So he quietly provided himself with trusion upon their alode. George struck end of one of the heavy coils of rope to arated from his comrades. Halting in a provided. two short hand-gaffs, with stout wooden several of the birds with one of the small line and thus fastened carehandles, having on one end a running his gaffs and, after killing them by fully together all the heavy coils.

loop to be fastened around the wrist, and pourling their hads against a rock Taking the small line in his hand lonely plain, he sat down to eat his on the other end a strong steel hook. threw them over the precipice to the George diew across the heavy coil, and breakfast, when, to his bostor, he saw These were designed for getting a hold boys below, for he knew they would when he got hold of the end of it dragged wolves approaching. When they came in cracks and fissures in the cliff where linger about the base of the island for a it to a perpendicular rock and carefully very near he flung them all the food he

up by means of the fingers, for George knew that the most daring and expert sat upon the sod near the verge of the over into the gulf, and it went with a their advances for many seconds. With The coast was hald and desolate and the skiff. The air was filled with the unfastened the line from Jack's leg, then 'As ye've the meat ye'll have the music ontained no human habitation between larsh cries of the birds, and the echoes saying a few cheery words to his mother, too, and thereupon he proceeded to blow the dock from which the skiff had set in the cliffs turned the place into an got upon the rope and descended swift- up his chanter.' out and the i-land, or f r several leagues utter Babel. He sat there for half an ly down ever the precipice and was beyond. When they reached the base hour, and by that time the sun sank in received below by a boat which lay by the piles than they turned in wild terror of the island which stood close to the the far western waters. Now he noticed the lower end of the rope. A wild and fled as fast as their long legs could mainland they pulled their skiff upon the sails of the skiff, and the brisk breeze hurran went up from his delighted cury them. 'De'll hae it! said the arls, a small pla form of rock, got out their carried her swittly around the nearest friends, but no one made a louder demon- piper; 'had I thoch ye were so fond of Until the gates of heaven, agleam with pearls, a small platform of rock, got out their carried her swittly around the nearest station of guns and began shooting the birds that headland and left him there with the strain of joy then Jack, who went the music ye would have got it afore glosmy shadows creeping along the treats. Then Gauge teld that he island and nestled on glosmy shadows creeping along the left him there with the screaming down the abyss and perched in the treats. Then Gauge teld that he the terraces. Then George told that he island, leagues from everything human in the boat beside his beloved master. he went his way, not forgetting from was going up. They knew how expert and surrounded by screaming, angry The mainland party returned home by time to time to blow a blast so wild and he was, and remembered all the danger- bards, whose eyes gleamed in his face as the marshes and reached the dock just as shrill as might effectually scare any us places that he had climbed before, they brushed past in the gathering dusk. George arrived there by the fisherman's prowling foes .- Temple Bar. but their faces grew white with fear as Night very soon fell upon sea and skiff. they looked at the four hundred feet of land, the birds ceased their tumult and

'Now, boys,' said George, as he threw whistled about his ears, while the rest, off his coat and tightened his belt," 'dou't less, meaning cry of the sea came to him on the infant's forehead the spirit placed be a bit frightened about me; with these from below. Not a star was to be seen, trouble and I can come back too with jout of the South filling the heavens to Frank, for the eggs, only put plenty of night was suddenly riven with flaure oakum in it so they won't break when awful thunders ho'lowed a ross the steady himself, and the pallid railway I am coming down.' Frank brought heavens, seeming to shake the island and official stopped him. him the bag and his hand trembled as he the cliffs about it; then torrents of rain 'Conductor,' he said, 'this is an awful put it around his brother's neck, but were loosened, drenching to the skin rough's retch of road." neither of the boys seemed to know what the poor boy as he by there upon the 'No rougher than it has always been.'

bleak sod. 'Now good-lye, boys; for the present; George had a brave heart, but he felt thing like forty miles of it, just the same, we used to drink a'e to make us work. I'll be through in twenty minutes; these that his chances of escape were very right shead of us.' I'll be through in twenty minutes; these that his chances of escape were very right ahead of us.' cormorants defend their nests so that 1 slim. Down the island wall be could 'But aren't you running frightfully graves. My wife died broken hearted, may be able to gaff some of them. Look not go, and in what other way could be fast!' asked the pallid official, catching and she now lies by her two sons. I am

Then seizing his gaffs tightly in his heart a feeling of remorse that he had hand he sprang toward the cliff, ranning of climbing the island, and far more the conductor, as he grabbed hold of a to make me work—and it makes m nimbly up a half-dozen paces almost as bitter to him than his own misery was seat to keep from diving into the work mow! At seventy-two years of reep home and take thy place there, thy early friends among; light-footed as a weasel. The two boys light-footed as a weasel. The two boys light-footed at him in speechless terror, but when all was young.

New York Recorder.

SAVED BY A RAVEN.

Inimity up a half-dozen paces almost as light-footed as a weasel. The two boys light-footed as a weasel. The two boys light-footed at him in speechless terror, but they had great faith in his skill and courage. He found little difficulty in passing the first dozen ledges or so, for he could easily reach them, and they gave sure footing. Every minute or so the strong through thou his mother would feel when his brother and cousin reached home without him. He knew they had been crying outsome words to him before they left, but the noise of the water, disturbed by the freshening breeze, had when they had been crying outsome words to him before they left, but the noise of the water, disturbed by the freshening breeze, had been crying outsome what they had been crying outsome words to him before they left, but the noise of the water, disturbed by the freshening breeze, had been crying outsome what they left hought how his mother would feel official's lap. 'We're making up time. The stations are some distance apart along here and it gives us a chance. We've got to get in on time.

'Get in where?' asked the official, as he braced his knees against the back of And it is forced home as a true outcome. Two brothers, George and Frank Blackburn, lived with their father in me of the largest settlements on the cliff. After a third of the abrador court Comment Court of the set abrador court of the mine of the largest settlements on the cliff.
