

## IMPRISONED AND BANISHED.

### SENTENCES PASSED ON BUF-FET, GUERIN AND DE-ROULEDE.

Each Made a Dramatic Speech at the Close of the Trial and Applied for Position as Martyrs—Their Requests Were Granted by the Senate.

Paris, Jan. 4.—The trial of the conspirators before the high court (senate) was finished today. M. Deroulede, still weak from his illness, entered the hall bearing on M. Barillet's arm. After the reading of yesterday's decision M. Fallieres ordered the expulsion of the men acquitted and the public prosecutor asked for the application of sentences against the convicted. M. Buffet's counsel, M. Normand, followed in behalf of his client, and began to expatiate on the latter's sentiments, when M. Fallieres stopped him and told the lawyer to keep to the question of the sentence.

"Well," said M. Normand, "strike my client, so that the country may judge the extent of the hate and fear which animate you."

M. Buffet then said: "You have dealt me a blow. Thank you. You have condemned the government 12 times, and I thank you 12 times. I do not want to benefit by the Beranger law. If there were street demonstrations tomorrow I would take part in them. I do not want pity or indulgence."

M. Deroulede then rose and said: "Since you have coupled me with the traitor Buffet and the traitor Guerin, I will share their fate. But however hard may be the sentence, however distant the exile which is even more cruel for me, a patriot and a soldier, I will return. I will return when justice returns! I shall be free when the nation becomes free! I am here by Louis's orders! Strike me then! Accomplish the act which will remain an indelible shame on the history of the parliament! Vive l'Armee nationale! vive la Republique du peuple!"

M. Deroulede was listened to in profound silence but his passionate utterances caused a great sensation. M. Guerin said he did not wish to make any further defence. He would not utter a word of repentance or appeal for indulgence, adding: "However hard my trials and sufferings, I will say to my friends 'courage! confidence!'"

M. Deroulede again rose and said: "I desire for the first time to shake hands with these men. I met them here and I have learned to esteem them." M. Deroulede then shook hands with Mm. Buffet and Guerin.

M. Buffet cried: "This is the first and, perhaps, the last time."

M. Guerin said: "It is the first time we are in agreement."

M. Deroulede shouted sarcastically, "Yes, here is the conspiracy."

The secret session of the senate and the sentences were announced later.

The high court (senate) in secret session condemned Mm. Buffet, Deroulede to ten years banishment. M. Guerin was sentenced to ten years confinement in a fortified place. M. Deroulede was sentenced to ten years confinement in a fortified place.

The decision condemns the convicted men to pay the costs of the prosecution. The sentences took effect immediately. M. Deroulede was hurried to the train and immediately dispatched toward the Spanish frontier, he having decided to reside at San Sebastian.

M. Guerin will be removed to a French fortress, probably on the island of Cleron, off the West coast.

M. Buffet will go to Belgium.

RASCALITY IN MONCTON.

Three Men Being Tried for Swindling a Country Woman—Two Impostors from Halifax Arrested.

Moncton, Jan. 7.—Duncan Stevenson and A. W. Bray, who have been undergoing a preliminary examination before Stipendiary Magistrate Kay, were committed for trial Saturday evening. Mrs. Pollock, who suffered by the alleged conspiracy, was on the stand nearly all day and detailed the story of her arrest and conduct of accused as well as that of Justice Bourgeois, before whom she appeared. Stipendiary Kay refused the accused bail but on application to Judge Wells the parties were released on \$1,000 bonds each.

John and Stephen Tobin, who hail from Halifax, are under arrest here charged by the sheriff of Albert county with obtaining money under false pretences. It appears the Tobins have been travelling through Albert county begging, the younger man passing himself off as a blind man and asking for assistance to enter the Halifax School for the Blind. It is said the parties secured quite a lot of money in this way, but when fraud was discovered the Albert authorities took steps for their arrest with the result the Moncton police captured them here Saturday night. They will be taken back to Albert county for trial.

AMERICANS IN CUBA.

Havana, Jan. 6.—Seven cases have been referred to Governor-General Wood by Judge Advocate Dudley and Major Runcie, who have been at work for some time investigating the circumstances surrounding the detention in prison of persons charged with various offences, to many of whom no trial has been granted. In these cases referred to the governor-general the prisoners had been held several years before being placed on trial, on comparatively light charges and had then been given long sentences. The cases of most of these men had been passed upon ten months ago by General Ludlow, but he was forbidden to act, Governor-General Brooke deeming it advisable to allow the Cubans to work on the matter themselves. But as the law machinery was cumbersome, practically nothing has been done. General Wood has issued pardons for all seven of the men whose cases have been referred to him; and the investigation committee will report other cases every two days and these will be immediately acted upon. Though General Wood de-

sires this work to be done as quickly as possible, he does not wish to act with undue haste, feeling it best that each case shall be thoroughly sifted so that only those really deserving of pardon shall obtain it.

The Viking, the first of the two revenue cutters for service on the Cuban coast, arrived today, and is being put in readiness for duty. Collector Bliss says he does not know to which coast to send her for the North coast needs a boat having not more than eight feet of water to enable her to enter the small harbors and double the Keys. The cutters are needed to put a stop to smuggling which is always going on, and to stop looting on the islands and sponge grounds by boats from other islands.

Director of Posts, Mr. S. J. G. is gradually appointing Cubans as postmasters all over the island. At the present time there are only Americans in charge of post offices in Cuba.

Deceased had been connected with the Foresters, but had permitted his membership to lapse some months ago.

## THE NEXT STRUGGLE.

### GERMANY AND THE UNITED STATES WILL BE OPPOSED.

Germany Has Ambitions for Colonial Enterprise in South America Which Will Run Squarely Against the Monroe Doctrine—German Representative Denies the Story.

London, Jan. 6.—The Spectator publishes today an article entitled "Germany and the Monroe doctrine," in which it says:—

"America and not England is the rival in German opinion. It is with America and not England that Germany realizes the most serious danger to her supremacy. We don't say for a moment that Germany regards America as an enemy but Germany realizes it is America that at the moment lies across Germany's path and unless she is able to reckon with America on equal terms she will not become the world power of the future that she desires to be."

The Spectator goes on to declare that Germany's objective is South America, and that the Monroe doctrine bars her way. How to get around this is puzzling. Emperor William counts upon the assistance of the United States to help him when his new navy is ready to carry out his South American expansion ideas, especially in Brazil. The Spectator warns the United States that "if it intends to uphold the Monroe doctrine in the future it must not go to sleep over it now, but prepare to support a policy so tremendous; if she is certain to suffer great humiliation at the hands of the patient, efficient and persistent Germany," adding "when the United States comes to realize the danger to her supremacy in the Americas, she will call the Americans to aid and if the result is no higher than hers Germany will not be satisfied."

Washington, Jan. 7.—The statements published today credited to the London Spectator regarding Germany and the Monroe doctrine caused some comment in diplomatic circles here today. Officials of the German embassy say they lament the appearance of such statements and declare they were never published with a view of creating a distrust of Germany's real attitude toward the American nation. The Spectator's article is declared to be without foundation in fact and was a pure invention from start to finish. He should not have paid any heed to it except for the fact that his attention has been called to the matter by a representative of the press. He hopes, he says, that no serious attention will be given to publications of the character stated but that they will be treated with contempt by fair-minded people.

ANOTHER STABBING AFFAIR.

Curtis Snow, of Canoe, Indicted as East Snow, a Fellow Seaman at Eastport.

Eastport, Me., Jan. 7.—During a dispute which took place last night in the cabin of the Gloucester fishing schooner Henry W. Longfellow, Clarence Arterveld, of Bay City, Mich., was severely cut in the leg by Curtis Snow, a fellow seaman of Canoe, N. S. According to the statement of the rest of the crew, the two men were in a dispute in rather a surly mood and some of the crew attempted to make him go to bed. This seemed to enrage him, and, seizing a knife, he rushed at Arterveld. The latter managed to strike down the weapon and prevent it entering his side, but the long, thin blade struck the leg, just behind the knee, where it severed an artery. Word was at once sent ashore for a physician, but before he arrived Arterveld was covered with blood.

Snow was taken into custody and will be brought before the local court in the morning. His counsel today to talk with an Associated Press representative, and said that, on going on board last night, the skipper, Captain Perry, struck him twice. Later Arterveld also struck him and this proved too much, so he seized a knife and struck Arterveld. The men were taken to the hospital and it is thought will recover.

FRANCE AND SANTO DOMINGO.

St. Thomas, D. W. L., Jan. 6.—The French flag ship Cecile has gone to Santo Domingo, where she is called to take the French flag ship Cecile. The German schooner ship Stoch is here.

Washington, Jan. 6.—The United States government is at this moment not concerned in the attempt of the government to settle a long standing claim against the government of Santo Domingo by a naval demonstration as reported in the press despatches. What the future attitude may be will depend entirely upon the developments, but it may be stated that there is a growing disposition here to shelter governments from the consequences of their disregard of the rules of honesty and international obligation. It is not positively known that in the present instance turbulence is involved but from the statement of facts set out in the press despatches the case appears to bear a strong resemblance to others which have preceded it, and which in our estimation, justified the action of foreign governments, in adopting summary measures to collect their money.

This particular case is said to have been pending about three years and it is understood that President Mureaux has finally arranged to settle it, but the agreement was disregarded by Jimenez, his successor, and the present occupant of the presidential office of Santo Domingo, there is a possibility that the United States may ultimately become involved in this affair through what is known as the New Dominican Syndicate, controlled by the work capitalists. This concern has a concession from the San Dominican government by which, in return for defraying the interest of the public debt and otherwise assisting the government financially, it is entitled to collect all of the customs revenues of the island. The present administration in Santo Domingo is believed to be so low in regard to its honesty and integrity that it is unable to pay the \$50,000 demanded by the French government in settlement of the pending claim. If it is this case the French

naval commanders should undertake to seize the customs revenues, an interesting question might arise. It should be stated, however, that so far the state department is not informed that Jimenez has recognized as still in force the concession held by the New York syndicate coming from the late President Mureaux.

He was 23 years of age and returned from Butte, Montana, where he had been for some time, last December in rather poor health. He was down stairs at dinner with the family this evening, and afterwards took a severe coughing spell. It is thought that a blood vessel must have given way. He was a very popular young man. He had been in British Columbia and the Western States for the past two years and had come home to recuperate. It was hoped that a few weeks' rest would have restored him to health, but the end came moments afterwards returned a verdict of not guilty for the husband.

## TRAGEDY IN COURT.

### WIFE'S DYING WORDS SAVE HER HUSBAND FROM CONVICTION.

Pathetic Scene in New York—Mrs. Gordon Stricken with Apoplexy as She Swore Her Husband was Innocent of the Theft Charged Against Him.

New York, Jan. 4.—A most tragic occurrence took place today in part 3 of General Sessions court. The wife of a prisoner was stricken with apoplexy and cerebral hemorrhage, while she was in the witness chair testifying to his innocence. She was carried unconscious and in a dying condition from the room. So earnest and ringing were the last words of an apparently dying woman that the judge moments afterwards returned a verdict of not guilty for the husband.

The case was that of Louis Gordon, a Russian mechanic, charged by Abraham Joffe, a cloak maker, with larceny of a chain valued at \$80. When Gordon took the stand in his own behalf and vehemently denied the charge his wife, Mary, a small woman with a face that betokened suffering and pain, grew excited. Finally when herself was called to testify she half arose from the chair and, as if declaring, said: "It is not true; it is not true that my husband took the chain. We are honest people. God knows. I met Joffe on the street three days before he had my husband arrested. My husband had killed his wife and was prevented from rushing to her side. The judge, with the consent of the counsel, at once closed the case and it was given to the jury. The latter returned in a few minutes with a verdict of acquittal."

Mrs. Gordon was taken to the hospital where the physician said she had had a stroke of apoplexy and a cerebral hemorrhage. Her condition was very serious.

Bacon, rector of Trinity church, performed the interesting ceremony, after which the bride and groom were escorted to Mr. Snider's residence where a bountiful repast was provided.
