Peace Whispers, ATTACK OF **Overtures From** Central Powers, Rise Above Din of Battle on The FRENCH SAILING SHIP RETURN. West Front

By Courier Leased Wire The second phase of the great battles of Arras, the Aisne and Champagne has ended in the complete failure of the most determined and costly German efforts to stem the tide of victory now settling against them. The net result of Field Marshal von Hindenburg's supreme effort to regain the initiative has been that the British and French have tightened their grip on the German line and have placed in great peril the key posi-

tions held by the Germans in northern France. The customary lull which separates all major operations in modern warfare has now come and the expectation is that it will be broken by a British blow on a great scale against the Drocourt-Queant line, already practically outflanked. In the meantime the usual crop of peace rumors which marks these lulls has made its apating Ailette Valley Cap-
