CONCRETE CONTRACTORS' ASSOCIATION.

The Concrete Contractors' Association was recently organized in Toronto, R. A. Rogers being elected president. The Association includes ten firms and promises to grow. The concrete work done in Toronto during the year 1905 totalled about \$800,000, and over 500 men were employed.

Messrs. F. H. Hopkins & Company, railway, mining and contractors' supplies, Montreal, have favored us with one of their 1906 office calendars.

In view of the progress that has been made in the past few years in the use of concrete reinforced with steel, a pamphlet recently issued by the B. Greening Wire Company, Hamilton, Ont., is of more than ordinary interest. It is devoted to wire bonding for concrete construction. The company make wire bonding of all strengths of material and in any lengths desired, the long lengths forming a continuous bond being features of their reinforcements. For the construction of culverts, tunnels, sewers, floors of bridges, etc., reinforced concrete is very suitable and has many advantages.

THE GREY AND BRUCE PORTLAND CEMENT COMPANY of Shallow Lake, Limited.
