## BANK DEPOSITORS ARE ASSURED.

No Occasion for Uneasiness, Sir Frederick Williams-Taylor States.

From the Montreal Gazette:

"Sir Frederick Williams-Taylor, General Manager of the Bank of Montreal, on being asked with regard to the banking situation, stated that as president of the Canadian Bankers' Association and otherwise, he thought there had been too much talk of further banking mergers and this, obviously, had a very unsettling effect. So far as I know as president of the association and general manager of the Bank of Montreal, there are no mergers likely in the near future, and in my opinion there is no occasion whatsoever for alarm or uneasiness on the part of depositors in Canadian banks, he added.

## A Word to Bank Depositors.

From the Toronto Globe:

"The Globe is constrained by a sense of duty to say to bank depositors that upon their steadiness and confidence at the present time the financial well-being of Ontario in the immediate future largely depends.

"Some of the depositors in our Canadian chartered banks have recently been making inquiries concerning their financial standing.

"Some have gone farther and have changed their deposit accounts from one bank to another.

"The Globe is assured, on the highest financial authority, that the deposits in every chartered bank carrying on business in Ontario to-day are amply secured, and that there is not the least necessity for concern as to their safety.

"The removal of deposits from one bank to another does not necessarily increase their security, and it is understood that the banks themselves, in times like the present, do not favor such action. It only tends still further to disturbance and unrest when confidence and sanity are essential.

"The Globe hopes its readers will take no part in rocking the boat."

## Here and There

Over a thousand million fish eggs of various species were collected by the fisheries branch of the Department of Marine and Fisheries during 1921.

Inbound ships from the United Kingdom are averaging 4,500 tons of freight for discharge at Vancouver. Outbound they take about 4,000 tons per vessel. Last year the average outward tonnage was practically the same while the inbound was only about one tenth of what it now is.

Announcement has been made that a Government wireless station is to be erected on St. Paul's Island, which stands in the entrance to the Gulf of St. Lawrence, off the most north-easterly point of Nova Scotia. Two Government wireless engineers have arrived there and are making arrangements for the erection of the station.

One hundred and forty thousand Canadian school boys have been banded into an army of guards to watch for and prevent forest fires in the Dominion this year, according to an announcement made by the Canadian Forestry Association. The new organization, which is known as the Young Canadians' Forest League, will, it is expected, save several million dollars' worth of timber from fire ravages.

That "prospects for increased immigration into Canada are excellent" was one of the most important statements made by E. W. Beatty, K.C., upon his return from an extended tour of England and European capitals. The president of the Canadian Pacific Railway believes Canada is progressing in the matter of immigration, but intensified efforts are essential, he considers, to offset erroneous impressions abroad that Canada does not require new settlers.

A record run between Winnipeg and Quebec was recently made by a special Canadian Pacific train when passengers from the Orient were, through delay caused by landslide, in danger of missing their connection with the C.P.S.S. "Empress of Scotland" at the eastern port. The train covered the 1,579 miles in a little over 36 hours, whereas the schedule time for trains between these two cities is 53 hours. The passengers had crossed the Pacific on the C.P.S.S. "Empress of Russia" and were taking advantage of the 21 day Orient-to-Europe service of the Company.

The United States has invested in Canada \$2,500,000,000, according to the Bankers' Trust Company of New York, which has just completed a survey of Canadian industry and the amount of United States capital invested. Of the total sum invested, \$1,200,000,000 is in bonds, and the remainder in farms, mortgages, small businesses, industrial enterprises, banking and private loans. It is computed that more than 200 branch factories were opened in Canada by United States concerns in 1919, and a great number in 1920 and 1921, and that late in 1922 the number of these came to 700.

A collie dog is reported to have saved the life of a London West girl, while accompanying the child to a nearby store. On the way she stopped on the C. P. R. railroad tracks in the path of a westbound train. Realizing the child's peril, the dog threw himself against her with sufficient impact to knock her clear of danger, and was cut to pieces by the train before he could regain safety.

The girl's mother tried to discourage the dog from going when the daughter started for the store, but he went, and was the means of saving the child's life, and died heroically as a result.
