## JACK DEMPSEY TOO RUGGED FOR GEORGES CARPENTIER

Nate Lewis Thinks So, and He Seen the French Champion in Action—Says Body Blow Would Beat the Pride of Paris—Has Great Record During the War.

Nate Lewis, the sphinx of the boxing world, happened to be an interested spectator at the spectacle when Georges Carpentier fought and, therefore, has an up-to-date line on the ability of the French champion. Being a member of the fight profession for many years, Lewis naturally paid the closest attention to the workings of Carpentier. "Has Carpentier a chance fighting Dempsey?" was a pointed query. "It is this way," replied Lewis. Then he narrated the following:

"The physique of Carpentier is decidedly against him in a battle with Jack Dempsey. It is a handicap that will surely beat him in my opinion. He's fast, clever, tireless and hits hard. But he is a slenderly built chap and lacks the frame necessary for a man able to stand before the terrific onslaughts of the champion. Has everything necessary but the bulk, and that's what will tell.

"Body Blow Would Beat Him."

"It won't be necessary for Dempsey to hit Carpentier flush on the jaw to beat him. The champion might find that a difficult proposition. But every time he would drive his powerful arms against Carpentier's body he would take away a lot of steam and rob him of his energy. Carpentier isn't a fighter that can stand the grueling. Under the system it wouldn't be long before the champion would stop the French idol.

"Carpentier's chances—slight one at that—would be to take the jump and tire Dempsey out. If such could happen, then it would make matters very interesting. In such a case then he might startle the world. He is endowed with tireless energy and possesses a brand of skill that borders on the uncanny. He can dance around on his toes and pop up his left over cleverly and then follow with a right that is high perfect. The only way to describe this right is along the lines of a perfect whiplash through the golf links. It's a beauty, and it seldom misses its mark.

"Don't forget that he would hit Dempsey and hurt. His blows are on the sharp cutting order, and land in rapid succession. His defense is marvelous, but notwithstanding all these wonderful attributes his make-up is too delicate to stand before the smashing of a man possessed of the

tremendous power of Jack Dempsey. If he managed to beat Dempsey he would be the greatest attraction in the world. For he's a right fine chap."

Rickard Likely Promoter.

Carpentier left France with only two contracts signed, one for the movies tour under the management of Jack Curley. He expects, however, to sign up for Dempsey during his stay in America. Manager Deschamps informed Lewis that everything pointed to staging the fight, as he had received a cable from Jack Kearns, manager of Dempsey, stating he would like Deschamps to sign Carpentier with Rickard. At the same time Deschamps will discuss the big fight with Curley.

In discussing Carpentier's work during the war Lewis told the story of how the French champion was always in the thickest of the battles simply because he was Carpentier. "Was only a few days after the first injury that he was directed to drive an auto of one of the French generals instead of convalescing. He became so popular that a millionaire adopted him as a foster son as a worthy successor to a famous ace who lost his life."

"But he's not sturdy enough to beat Dempsey," concluded Nat Lewis.

## Old Country Football Games

London, March 22.—(By Canadian Press)—First League Association games played today, resulted as follows:

Sheffield Wednesday 0; Newcastle 1. Oldham 0; Bradford City 1. Bradford 0; Manchester City 1.

Second League.

Tottenham 2; Westham 0.

## Ottawa Won First Game From Seattle

With Four Minutes to Play Darrah Broke the Tie and Won First of Stanley Cup Series—Score 3 to 2.

Ottawa, March 22.—Ottawa won the first game of the Stanley Cup series on a slush covered surface here to night by a score of three to two. When Jack Darrah took George's rebound with four minutes left to play he broke the tie that threatened to send the teams into an overtime struggle.

The ice was in a terrible state and the game soon developed into shilly. For two periods it looked as though the Westerners would win out. Frank Neighbor scored the qualifying goal in the third period and Darrah clinched it. Ottawa undoubtedly had the better of the play but were followed by a persistent jinx. They were at sea most of the time on the heavy going.

## Joe Stecher Won In Straight Falls

Champion Heavyweight Wrestler Defeated Grandvich of Bohemia—Strangler Lewis Trimmed Edwards of California.

Rochester, N. Y., March 22.—Joe Stecher, champion heavyweight wrestler, defeated John Grandvich, of Bohemia, here tonight in straight falls. Stecher won both falls with a body, scissors and arm lock. The first in 41 minutes and 15 seconds, and the second in 12 minutes and 35 seconds.

Ed "Strangler" Lewis, defeated John Edwards, of California, getting two falls with a bar hammerlock, the first in one hour, ten minutes, twenty six seconds, and the final in 11 minutes and 40 seconds.

## Southern League

London, March 22.—(Canadian Associated Press)—Southern League:—Luton 1; Queens Park Rangers 1.

## GREB WON ON POINTS

Pittsburgh, Pa., March 22.—Harry Greb, Pittsburgh, won on points from Larry Williams, Bridgeport, Conn., in their ten round bout here tonight. Both boxers are light heavyweights.

## Local Bowling

### FOR SILVER TROPHY

The annual bowling tournament for the Brunswick-Balke-Collender Company's large silver trophy, emblematic of the championship of New Brunswick and Eastern Maine, will be held on Black's alleys on April 21 and 22. Invitations have been issued and it is expected that teams from Fredericton, Moncton, Amherst, Calais and two from St. John's—the Y. M. C. I. and Black's Alleys, will compete. There may be one or more teams entered, but it will not be definitely known until replies have been received by those sent invitations. The large silver pin has been put up for competition for several years and has been won by the Y. M. C. I. Victoria Alleys, Calais and Black's, the last mentioned team winning it several years in succession.

### SENIOR BOWLING LEAGUE

In the Y. M. C. A. senior bowling league on the Y. M. C. A. alleys last night the Riverdale took three points from the business men. Following is the individual score:

Riverdale	Business Men
Latham . . . 100 87 87 274 91.3	Bent . . . 77 73 79 229 76.3
McGowan . . 93 88 87 268 92.3	Barnham . 79 82 84 235 78.3
Willis . . . 93 78 82 253 83.3	Smith . . . 74 83 97 254 84.3
J. McGowan . 88 92 83 263 87.3	Jackson . 93 91 85 269 89.3
Jenkins . . . 86 104 91 281 93.3	Jarvis . . . 84 94 93 271 92.3

447 454 430 1331

The Riverdale and the Business Men are now tie for the championship and have only each one more game to be played.

### THE COMMERCIAL LEAGUE

On Black's bowling alleys in the Commercial League last night, the E. Barbour team took four points from the Atlantic Sugar Refinery. Following is the individual score:

Atlantic Sugar Refinery	E. Barbour
Hazlewood . 78 76 76 230 78.3	Belyea . . . 90 92 93 275 91.3
Poungnet . . 64 88 73 225 78.3	Cosman . . . 92 78 78 248 82.3
Lawrence . . 92 85 74 251 82.3	Sealey . . . 74 83 85 242 80.3
Gears . . . 71 84 74 229 76.3	Pike . . . 82 98 91 271 90.3
Leever . . . 80 87 78 245 81.3	Stammers . 87 107 90 284 94.3

385 420 388 1190

### WELLINGTON LEAGUE

On the G. W. V. A. alleys in the Wellington League last night the J. & A. McMillan team took four points from the C. N. R. Following is the individual score:

J. & A. McMillan	C. N. R.
Quinn . . . 83 90 88 261 87.3	Stevens . . 74 82 92 248 82.3
King . . . 79 82 84 245 81.3	McManus . 94 82 94 270 9
Sinclair . . 75 82 91 248 82.3	Kelly . . . 94 72 78 244 81.3
Dever . . . 74 81 89 244 81.3	Slipp . . . 76 87 78 241 80.3
Morgan . . . 103 80 86 269 89.3	Fleet . . . 83 84 86 253 84

441 408 437 1286

### Olympic Rules For Ring Stars

Trials Will Be Conducted Similar to Those in Track and Field Events.

Boxing and wrestling trials for places upon the American Olympic team will be conducted along lines similar to those arranged for the track and field events.

These conditions were worked out at a recent meeting of the American Olympic Committee and the official programme of sectional and national trials will be announced within a short time.

It is probable that the sectional contests will be assigned to certain cities in the South, Middle West, Atlantic Coast, Rocky Mountain and Pacific Coast territories.

The conditions to govern these bouts will be identical with those which will prevail in the Olympic contests at Antwerp, August 15 to 26. Eight-ounce gloves will be worn by the contestants, and the boxers will compete under the rules of the International Boxing Federation.

Three three-minute rounds will form the ordinary engagement, and two judges, in addition to the referee, will pass upon the merits of the boxers. In case of a disagreement of the judges at the termination of the third round the referee has the power to order an additional round to break the tie.

The official programme of the Olympic games states that the boxing contests will be held at Antwerp from August 15 to 25, with entries closing on July 28. The weight divisions will consist of eight classes, in which each nation will be permitted to enter three contestants, two of whom may compete. The weight limit in various classes is as follows: Flyweight, 110.23 pounds; bantamweight, 116.3 pounds; featherweight, 125.66 pounds; lightweight, 145.50 pounds; welterweight, 160.50 pounds; middleweight, 158.73 pounds; light heavyweight, 174.16 pounds; heavyweight, over 174.16 pounds.

### ALLAN CUP GAME

Toronto, March 22.—University of Toronto, inter-collegiate champions, gave the "Volves of the North" a surprise tonight in their first contest in the continuation of the Allan Cup elimination games here by holding a 2-0 victory.

## Brosseau Proves A Quick Winner

In Montreal Last Night Canadian Champion Knocked Out Al McCoy, Former World's Champion, in the Second Round.

Montreal, March 22.—Eugene Brosseau, Canadian middleweight champion, tonight knocked out Al McCoy, former middleweight champion of the world, in the second round of a ten-round bout here. This is Brosseau's third successive knockout within a week and the twenty-third since he became a professional. After the fight McCoy admitted that at no period of his career could he have stood up against Brosseau for ten rounds.

When the men opened the fighting McCoy rushed at Brosseau. He showed a clinch, and in the fighting Brosseau landed rights and lefts that made McCoy wince. Following the break, McCoy walloped Brosseau with a back-hand punch and followed with a left to the body. Brosseau forced the fighting until the gong sounded.

Round Two—From the beginning the fight was all Brosseau's. He showed lefts and rights to McCoy's head and body. A right cross sent McCoy to the first time. He took the count of nine, scrambled to his feet, only to be knocked down again. Again McCoy took the count of nine and staggered to his feet. He fought gamely, but as he did, with a right Brosseau sent in the smash that added another knockout to his list.

In the preliminary bouts Jimmy O'Hagan, of Albany, knocked out Sailor Waldon, of Syracuse, in the second round of a ten-round bout, and Red Vigam knocked out Deuseste, of New York, in the third round of a ten-round bout.

## SAILORS-MARINES IN OLYMPIC GAMES

Washington, March 21.—Plans to enter athletes of the Navy and Marine Corps in practically all of the Olympic games to be held at Antwerp next Summer have been announced by the Navy Department. Events for which teams will be entered include swimming, rowing, boxing, wrestling, track events and shooting.

The Great Lakes Training Station will be named as the chief training quarters for the swimming, boxing and wrestling aspirants.

## Big Leaguers Playing Ball

Wichita Falls, Tex., March 22.—Exhibition:—New York Nationals . . . 14 17 2 Boston Americans . . . 8 7 2 Batteries—Douglas, Benton and McCarty, Smith; Kharr, Harbarrow, Lensure and Devine.

## MICHIGAN CHAMP IS AFTER MEYERS

Ben Stefanski, Michigan's middleweight wrestling champion, is looking for new fields of endeavor and wants to become a world's champion.

Stefanski has met many of the best men in the country and is now out to get on with Johnny Meyers, the Chicago lad who lays claim to the world's middleweight title.

Realizing that it may be a tough struggle to get a match immediately with Meyers, Stefanski is willing to take on the best men in Chicago, or anywhere for that matter, and show that he is worthy of a chance at Meyers.

Playing golf is a new idea for the cure of the insane.

## Essex Almost Doubles Light Car Endurance

Essex Has Performance Like the Costliest Fine Cars—Its World Endurance Record Has Never Been Rivalled

The most important thing Essex has proved is that weight and size are no longer necessary to finest car quality. Its 3037 miles in 50 hours is a world endurance record. The test was official. Supervisors of the A.A.A. certified the Essex stock chassis in every detail.

Never before was a car driven at top speed for 50 hours. The grind was equal to years of road use. Yet the Essex showed no measurable wear.

What car, the Essex size and weight, can even attain a mile-a-minute speed, much less keep it up for 50 hours?

Such Endurance as You Want in Your Car

These decisive tests proved Essex not only the supreme performer of the light car field, but they showed that the moderate priced, economical Essex has such endurance and dependability as few large, high priced cars offer.

Greater size could add nothing to Essex. It has the qualities, weight and size are built to give—riding comfort, solidness, distinction and smooth, quiet pace. But in addition it has fuel, oil and tire economy. And its great durability means freedom from repair costs and positive, dependable transportation.

Essex is easy to operate. Driving does not fatigue. Its quick response to the lightest touch—and its smooth, restful comfort in motion, account for this.

That is why so many women are Essex owners. They appreciate its safety, too. Its controls are simple and instantaneous. It makes fast time, with security, even in difficult traffic.

Essex Wins On Quality Minus Useless Weight

Essex won recognition on the issue of finest quality without useless weight and size. That issue is uppermost today. You will take pride in your Essex from the first. Its beauty, luxurious fittings and its performance give it distinction everywhere. And time will increase your respect for it. You will come to rely absolutely on its dependability. You will find it always ready for any demands you may make.

These are reasons why Essex set a world's sales record in its first year. And orders are now so far ahead it is certain even that unrivaled mark will be surpassed this year.

Thousands, realizing this, are placing their orders now. We advise that you do the same, to avoid disappointment.

## BIRTH CONTROL IS DISCUSSED BY BRISBANE

Should There be General Knowledge and Consideration of This Important Subject?

## HOLLAND IN THE LEAD WITH GOOD RESULTS

False Modesty Blamed for Much of the Distress Arising from Poverty and Other Evils Due to Over-Population—Physical Standards Weakened.

(Continued from Page One.)

Decide whether or not she will become a mother today or postpone the responsibility. Holland has cut down the per centage of death, has grown in population and has the lowest infant mortality in Europe. That should be known.

In the United States on the other hand, where it is illegal to give information on birth control, there is more abortion, which means killing children before birth than in any other country in the world.

Malthus, an English clergyman, is called the father of birth control. He advocated "no more children than the condition of the country can afford." He was denounced as ungodly, though his suggestion was substantially "control yourself, don't marry until you are well along in life, when you will have fewer children, and live in a more moral manner."

That suggestion has never taken strong hold on any population, anywhere. Next as a birth control advocate comes James Mill, whose article in the Encyclopedia Britannica, supplement, one hundred years ago, declared the best means of checking population to be the most important problem of the day.

There have been bitter discussions on this subject during the last hundred years. The clergyman, the economist of life, the crime of interfering with it, the right of God alone to decide on population, upon the arrival or non-arrival here of centuries created by him.

They were answered roughly by Thomas Malthus, an English clergyman of political economy at Harvard College. In the following emphatic paragraph: "For the sake of large families among the rabble, highly commendable. Employers who want large supplies of cheap labor, military leaders who want plenty of recruits for their gunpowder, and politicians who want plenty of voters, all agree in commending large families and rapid multiplication among the poorer classes."

Many physicians and some judges favor birth control. Dr. Jacob, a great specialist on child welfare, whose memory of the scientific world holds in respect, wrote:

"Often hear that an American family has had ten children, but only three or four survived. Before the former succumbed, they were a source of expense, poverty and morbidity to the few survivors. For the interest of the latter and the health of the community at large, they had better not have been born."

There is only one country known in which that question is regarded with hypocritical sneers, and that country is ours.

A judge in Australia, Justice Windyer, said this: "Information cannot be pure, chaste and legal in Morocco at a guess, but impure, obscene and indecent in a paper, pamphlet or book. Information, to be of value as a safeguard from the miseries of overpopulation and overcropping, must be given wholeheartedly to the masses likely to be overbred. The time is past when knowledge can be kept as the exclusive privilege of any caste or class."

Herbert Spencer's view was expressed as follows:

"In the politico-economic ideal of human existence there is contemplated quantity only and not quality. Instead of an immense amount of life of low type I would far sooner see half the amount of life of a high type."

Spencer, a scientist, knew that great and uncontrollable fertility is absolutely necessary to maintain low forms of life. Perhaps human beings are still included among these lower forms?

One weak spot in the argument of birth control advocates is their constant repetition of the idea "we have too many inferior children from the inferior lower classes. We want more children from the upper class." But do we? What percentage of the world's really great men have come from the upper classes? Not 1 per cent. Not one half of 1 per cent, although opportunity, knowledge and leisure have been with the upper class children.

The mother of Napoleon Bonaparte began having children when she was fifteen or younger. Some died. She went right on, and finally Napoleon Bonaparte came to change history and make kings ridiculous. His mother
