NO BONUS FOR
THE FARMERSWho May Go Into the Growing
of Sugar Beets.The Conservatives Moved to That Effect
but the Government had the
Motion Rejected.

Toronto, April 11.—In the House yesterday afternoon Mr. Boyd, of North Gray, moved in Amendment to Mr. Dryden's motion for the third reading of the bill respecting the encouragement of the beet sugar industry "that this House, while approving the main provisions of the bill, regrets it contains no provision securing for the farmers producing sugar beets a reasonable bonus or bounty upon each ton of beets produced and sold by them." Mr. Boyd thought the government had not gone far enough in the way of encouraging the beet sugar industry, which, if properly developed, would become one of the most important in the country. In New York State the bonus was one cent per pound, and provision was made that the farmers should receive at least \$5 per ton. In Minnesota the farmers received at least \$4.25, and in Illinois \$5 per ton. The Legislature thought nothing of voting away millions in a single night for railway and other purposes. Why not vote a few hundred thousands in the interests of the farmers?

Mr. Dryden thought the amendment introduced a vicious principle. They might as well pay a bonus on every pound of bacon. He approved the farmers would say no to any such proposition. The difficulty was not in the production of beet roots, but in finding the market. To do this it was necessary to erect factories. To increase the price to be paid farmers from \$4 to \$5 would tend to prevent capitalists from investing their money. Mr. Whitney considered that a small amount of protection should be given to the farmer. If the manufacturer and the grower should have a quarrel the manufacturer could refuse to buy the farmers' beets and place the latter at his mercy. The amendment would commend itself to right-thinking men.

Mr. Martier disagreed with his colleagues of the Opposition. If the farmer intended to grow beets, a little sum such as proposed in the amendment, would not be nearly extra inducement. To say that the farmers should be bonused was going too far. The amendment was defeated by a vote of 46 to 34. Mr. Martier voting with the government.

A MASONIC AT HOME.

The annual at home of the Thameville Lodge No. 245 A. F. & A. M., was held in the Lodge room at Thameville on Tuesday evening last. The evening was such as to favor in every way the members of the fraternity. The fine weather and good roads resulted in a good attendance. The earlier part of the evening was occupied by parlor games of various kinds, interspersed with musical selections. Refreshments were served at 10.30 p. m., after which the program was resumed. Two quartettes, consisting of Miss Sherman, Mrs. Stewart and Messrs. Sherman and Moraw, accompanied by Mrs. Davies, and Miss McPherson, Mrs. Stewart and Messrs. Horn and Davidson, accompanied by Miss Shirran respectively, rendered several selections in fine form, which were enthusiastically received. Mr. George Boothroyd also contributed to the program by giving several selections from his phonograph. The evening was pleasantly concluded shortly after midnight.

general election, and Mr. Clergue was very active on behalf of Mr. Mulock during the campaign.

Mr. MacLean commented humorously upon the spectacle of a Liberal Government giving the Conservatives pointers on protection of infant industries. What defence of this method would Sir Richard Cartwright offer? According to market reports in yesterday's New York World, rails for the Siberian Railway had been contracted for at \$24 per ton. Counting bounties these rails were to cost the country \$40 per ton. The Government was hypocritical in this nickel constituent, as there was no nickel in English rails. There had been a steel rail scandal, and the disease had broken out even more strongly in the blood of the second generation.

Mr. Blair denied that he had, like MacLean, bought rails at a falling market.

Mr. Osler pointed out that there was no date named in the contract for the fixing of the year's prices, so that the company could choose its own time for fixing the price.

Mr. Borden said that to put it mildly, Mr. Blair's statement in regard to the contract was not very correct. If the minister's statement as to the market price were not accurate they were not of much value.

Discussion continued on these lines up to six o'clock, the expectation being that it would be resumed after dinner, but Mr. Blair evidently had enough of it for one sitting, and so, when, after the private bill hour, the House again went into supply, it was the Indian department estimates which were taken up, and Mr. Blair was not in the House.

AT THE THEATRE.

The Fenberg Stock Co., which opens a three night's engagement at the Grand theatre, company which has ever visited Canada, and so far has played in the cities east of here to the largest receipts ever known in the various houses at popular prices. Canada has generally been considered poor territory for repertoire simply because the companies of this nature that have come to Canada in the past have only been such outcasts as could do no business over the line. The Fenberg company has been known for years in the central and eastern states as a first-class organization and is now making its first Canadian tour at the suggestion of Mr. A. J. Small, of Toronto, who controls a circuit of Canadian theatres, and who was anxious to see if first-class repertoire would not prove as attractive here as in the United States.

The company's tour has proven so successful that it has already been offered enough Canadian time to nearly fill next season and will be back to cover the same ground next September.

The opening bill to-night will be "Roanoke" and a full program of specialties, moving pictures and illustrated songs will be added, giving a continuous performance and in reality a double bill. Prices 10, 20 and 30 cents.

Not the Ordinary Kind of
Ready-made
Clothing

If you have a prejudice against ready-made clothing, it's out of date, get rid of it. Come and see our ready-made garments—not the throwtogether cloths of the big city sweat shops—the kind you formed your opinions on. Our clothing is cut and made under the supervision of custom tailors, with as much thought and care as the average custom work.

A man who buys his ready-made clothes here is dressed—not uniformed. Variety of styles, suitable to all sizes and shapes of men have given a character to our clothing not seen in the ordinary ready-made garments.

Our stock of men's, youths' and boys' clothing for spring is now on the counters. You can be pleased here if no where else, but if you come here first you'll never go anywhere else.

Furnishings too—all the right kind.
