

## AT 60 ENJOYING PERFECT HEALTH

By the time a man or woman is 60, the kidneys and bladder need a little help to keep them in good working order.

Rheumatism and backache so often accompany the later years of life, most people have an idea health and vigor cannot be expected much after the fiftieth year.

As a matter of fact there is no basis for these fears, we could show a number of letters proving our contention that if GIN PILLS are taken to keep the urine normal, prevent colds settling on the kidneys or bladder, and ward off Rheumatism attacks, almost everyone can enjoy perfect health at this late period.

I wrote from a letter received from a prominent Consulting Engineer of New York City—"Your remedy I find, at 60 years of age, to give perfect relief from the Kidney and Bladder troubles incident to one of my age."

Perhaps you know a man or woman whose life is made a torment by Rheumatism, Backache, Sciatica, or Swollen Joints. Don't let it continue, for Gin Pills will surely bring that longed-for relief. You don't have to buy Gin Pills to try them. Write for a free sample. ### CANADIANS DRIVE THROUGH GERMAN KEY POSITION

CANADIAN HEADQUARTERS IN FRANCE, via London, November 6—(By W. A. Willson, special correspondent of the Canadian Press)—In another great advance alone their whole front, the Canadians seem to have taken Passchendaele, Goudberg, and Messelmarkt. If this is so, no more signal triumph has been won in the whole history of the Canadian corps.

Our division will have more than settled the old score on St. Julien. Dominating Roulers and Roulers plain, Passchendaele would give the allied forces a firm footing on the series of great spurs extending from Gheluvelt, on the south, including Bellevue spur, and Passchendaele ridge, running northeast for miles. Possession of Passchendaele would mark a great triumph in the long struggle to secure possession of this higher ground. It would give the allies the advantage of position in the salient, and relegate the Boches to the lower levels, dominated by our guns.

To hold at All Cost. Knowing too well the vital necessity of maintaining the Passchendaele position secure, Hindenburg, after the successful Canadian advances on Bellevue spur and the capture of Crest farm and Meetechele issued a special army order should be held at all cost and if lost must be retaken. For days the enemy had been rushing up and new formations of troops to insure his hold on the position. His efforts proved unavailing. The best troops the enemy has give ground before our forces, who have moved steadily towards their objective since the beginning of the Passchendaele operations, October 25.

Battle of Big Guns. At six o'clock this morning our guns opened a tremendous barrage fire, and their shell holes and temporary mud two minutes later, men from Manitoba, Saskatchewan, Alberta and Western and Eastern Ontario were out of their shell holes and temporary mud wall trenches in an advance which by 730 had carried them beyond their objectives. It was an artillery and machine gun battle for an hour and a half our guns were never silent. Protected by a splendid barrage our infantry moved slowly forward while our counter-batteries dominated the enemy's guns, and swept his assembled artillery positions with their fire. Details of the fighting are not yet to hand, but our forces on the right, plunging towards Passchendaele, have advanced well beyond the ruined village, overcoming the fortified enemy shell holes and concrete strong points in advance, and capturing numerous machine gun positions which threatened our attack from the Passchendaele-Zonnebeke road to the village itself, where the enemy, from cellars and machine gun positions in the ruins, fought to break down our attack. To the left our infantry met with desperate opposition seventy-five yards in front of Meetechele, where the enemy stronghold formed the key to their whole left position as Meetechele did to ours.

Messelmarkt was the scene of another determined resistance.

### THE PREMIER OF GREECE IS SURE OF FINAL VICTORY FOR THE ALLIES.

Austria and Germany Encouraging Pacifist Conference at Berne

ROME, November 5—The Germans have crossed the Tagliamento river the war office announces. The Austro-German pressure against the Italian northern wing has been intensified.

The announcement follows—"The enemy who has succeeded in bringing some of his forces on to the right bank of the Tagliamento, north of Pinzano, has intensified his pressure against the left wing of our line."

Paris, Nov. 5—"There was intermittent artillery activity in Belgium and Upper Alsace," says today's official announcement. "An enemy attack on our small post west of the Upper Concy forest was repulsed and prisoners remained in our hands. Everywhere else the night was calm."

Rome, Saturday, November 3—"I am sure of the final victory of the allies, though the war may be a long one," said Premier Venizelos of Greece to the Associated Press today.

Washington, November 5—Germany and Austria are making strenuous efforts to further the pacifist conference to be held at Berne, November 12, to discuss a basis for an honorable peace, according to an official cablegram received here yesterday from Zurich, Switzerland. Even the Swiss, the message said, regard this solicitude of the Central Powers for peace as in strange contrast to their recent declarations that they were entirely satisfied with their military status.

Petrograd, November 5—No further passports will be issued to Russians who desire to leave the country, according to the Novoe Vremya.

Petrograd, November 5—In the region of the Black Sea coast the Russians have driven the Turks from their first line and advanced in some places to the third line, the war office announces. Much booty was captured.

### STILL HOLD 82,000 BARRELS APPLES

Co-operators have shipped 25,000 barrels of Potatoes and 53,000 Barrels of Apples—A profitable season

Berwick, November 5—At a meeting of the board of directors of the United Fruit companies held here today there was a strong feeling of optimism and a confidence that this season would prove a most profitable one for the members of the organization. The course pursued by the management was approved and the opinion expressed that it would tend to bind more firmly the bonds of co-operation among the farmers of valley. It was regretted that early in the season a number of members had drawn away from the organization and sold their fruit to outsiders. The present prospects, however, portended that the loyal members would be well rewarded for sticking to the organization. The co-operators have already shipped 53,000 barrels of apples and 25,984 barrels of potatoes. It is estimated that 82,000 barrels of apples yet remain to be handled by the co-operators.

### POTATOES ARE ON THE DOWN GRADE

The United States buyers have left Prince Edward Island where they found the farmers holding strong for high prices. Since their departure there has been a weakening of the market. Carload lots are now being offered delivered in Halifax at \$1.75 per bag and are not finding ready buyers at that price. The jobbing price in Halifax during the past week was around \$2.15 per bag. So far there has only been one schooner load of this season's potatoes arrive from the island, but now that the weather is becoming cooler and danger of heating cargo eliminated there should be a number of arrivals and the price locally will soon feel the effect.

C., represented the fire underwriters and Mr. Matheson represented the Attorney General, R. B. H. Robertson defended. The evidence showed that the last attempt to destroy the building and plant by fire was nearly successful. The accused is out on \$1000 bail to appear in the Supreme Court.

### GERMANY REACHES CRISIS IN MAN POWER

Washington, November 6—Cable reports reaching here from Switzerland say that Germany has reached the crisis so far as her man-power is concerned. For three years, according to these dispatches, Germany has lost on an average 1,200,000 men annually and this number will at least be equalled in 1918. It is contended that to continue the war on the same scale for another year, the Germans must have at their command a reserve of at least 2,000,000 men whereas they actually will have a reserve of only one and one-half million, including youths of the class of 1920.
