Divines All Meet on a Common Level  
and are of One Accord in Proclaiming  
the Healing Power of Dr. Agnew's  
Cathartic Powder—It Relieves in  
Thirty Minutes.

'When I know anything is worthy of  
a recommendation I consider it my  
duty to tell it.' Rev. Jas. Murdoch,  
Cathartic Powder—It Relieves in  
Thirty Minutes.

'I have known a man who could, and  
who has preached little sermons on the  
wonderful cures effected by this  
famed remedy. What names are more  
familiar to Canadians than the Rt. Rev.  
A. Sweetman, Lord Bishop of Toronto,  
and Dr. Langtry, of the Church of  
England; the Rev. Mungo Fraser, of  
Methodist preaching travel, W. H.  
Withrow, of Toronto. All these men  
have proven what is claimed for Dr.  
Agnew's Cathartic Powder, and have  
given their written testimony to it—

ALASKA INDIANS IN BUSINESS.  
MEETING THE GETTING OF MISER-  
ABLES AND CHEATING RICH.

The Alaska Miner says that the mis-  
sionary may have hitherto been the  
Kew. Several Indians, acting in the  
spirit of emulation, have started stores of  
their own, and in some instances carry a  
stock of from \$5,000 to \$10,000. There  
are six stores of this description on their  
islands. These educated Indians have  
arrived at the conclusion that there is  
money in commercial life, and have de-  
termined to compete with Mr. Duncan  
and his Portland capitalists. Mr. Duncan  
has met this competition, first by selling flour  
at \$1.25 a sack, and then raising cost  
later to \$2.00 per sack, and all goods not  
needed for his store. The Indians have  
determined to build a dock of their own,  
and have commenced the work. They will  
complete it this summer and allow anyone  
to land there who wishes to.

This is no idle boast, as they have  
plenty of money and can pay cash for  
work they do themselves. Education  
and religious movements on the  
island are being overshadowed by com-  
mercial men. Rich free-milling  
quartz has been found, and the Indians  
hope before long to have stamp mills at  
work.

DYING MAN GRASPS AT A STAW.  
'Dr. Agnew's Cure for the Heart has  
done so much for me that I feel I owe  
it to suffering humanity to give testi-  
mony. For years I had suffering  
pains in my chest, back, and swollen  
ankles. When I took the first dose of  
Dr. Agnew's Heart Cure, my friends  
thought I was dying. It gave me almost  
instant relief, and six bottles entirely  
cured me.'—Mrs. F. L. Lumsden,  
Scranton, Pa.—Sold by E. Lee Street.

ALIEN LABOR LAW.  
THE GOVERNMENT TO TAKE ACTION TO-  
WARD PROTECTING CANADIAN WORK-  
INGMEN.—THE EXPERIMENT TO  
BE FIRST MADE IN THE  
NORTH-WEST.

OTTAWA, July 12.—The Dominion  
government has adopted an entirely new  
plan, so as to protect the Canadian labor-  
er and give him the benefit of the home  
market, something which the late admi-  
nistration never attempted. In fact, an  
entirely different policy was pursued  
with the result that American contractors  
pocketed the money for their contracts and  
left the Canadian laborers, who did the  
work, without any pay. Parliament  
has decided to be appealed to some cases, and  
legislation was passed against the rail-  
ways to provide the wages of the work-  
men who were so deceived. The case of  
the Toronto, Hamilton & Buffalo  
Railway is a recent example, but there  
are no less than six instances in Manitoba and  
the North-West Provinces where work-  
men have been shamefully treated, and  
never had an opportunity of redress.

In the first place, the government has  
decided to put the alien labor law in  
force in Manitoba, the North-West and  
British Columbia, so as to protect the  
Canadian workmen on the Crow's Nest  
Pass Railway. The act can be put in  
operation by the Minister of Justice,  
Sir Oliver Mowat, appointing an agent  
to administer the act. It is therefore  
likely that agents will be appointed at  
Winnipeg, Lethbridge and Roseland,  
and probably other points in the west,  
without delay, so as to see to the enforce-  
ment of the alien labor law in operation. This  
course is not only contemplated in con-  
nection with the Crow's Nest Pass, but  
the same precaution will no doubt be  
taken wherever it is found necessary in  
the interest of Canadian workmen in  
other provinces and at other points in  
the Dominion. In addition to the  
protection afforded by the alien labor law  
it is understood that the government has  
also an understanding with the Canadian  
Pacific Railway to give the preference to  
Canadians in all cases.

The Minister of Customs has also is-  
sued an order to all collectors of customs  
requiring them to collect full customs  
duty from all parties who may bring into  
the country with them goods for working  
on railways. Heretofore this class of  
goods was admitted under the clause  
which made settlers' effects free. Now  
this will not apply to persons who may  
come from the United States to work on  
the railways.

OPERATORS PLANNING A COUP.  
MINES TO BE EQUIPPED WITH MACHINERY  
—COLORED WORKMEN ATTACKED.

PITTSBURGH, Pa., July 14.—It de-  
veloped last night that a number of the col-  
ored operators have been quietly planning a  
coup, which is expected to bring dismay  
to the miners. It is the intention to  
do away with a great many miners.  
When the mines are ready to start miners  
will be imported and put to work under

heavy guard and the premises barricaded.  
With the co-operation of the other op-  
erators, J. A. Seidler, of the Webster C.  
Coal Company, located on the Monongahela  
River, will take the initiative.

THANK HARRY, IND., July 14.—  
Special to the Express from Danville,  
Ill., says: 'Strife between the miners  
commenced in this district last night.  
About 400 or 500 Belgian strikers and  
other foreigners gathered at the Paines  
Mine and when a cage full of colored  
miners who had been at work reached the  
top of the shaft, they were assaulted with  
different kinds of weapons, some using  
knives and others stones. One of the  
colored miners secured a bar of iron and  
a revolver and defended his life. Shots  
were fired, wounding several strikers.  
This infuriated the striking miners and  
they retaliated by an exchange of shots,  
at the same time retreating to the woods.  
Later the strikers attacked a train on the  
Chicago and Eastern Illinois carrying  
miners to the city. The miners inside  
the coaches opened fire, and a number of  
shots were exchanged. It is reported that  
one miner was killed.'

PITTSBURGH, Pa., July 15.—The pro-  
spect for a settlement of the miners strike  
is brighter to-day than at any time since  
the struggle began, and both sides are al-  
most ready to count on a resumption of  
work in the near future. The cheering  
announcement was made last night that  
Dr. Agnew's Cathartic Powder, which has  
been constantly at work and  
without their assistance the success of the  
movement would have been jeopardized,  
has agreed to join with the other op-  
erators in a plan for settlement of strike on  
a true uniformity basis. This result has  
been brought through the efforts of mem-  
bers of joint arbitration commission who  
have been working assiduously to bring  
about a settlement of the strike since  
meeting president Dearmit  
yesterday.

PROHIBITIONISTS MEET.  
SOME IMPORTANT BUSINESS TO COME UP  
FOR DISCUSSION.

TORONTO, July 13.—The Provincial  
Prohibition Convention called by the On-  
tario branch of the Dominion Alliance  
was called to order this morning in Hor-  
ticultural Pavilion by Dr. J. J. Mac-  
laren, Q.C., president. The Rev. Dr.  
Stowe, president of the Toronto Metho-  
dist Conference, offered prayer. Aid  
F. S. Spence, secretary, presented the  
minutes of the last convention. The  
business committee was appointed, con-  
sisting of the Rev. Dr. Stowe, Messrs.  
J. A. Miller, Lewis C. Peake, S. J. Dun-  
can, Clark, the Rev. S. S. Bates, Aid. F.  
S. Spence, and H. Seaman. The annual  
report of the Alliance executive was read  
by Dr. MacLaren. A resolution Canadian  
prohibition efforts during the past year,  
and concluded:—As stated in the call  
for the present convention, there are  
three matters to come before you of  
special pressing importance. (1) It  
is possible that the proposed Dominion  
prohibition plebiscite will be held  
before another year has elapsed. In  
preparation for that event, careful at-  
tention must be given. The thorough  
organization of the electronic, the  
judicious circulation of literature and  
the supplying of our workers with official  
instructions and advice, find all urgent  
matters that will need close and contin-  
uous attention. (2) It will be your duty  
to consider what action should be taken  
to secure an advance in restrictive leg-  
islation at the coming session of our Pro-  
vincial Assembly which will be the last  
to be held before a general election. (3)  
We have also before us this general elec-  
tion, in which we must make such special  
efforts as will secure the return of a body  
more abreast with public opinion regard-  
ing the liquor traffic and more in sym-  
pathy with progressive legislation than  
the present Assembly has shown itself to  
be. Sincerely hoping that wisdom,  
earnestness and success may characterize  
all the proceedings of the session, this  
statement is respectfully submitted.  
Witness.

A PERTINENT QUESTION.  
The Chicago 'Lever' asks: 'Where  
is the saloon-keeper that obeys the law?  
People talk about a license law as  
though it was sure to be obeyed. But  
this is not true. Our license laws are  
violated every day, every hour. In  
many places the saloon-keepers make  
no attempt to obey its provisions except  
those that relate to the payment of the  
fee and an outward observance of the  
law which is to their interest. We are  
told over and over again that Prohibition  
is a failure, but the same people who talk  
this are silent over the great failure of  
license laws.'

DR. AGNEW'S OINTMENT CURES  
Salt Rheum, Eczema, Tetter, Barber's  
Itch, and all like skin diseases and  
eruptions. It gives relief in 24 days.  
Its cures are legion; its failures are  
few. Years of testing, and grows daily  
more of suffering humanity. Good  
for Baby's Skin, good for young, middle-  
aged or old folks. 35 cents.—Sold by E.  
Lee Street.

THE WHEEL.  
LOOK TO YOUR CHAINS.  
It will not infrequently be found that  
a chain becomes alternately tight and  
slack as it runs around the sprocket  
wheel. If the alternation takes place  
with each revolution of the pedals, and  
if there be no dirt on the periphery of  
the front sprocket wheel, very probably  
the crank axle is not fixed centrally in  
the rear sprocket, in which case a  
competent repairer may perhaps put  
matters right.

On the other hand, if the alternation is  
observed to have some slight relation  
to the position of the chain, but not of the  
pedals, and recurs either with each com-  
plete revolution of the chain or with  
each half revolution, the cause probably  
depends partly on whether the chain is  
new or not. If it is new, there may be  
a «stiff link which does not properly  
straighten out after leaving the chain  
wheel. In a case of running will  
come with work.

C. R. EMPLOYEES DISMISSED.  
QUEBEC, July 13.—Some fourteen em-  
ployees of the I. C. R. comprising nearly  
the whole staff of the terminus at Levis  
received notice of dismissal yesterday.  
It is said that ten other employees of the  
line at Chaudiere Junction have also  
been notified to quit.
