CALDWELL GIVES BAXTER A HIT

that either the member for St. John or the returning officer in my riding would not be within the bounds of that riding and say there were not men fit to be registrars in any of those polling subdivisions. I know the people in those subdivisions very well and I do think I know a crook in one of those new subdivisions. It is just possible that was the reason there was no registrar appointed in that division. I wish to be dealt with regard to prepaying lists and furnishing them to the candidate. Rule (3) of section 2 provides:

"Each registrar shall complete, date at his place of residence and certify as in form No. 18 to this act such copies of the voters' lists on the 15th day before the polling day and not other. It appears to be all right looking at it from two of the most public and conspicuous places within such polling division and another he shall retain for revision. He shall on that day fixed for the nomination of candidates deliver or send by registered mail to each of the candidates a copy of such lists."

dear, how that whatever this returning officer did, whether it was seen to be irregular as regards the law or not, was sanctioned by the Chief Electoral Officer. I will not go into the matter further. The only other observation that I wish to make is that the non-attendance of the hon. member to-night. He has absolutely accused me, in plain and direct terms, of having falsely represented him. When he attempted to prove that, he read, not from my own statement, but from the letter from the returning officer, language that I made it clear I was not responsible for except as the vehicle to convey it to the House. When the hon. member used that language with regard to me, that I had spoken falsely—

Mr. CALDWELL: I rise to a question of privilege. I did not state that the hon. member had made a false statement. I stated that he read a document which falsely accused me. I reiterate that.

Mr. BAXTER: I adhere to my original statement of the matter, and my final comment on it is that the hon. member has shown respect neither for the Senate nor for the Constitution, nor for the dignity of this House, in not withdrawing the statement that he made in regard to the matter. There is no question—the ears of hon. members are sharp enough to hear it. As I said, and as I repeat, I am offended in much more violent way by myself had it been made outside the walls of this Chamber.

Mr. CADWELL: With regard to the statement that the returning officers had agreed to do certain things and that he was justified in doing what he did, I want to say that he did not do what the Chief Electoral Officer instructed him to do, but proceeded to furnish me with the lists of names that had threatened to get an injunction.

With regard to the last statement of the hon. member for St. John and Albert I can take up his offer outside whenever he wants to.

Mr. SPEAKER: I will ask the Sergeant-at-arms to see that no disorder takes place in the lobby.

BASE BALL

(Intended for last week)

The management of the Baseball Club will soon call a meeting to make definite plans for the summer. It is expected that the Driving Club will

make arrangements with the Athletic Association will use the race track for the games. In talking with Bert Cramer, who has been the managing spirit and is one of the officials at the Baseball Club, a representative of the Observer was told that the Driving Club was taking up the question of their track being used, with the Woodstock Driving Club, to find out what arrangements the Woodstock Club makes with the Woodstock (Baseball) Club. It is likely that the same arrangements which holds in Woodstock will be adopted here. In the meantime summer is hastening on its way and it is imperative that whatever is done be done quickly. The baseballers are anxious to play and the public is just as anxious to see them play. And at the first game all Edmundston will root for the home team.
