

Clergyman Creates a Sensation.

Tells His Congregation There is a Cure for Drunkenness.

It is generally admitted among medical men, that drunkenness is a disease. Some modify this by saying that it is a sign of weak will power. Now, weakness is dangerously near disease. As the taste for liquor is a disease it is only necessary to find the proper cure, to be rid of the trouble.

A well-known Methodist divine, interested in the cause of temperance, made it his business to find out if any cure for drinking has been discovered. This is an extract from one of his sermons on Temperance.

"I find that the use of Samaria Remedy for the cure of drunkenness is steadily increasing. Wives—who wish to win back their husbands—and mothers—who long to redeem their sons—are giving Samaria Remedy to the wayward ones, in tea and coffee. Those who have relatives or friends who feel that they need help to shake off the hold of the demon, rum, buy Samaria Remedy. In the alcoholic wards of the leading hospitals, Samaria Remedy is ordered for those who express an earnest desire to stop drinking. It delights me to say that Samaria Remedy is doing a grand, good work and has my hearty blessings for saving so many from life-long dissipation and degradation."

Free Sample and pamphlet giving full particulars, testimonials and price are sent in plain sealed envelope. Correspondence sacredly confidential. Enclose stamp for reply. Address The Samaria Remedy Co., 26 Jordan Chambers, Jordan St., Toronto.

NEW SUIT TONIC.

Smart Clothes Act as Strong Mental Stimulant.

"Very few men can do themselves full justice unless they are well dressed."

This opinion was expressed by a well-known specialist in nervous and mental diseases.

"A good suit of clothes," he said, "acts as a splendid tonic upon most of us."

"The mere fact of being smartly dressed is a strong mental stimulant, and the man who is shabby and knows it, is often less capable than his well-dressed mental inferior."

"To the average man shabby or ill-fitting clothes are a source of constant worry, which frets away his energy and takes the keener edge off his will."

"I most strongly condemn the practice of providing lunatics in public asylums with ill-fitting clothes, for the mentally afflicted, when recovering his or her reason, cannot but be worried and upset at having to wear what are very often grotesque costumes."

"The general impression is, I think, a true one—that the man in a disgraceful hat, baggy-kneed trousers and a shocking coat who can appear quite self-possessed among a number of smartly-dressed people is either a millionaire or a man of extraordinary brain power."

"Few men can get along successfully in life without the moral support of smart clothing."

A Purely Vegetable Pill.—Parnelle's Vegetable Pills are compounded from roots, herbs and solid extracts of known virtue in the treatment of liver and kidney complaints and in giving tone to the system whether enfeebled by overwork or deranged through excesses in living. They require no testimonial. Their excellent qualities are well known to all those who have used them and they commend themselves to dyspeptics and those subject to biliousness who are in quest of a beneficial medicine.

STRIKING AN AVERAGE.

The children were not allowed in the kitchen, but nobody had ever forbidden their sniffing outside the door to catch the delicious odors which could be obtained by a close application of a small nose to a crack.

"Why, Ethel," said Mrs. Harwood, who discovered them in the entry just outside the kitchen door one Saturday morning, "Why are you twitching Tommy and slapping him?"

"Cause he isn't playing fair, mother," said Ethel. "He's had five smells and I've only had four, and it's my turn."

"I am, too, playing fair," asserted Tommy, his utterance smothered as he again applied his nose to the crack. "I've got an awful cold, and I can't smell half as much as she can!"

Perhaps some money talks, but most of it goes without saying. A magician's wife may have occasion to feel proud of his trickery.

Dr. Fissick—"Oh, no; that's Teutonic."

Dr. J. D. Kellogg's Dysentery Cordial is compounded specially to combat dysentery, cholera morbus and all inflammatory disorders that change of food or water set up in the stomach and intestines. Such a sufferer will find speedy relief in this Cordial.

FROM A GOOD FAMILY.

He was a gentler specimen of his class than one usually meets, and when he made his appeal for something to eat at the kitchen door he was asked by the good-natured cook to come in by the fire. As he sat there she said:—"You don't look as though you had always been a tramp."
"I haven't," he replied, without offence. "I came from a very good family."
She let him eat on without interruption, but after he had finished she said:—"You say you come from a good family. May I ask the name?"
"It was Blankleigh," he responded.
"Why," she said, in surprise, "that's the name of the occupier next door to us."
"Yes," he replied. "I noticed it on the door-plate. That's who I came from. He's got his dog on me just before I called here."

A DELICATE TOUCH.

Old Miss Bugbee was very deaf, and very sensitive about her infirmity. Such was her natural cleverness and ingenuity, however, that she usually escaped from serious embarrassment; and she always so vehemently scorned car-trumpets and devices of mechanical nature that her friends no longer dared to suggest them to her. But on one occasion things went not according to schedule.

"She came in to borrow magazines yesterday," said Mrs. Russell, who lived next door, "just after the piano-tuner had gone. He'd been here all the morning, making such an outrageous racket that I felt sure even Miss Bugbee would be annoyed. But she hadn't been, not a mite."

"I said to her, 'Miss Bugbee, I wish you could hear my daughter Sarah play some time. We all think she's improving.'"

"I just meant I hoped she'd drop in some time when there were folks here, and we were having music. But she took it that I meant I was sorry she couldn't hear. Did you ever?"

"Well, she up and remarked, very loftily indeed, 'I think she's improving, too, Mrs. Russell. I was going by this morning, and I heard her playing way out on the sidewalk, and she seemed to have real touch—real touch!'"

They Never Knew Failure.—Careful observation of the effects of Parnelle's Vegetable Pills has shown that they act immediately on the diseased organs of the system and stimulate them to healthy action. There may be cases in which the disease has been long seated and does not easily yield to medicine, but even in such cases these Pills have been known to bring relief when all other so-called remedies have failed. These assertions can be substantiated by many who have used the Pills, and medical men speak highly of their qualities.
