bill, and the public were interested in having wheat converted into flour at the lowest possible cost. It was vital to the country to have cheap foodstuffs.

Donald Sutcliffe, M. P., pointed out that the cost of food had also a great effect on the price of foodstuffs. Mr. Hedley Shaw, of the Maple Leaf Flour Company, was again on the stand this afternoon. He stated that the capital stock of the old Maple Leaf Flour Milling Company was one million dollars, and of the Hedley Shaw Milling Company, \$1,150,000. These were absorbed by a new company called the Maple Leaf Milling Company, Limited, and the stock of the new company was placed at \$4,000,000, of which \$2,000,000 was common stock and \$2,000,000 preferred. The directors were Sir D. C. Cameron of Winnipeg; Hedley Shaw, Charles W. Baird, John Stuart, Robert Cooper, J. F. Barker and W. Stead. When the new company was formed, he said that the assets were appraised at \$3,770,000. There was an amount as to whether these were accumulated profits or what they really were, and at one stage of the proceedings, Mr. Stevens remarked:

"We are not quite so simple as to let you get away with an accumulation of that kind."

Mr. Shaw said that the old companies took stock instead of cash but it was not bought out on the appraised value.

The witness, questioned closely, said he had no idea how much he himself got and Mr. Stevens said: "For the head of the Maple Leaf Milling Company, you have got one of the most wonderfully blank minds I have ever seen."

He added if the witness did not know they had better get the information, the member of Vancouver remarked: "I think Mr. Shaw could give it to you now if he wanted to."

Mr. Pringle summed up the situation in this way: "There was created in 1910 a new company which took over the two old companies and gave the owners \$4,000,000 and \$1,160,000. They had been spending three hundred dollars a share for their stock."

Again Mr. Shaw said he could give no information when Mr. Stevens asked him to accumulate profits of the company. The latter retorted the opinion that this organization was getting extraordinary profits, was accumulating a big reserve, and that it would be re-capitalized. Mr. Shaw said he could give no information as to what had been done a few years ago as there had been a fire and the books were burned up.

PIMPLES ITCHED AND BURNED

Face Was Badly Disfigured. Cuticura Soap and Ointment Healed.

"Small red pimples and blackheads began on my face, and my face was badly disfigured. Some of the pimples festered while others wealed over and there were places where the pimples were in blotches. They used to itch and burn terribly."

"I saw an advertisement for Cuticura and I tried them. They stopped the itching and burning and I used four cakes of Soap and three boxes of Ointment which healed me." (Signed) Miss V. Hayne, Sturmont, N. S., Dec. 25, '18.

LIFT OFF CORNS!

Doesn't hurt a bit! Sore corns lift right off with fingers.

Costs few cents! Drop a little Frezzone on that touchy corn, instantly it gets hot, then you lift it right off with the fingers. Why wait? Your druggist sells a tiny bottle of Frezzone for a few cents, sufficient to rid your feet of every hard corn, soft corn, or corn between the toes, and calluses, without scalds or blisters. Frezzone is the most talked of discovery of the Cincinnati genius.

GUM TENDERNESS

It is true that four out of five people over forty suffer from gum-shrinkage, or Pyorrhea (Riggs' Disease). But many people even under thirty have Pyorrhea. Women, particularly after the baby comes, are peculiarly subject to Pyorrhea. At such times they cannot be too careful about their teeth.

Pyorrhea commences with tender gums, or with gum-bleeding, at tooth-brush time. Gradually the gums become spongy. They inflame and then shrink. The teeth become exposed to decay at the base and tiny openings in the gums become the breeding places of disease germs which infect the joints—or tonsils—or cause other ailments.

Beware of that first gum tenderness! Try Forhan's for the gums. It positively prevents Pyorrhea, if used in time and used consistently. No ordinary tooth paste will do this.

And Forhan's cleans teeth scientifically as well. Brush your teeth with it. It keeps the teeth white and clean.

If gum-shrinkage has already set in, start using Forhan's and consult a dentist immediately for special treatment, 30 and 60c tubes. All druggists.
