

SECTION III

Surgery of the Nervous System

FIG.		PAGE
76, 77.	Doyen's Burrs	171
78.	Application of Elastic Band round Skull in Craniectomy	177
79.	Lane's Forceps	179
80.	Cushing's Temporal Operation of Trephining for Decompression	180
81, 82.	Cryer-Sindeck Burrs	181
83.	Cushing's Cerebellar Operation of Trephining for Decompression	182
84, 85.	Doyen's Burrs	182
86.	Post-auricular Incision for opening the Mastoid Antrum, the Lateral Sinus, and the Descending Cornu of the Lateral Ventricle	183, 184
87.	Opening the Mastoid Antrum and the Lateral Sinus. Exposure of the Temporo-sphenoidal Lobe and Puncture of the Descending Horn of the Lateral Ventricle	187
88.	Ligation of the Middle Meningeal Artery	188
89.	Exposure of both Cerebellar Lobes	192
90.	Unilateral Exposure of the Cerebellum for the Removal of a Tumour in the Region of the Cerebello-pontine Angle	196
91.	Cortical Areas of the Brain	197
92.	Position of the Motor Areas in the Brain of Man (Krause)	198
93.	Centres upon the Inner Cerebral Hemisphere (Horsley)	199
94.	Author's Craniometer	200
95.	Determination of the Chief Centres and Convolutions on the Skull by Author's Craniometer	201
96, 97.	Osteoplastic Laminectomy	204, 205
98.	Patient after Extirpation of Gasserian Ganglion	208
99.	Exposure of the Gasserian Ganglion by the Temporo-sphenoidal Route	209
100.	Excision of Gasserian Ganglion through an Angular Incision	211
101.	Osteoplastic Exposure of the Orbit	216
102.	Ramifications of the Facial Nerve (Bockenheimer) to illustrate Proper Direction of Incisions on Face	217
103.	Ligation of the Supraorbital Artery. Exposure of Supraorbital and Infraorbital Nerves. Opening of the Frontal Sinus	218
104.	Resection of the Second (Superior Maxillary) Division of the Trigeminal Nerve	220
105.	Exposure of the Second (Superior Maxillary) Division of the Trigeminal Nerve at the Foramen Ovale	221
106.	Exposure of the second (Superior Maxillary) Division of the Trigeminal Nerve at the Foramen Ovale	223
107.	Ligation of the Supraorbital Artery. Exposure of the Supraorbital and Infraorbital Nerves. Opening of the Frontal Sinus	224
108.	Exposure of the Third (Inferior Maxillary) Division of the Trigeminal Nerve at the Foramen Ovale	225
109.	Incision for resecting the Third (Inferior Maxillary) Division of the Trigeminal Nerve at the Foramen Ovale. Exposure of the Facial Nerve	226
110.	Ligation of the Facial and Temporal Arteries. Trephining the Ascending Ramus of the Jaw to expose the Inferior Dental Nerve	228
111.	Facio-hypoglossal Anastomosis (Frazier)	231
112.	Ligation of the External Carotid with the Origins of the Lingual, Facial, and Occipital Arteries. Ligation of the Subclavian Artery	233
113.	Exposure of the Spinal Accessory Nerve in the Middle of the Neck	234
114.	Ligation of the Lingual, Common Carotid, Iliac, and first part of Axillary and Internal Mammary Arteries	235
115.	Exposure of the Upper Three Cervical Nerves	237
116.	Ligation of the Occipital Artery. Exposure of Great and Small Occipital Nerves	238
117.	Ligation of the External Carotid and Subclavian Arteries	240
118.	Ligation of the Axillary, Brachial, Superior Profunda, and Subscapular Arteries. Exposure of Median, Subscapular, Musculo-spiral, and Circumflex Nerves	241
