Until within a few years most of the diseases of the ear were pronounced incurable, and even to day this belief is widespread. Fortunately there is an error, for nearly all the dispases of the ear are curable.

Do not listen to the advice of those who tell

you that your deafness has lasted so long that nothing else can be done for it. Very many who have been deaf for years can be entirely ured, and still many others who are rendered by their deafness totally unfit to transact business, or have intercourse with their friends. can receive enough benefit to make them use ful citizens, and a comfort and a blessing to their homes, and the community at large. Therefore, TAKE NO RISK! Do not let a trouble of the ear of any kind run on from week to week, month to month, or perhaps
