

## FIRE PROTECTION. OFFICIAL ENDORSEMENTS.

Canadian Fire Underwriters' Association. Montreal, Sept. 19th, 1908.  
I beg to say that as the RUBEROID ROOFING made by your Company has been approved by the Underwriters' Laboratories of Chicago, this Association under its existing schedules classifies such roofing of two and three ply grades as first class.

(Sgd.) ALF. W. HADRILL, Secy.

Office of the Inspector of Buildings, City Hall.  
Montreal, Nov. 6th, 1908.  
I am pleased to inform you that I accept your RUBEROID ROOFING when used in this City, as I consider it to be fire-resisting.

(Sgd.) ALCIDE CHAUSSE,  
Architect and Inspector of Buildings.

Department of City Architect and Superintendent of Building.  
Toronto, June 18th, 1910.

I beg to advise that after giving the result of the tests made our careful consideration, Fire Chief Thompson and myself have arrived at the conclusion that we are warranted in accepting 3 ply RUBEROID ROOFING in any limit in the City and 2 ply in all locations with the exception of the section known as Limit "A" which is considered to be in the congested district and in which only 3 ply will be accepted. It is, however, to be distinctly understood that the acceptance of either class of this roofing is subject to By-Law No. 4861 as to construction.

(Sgd.) ROBT. MCCALLUM,  
City Architect & Supt. of Building.

Fire Department Headquarters, City Hall. Montreal, Nov. 6th, 1908.  
We consider the RUBEROID ROOFING as manufactured by your Company as fire-proof, it being graded by the Underwriters' Association as first class.

(Sgd.) L. ALF. D'AMOUR,  
Supply Officer.

Nova Scotia Board of Fire Underwriters. 121 Hollis St., Halifax, N.S., June 16th, 1910.  
Your communication of 14th inst. was placed before our Board at its regular meeting and have to advise you in reply that your RUBEROID ROOFING is on the approved list of roofing materials of our Board and is so considered in rating.

(Sgd.) EDWARD J. FAHIE, Secy.

Building Inspector's Office, City Hall, Corporation of Ottawa. March 6th, 1903.

The By-Laws of the City of Ottawa will allow the putting on of RUBEROID ROOFING on buildings, as a substitute for shingles on felt and gravel, as the same is an incombustible material.

(Sgd.) A. PRATT, Building Inspector.

(Above ratified August 8th, 1910, by present incumbent, Mr. Fotheringham.)

RUBEROID ROOFING COVERS THE ONLY WAREHOUSE SAVED FROM THE CAMPBELLTON (N.B.) CONFLAGRATION IN WHICH 1000 BUILDINGS WERE DESTROYED, 2 MILLION DOLLARS PROPERTY CONSUMED AND 5000 PEOPLE RENDERED HOMELESS.

(See subjoined Testimonial.)

Campbellton, N.B., July 21st, 1910.

The Standard Paint Company of Canada, Limited, Montreal, Que.

Dear Sirs,—We are pleased to inform you that your 2 ply RUBEROID ROOFING laid on our warehouse some years ago gave remarkable proof of its protection against fire in the recent calamity which practically destroyed this town and involved a loss of over two millions of dollars.

The fire occurred on the night of July 11th and the heat in the vicinity of our warehouse was so intense that it was necessary to keep a stream of water playing on the ends and sides of the structure all night. The sparks and burning brands were very thick at times; but your RUBEROID showed its remarkable protection in such a manner that we found it necessary only to play the hose on the lower part of the building, as the sparks falling on the RUBEROID did not ignite it and they simply died away.

We consider RUBEROID saved our warehouse, the only one by the way that remains standing in the town, and congratulate you on a product of such remarkable value as RUBEROID has undoubtedly proven itself to be.

Yours truly,  
JONES & SCHOFIELD,  
Per T. H. Cochrane, Manager.

### Consecration of Bishop Power Postponed.

We are authorized by His Grace, the Archbishop, to make the following announcement. In consequence of formalities of the Roman Court in drawing up the Bulls for the Consecration of Rt. Rev. Dr. Power, owing to the new legislation recently introduced, the necessary documents cannot now be prepared before July. The consecration will consequently be postponed from the day formerly fixed (29th June) to a future date, to be announced in due time.

### Important Matter.

The Star of the Sea Association held a special meeting at their hall last night when President E. M. Jackman introduced a rather unique but popular proposition. The proposal is, we learn, to designate some eligible young man and educate him for the priesthood to minister in the diocese to be presided over by Bishop Power. A large sum, we understand, has been allocated by the organization for this very meritorious purpose. The matter, however, will not be finalized until another meeting is held.

## Uncle Walt THE POET PHILOSOPHER.

I'm tired of Jack London's tales of death in the Arctic snows, where the blizzard covets and walls, and freezes the pilgrim's nose. I'm tired of his Yukon flood, the husky and sled and barge; I'm tired of WEARINESS his tubs of blood, and butchers who roam at large. I'm tired of the Curwood folk, who slaughter and howl and screech; I'm tired of the bowie stroke, I'm weary of Rex E. Beach, I've soured on the cowboy camp, where the gun men make their plays; I'm sick of the cows that tramp around on the plains and graze. I'm tired of the gifted sleuth, so skillful and smooth and wise, who digs up the hidden truth from its grave in a stack of lies. I'm tired of the stories coarse of life in the crowded flat; of narratives of divorce, and "studies" of this and that. I blow in my fifteen cents for a popular magazine, and sit by my garden fence and read till I'm sore and mean. The stories of smut and mud, the stories of vice's chain, the stories of tubs of blood, all give me a convex pain. The yarns of the dive and slum, the stories of fashion's sins, the stories of thief and bum, or Wallingford gulle that wins, all give me a dark green ache deep down in my troubled mind. Ah me, that a man would make one book of the good old kind!
