stand the daily tear and wear to which they are subjected so well that we have never yet had occasion to replace a worn bearing, although these machines have been sold in Ontario, Quebec and the Maritime Provinces for the last six years. This is a unique record, warranting the assertion that the Melotte runs easier, costs 75 per cent. less for repairs and lasts twice as long as any of its competitors. ### The Cock o' the North Line

Is rapidly growing in demand, inquiries are numerous, and a large number of sales are being made.

To keep pace with this large increase in our business, we are running two shifts—a night crew and a day crew—which would not be necessary were the engines and separators not the best made.

The above illustration represents our new separator, the Toronto Combination, with band cutter and feeder attached.
