HAMILTON ONTARIO

An Incubator Without Cash Until October, 1904

There is big money to be made in raising chickens with an Incubator.

Canada exports annually millions of chickens to the United States and Great Britain.

The consumption of poultry in Canada is increasing rapidly and the poultry dealers complain that they cannot get enough poultry to fill their orders.

One woman bought a number two Chatham Incubator the first of March—she had five hatches by July first and had four hundred plump, sturdy chicks. In six months her Incubator had paid her \$100.00, several times its cost. A Chatham Incubator should pay for itself each hatch.

We have perfected an incubator and brooder. We believe it is now absolutely the best in the world. We have sufficient capital behind us, and we are out for the entire business in incubators. We know that there is no other incubator that can approach the

Chatham Incubator

This is our proposition: To demonstrate our absolute confidence in the Chatham Incubator we will send one to you, freight prepaid, and give you one, two or three years to pay for it on your note.

The fact that we sell our Incubators in this manner guarantees them to the fullest extent. Thirty days' trial is a delusion and a snare. If you have good luck you may get off one hatch in that time, and even then you are uncertain, and if you reject the machine you will have to pay the freight both ways. But with us you send in your order and we ship the machine prepaid. When it arrives, if it is not all we claim for it, send it back at our expense. If it seems all right, start your hatch, and we will give you until October, 1904, before you have to pay a cent in cash. At the end of that time you will have off five or six hatches, and you know for a certainty that you have made a thorough test. We positively guarantee that the machine is a good hatcher. Every machine should sell a dozen, and we will, on no account, allow a machine that does not work to remain in any neighborhood.

Chatham Incubators and Brooders have every new improvement worth while in an incubator or brooder. The incubators are made with two walls case within case, of dry material that has been thoroughly seasoned in our lumber yards. They are finished in antique oak, are built solid as a rock and will stand any amount of usage for years. They are fitted with a perfect steel and brass regulator that insures a successful hatch. There has never before been such an offer as this made in the whole world. The sooner you take advantage of this offer the more time you will have before October, 1904, to make first payment. Cut off the coupon and send it in to-day for our booklet on the way to raise chickens, what it costs and your profit. You will obtain all information regarding the Chatham Incubator.
