PECTACLES are being worn by numbers of people with enses entirely too strong; others ought to have a stronger glass than they do use. If the child who holds a book close in order to ee best, or the older person who finds it difficult to see the finest print at night, will call on us we will soon tell them whether a glass will benefit them or not. In some cases we find it best to give a pair on trial to be changed after using a short time for a tronger lens if needed, and then gradually get the eye accustomed to the help that it needs
