Nor have English journalists been less decided in their testimony to the usefulness of the book:—

"The Author gives a graphic account of the country which he travelled. . . Those about to visit Canada can gather from these pages a foretaste of what their experiences are likely to be."—Anglo-American Times.

"Mr. Morris spent two months in the New World, during which time he visited various important cities, such as Quebec, Montreal, Baltimore. and New York. All who wish to obtain an insight into North American life and manners should read these pleasant, chatty letters. Mr. Morris is an altogether agreeable companion. His advice to emigrants is sound and useful."—Examiner.

"We commend the book for its straightforward, plain, honest view

of America and the Americans. - THE HORNET.

"This most interesting and informatory volume. . . . There is a fine literary flavour about many parts of the book. . . It is a most genial book, and one which will stand criticism."—LIVERPOOL MERCURY.

"It is this want of pretension which is the great recommendation of the volume: the letters are natural and unaffected, being the genuine outpourings of an intelligent traveller who faithfully describes what he saw, and who writes with an agreeable freshness, which is partly the result of the absence of all straining after effect, and partly the reflex of the evident zest with which he throws himself into the enjoyment of his holiday."—Bristol Mercury.

"It is impossible to read these pages without being struck at the pleasant, easy style in which they are written, and, at the same time, at the care and accuracy with which important details and statistics are dealt with. Mr. Morris travels with his eyes open, and what he has to tell us is sure to be amusing and instructive."—WEEKLY DESPATCH.

G

"Mr. Morris is a close observer of men, manners, and things, a plain yet graphic describer of character and scenery, and brings to bear upon the subjects handled much steady, sound sense."—Preston Guardian.

"The letters contain much interesting matter, and the last chapter much sound reasoning on emigration. Intending emigrants have to thank the author for much valuable information."—Public Opinion.

"There is a vast fund of information in these letters, and the volume is one which may be taken up and read for purposes of study as well as amusement."—LAND AND WATER.

These, however, are but a few of the many favourable notices the book has received, and it is sincerely hoped that in its cheaper form it may meet with a still further generous approval.

September, 1875.
