Pavlova, peerless queen of the Russian Ballet, happy possessor of everlasting youth, has found Pond's Creams valuable above all other creams as a skin beautifier. A beautiful, soft, gives naturally to the skin the smooth whiteness of alabaster and the faint perfume of roses—a beautifier that also protects against sun and wind.

AMERICAN WOOLEN.

Business Looking up—Running 45% Capacity.

Boston—Developments the last few days with American Woollen have been the most encouraging in months. Practically all women's wear lines have been withdrawn and the product of six mills, including Shawheen, a men's wear proposition, entirely booked up.

The expected advance in the prices of men's wear worsteds, the key to the situation, has materialized. They are up from 7 1/2 cents to 27 1/2 cents a yard, and, although the benefits of this revision will fall mainly into 1925 by guaranteeing a decent price level for the winterweight openings, it is not too late to look for additional orders on men's wear.

Operations of American Woollen system are now up to 45% capacity and are rising steadily. Parts of the preparatory machinery are running day and night and will soon permit of another rapid increase in active loomage.

Both selling and manufacturing executives are enormously encouraged over the outlook and expect that operations in December will be highly satisfactory—possibly 85%. The trend is upward from now out.

BALDWIN LOCOMOTIVE.

President Vanclain Calls Attention to Significance of Unprecedented Car Loadings.

Phila. — "September was a good month, better than August, and October will be better than September," said Pres. Vanclain of the Baldwin Locomotive Works. "Our business is the last to feel the impetus of expanding industry. General business is improving and, although there are some slack places here and there, they will soon be eliminated, as people realize that things are getting better. There are always some folks who are slow to act but trail in afterwards. Business outlook is bright. Increasing car loadings tell the story."

AMERICAN SMELTING & REFINING CO.

Earnings Estimated at Rate of \$10 to \$11 a Share so far this Year—Dividend Increase Probable Early in 1925.

N.Y.—At dividend meeting Tuesday American Smelting & Refining Co. will declare regular quarterly dividend of \$1.25, as directors have not as yet discussed a dividend increase, although the company has earned so far in 1924, after all charges, at rate of \$10 to \$11 a share on 609,980 shares of common, with earnings quite steady from month to month. In 1923 the company earned \$3.84 a share on the common.

Plants in Mexico are operating at capacity, and high price for silver and good price for lead are helping Mexican earnings greatly. About Jan. 1 the Rosita project, which with by-product coke ovens, zinc smelters, sulphuric acid plant and by-product recovery works will cost about \$7,000,000, will be in operation. This should help Mexican earnings greatly, as it will supply the Mexican smelters with very cheap coke, thanks to utilization of gas obtained in coke-making for zinc products. Cheaper coke will enable reduction in smelting charges and thereby tend to increase tonnage of ores to the smelters.

In the United States the Tacoma smelter and refinery are operating at about capacity. Garfield plant is working full on Utah Copper concentrates. Hayden smelter is about 50% capacity and El Paso copper smelter at about 50%. East Helena and El Paso lead plants are working full, with Murray at about 75%. Refiner-

ies in this country also are operating at high rates.

In every way the outlook for American Smelting is encouraging. Copper prices are weak, but the greater part of tonnage coming to its copper plant is from low-cost producers. Outlook for silver and lead is excellent, as to demand and price. Zinc does not look quite so well. Unless there be serious reversal of expectations as to the Presidential election, it will not be surprising to see American Smelting increasing its dividend rate early in 1925.

Many Attend Service for Choir Member

CONGREGATION AND CHOIR ATTEND FUNERAL OF MRS. HABEGARD.

Funeral services for the late Mrs. Joseph Habegard of Fairview were held yesterday afternoon from St. Paul's Presbyterian church. Rev. F. R. G. Dredge conducted the services at the church and at the graveside. The church was crowded to the doors with friends of the well-known Nelson lady, the news of whose death came as a shock to Nelsonites on Sunday last.

A fitting tribute to the memory of Mrs. Habegard was paid by Rev. Mr. Dredge, who stated in the service that she had at all times been a cheerful and tireless worker both for the church and for anything that was deserving of need.

Mrs. Habegard was a member of the Presbyterian choir, and in respect to her the choir turned out at the services yesterday. The usual place occupied in the choir by Mrs. Habegard was draped with her choir gown. William Coleman beautifully sang "Face to Face."

Many Flowers.

Many beautiful floral tributes carried to the cemetery marked the esteem at which Mrs. Habegard was held both locally and in order parts of the province. The pallbearers, all Nelson citizens, were Herbert Bogart, M. Gibbs, W. M. Skilling, Robert Bell, J. C. Hooker and Arthur Foster.

Mrs. Habegard had been sick but for a short time, and while on a trip to Vancouver she became seriously ill, passing away there on Sunday night last. She is survived by her husband and young daughter.

TO-DAY'S MESSAGES.

PRESENCE OF TROOPS IN SHANGHAI CAUSES CONCERN.

SHANGHAI, Oct. 14. The Chinese sections of Shanghai to-night were overrun with armed soldiers raising new concern in the minds of the authorities of the foreign settlements lest some serious disorder occur. Arriving trains on the Shanghai-Nanking railway to-night brought 1700 additional northern Hupei Province troops to reinforce those brought here to hold the city for the Central Government. In addition the Chokien troops who retreated into the city after their unsuccessful struggle to defend it, were said at eight to-night to total 5500.

APPLICATIONS FOUR AND A HALF TIMES AS GREAT AS SHARES AVAILABLE.

NEW YORK, Oct. 14. The subscriptions for the United States \$110,000,000 share of the \$200,000,000 German loan exceeded \$500,000,000, according to an official announcement to-night within twelve minutes after the books were opened to-day. The subscription was more than 4 1/2 times as large as the total available, and thousands of orders were still unfilled when the books closed.

ZR-3 NEARING HER TERMINUS.

LAKEHURST, N.J., Oct. 14. A wireless message from ZR-3 to this station at 11 p.m. announced that the dirigible expected at the present rate of travel to reach Lakehurst before noon. At 11:35 to-night the Radio Corporation of America's station at Chatham, Mass., here intercepted a message from the ZR-3 to the Naval Station at Bar Haven, Maine, reading as follows:—"Now off South Point of Nova Scotia. Everything well." It is expected that the Naval Station will be able to maintain contact now.

THE RUSSIAN TREATY IS THE CHIEF ISSUE.

LONDON, Oct. 14. The fur has begun to fly in the British election campaign which is sure to be short and certain to be snappy. It may have been the dropping of the case against Editor Campbell of the Workers Weekly on which the Government decided to accept defeat and go to the country, but it has already become plain that the thing the voters are going to hear most about from all sides in this campaign is the Anglo-Russian Treaty. The Tories are playing anti-Bolshevik for all it is worth. In two days they have placed the country with posters depicting bewhiskered Bolsheviks greedy for the money of the good old British voter, but Premier MacDonald apparently realized as keenly as his opponents that the way to gain the interest of the British voters is to mention their pocketbook, and he therefore has been busy explaining that the contemplated loan of \$40,000,000 pounds sterling to Russia would be spent largely in purchasing machinery made in England. "British money for the British," a mock patriotic song, has become a popular part of a popular West End revue, but the Conservatives campaign managers take the subject seriously. Their posters depict what the Conservatives newspapers described as a brutal Bolshevik with greed in his eyes, and under the picture are the words: "It's your money he wants. The Socialists say he can have it. Don't let him. Vote Unionists."

ZR-3 REPORTS PASSING DEER IS.

BAR HARBOR, Maine, Oct. 14. The Navy Station here reported that at 12:15 the ZR-3 said that she was then passing Deer Island, N.S. The station was not able to identify this Island. Three Deer Islands near Newfoundland are given in gazetteers, but none is given for Nova Scotia. The message from the airship stated that she was making about 65 knots in ideal weather. Little wind was blowing, and that was favorable, the air being clear. Because of the uncertainty of the exact location of the airship, the naval officers here could not say at what time she would enter American territory.

ZR-3 DUE THIS MORNING.

LAKEHURST, Oct. 15. ZR-3 is expected to land here between 9 and 10 a.m. to-day. She delivered the naval officials here in a message shortly before 8 a.m.

ZR-3 OVER NEW YORK.

NEW YORK, Oct. 15. ZR-3 was sighted over New York at 7:50 this morning. She first hovered into view at Consey Island flying high and headed towards the heart of New York City. Crows hurrying to work halted in groups in the streets and looked upward as the giant Zeppelin escorted by two airplanes sailed majestically over their heads. The Zeppelin passed swiftly over Brooklyn where cheers of welcome rose from thousands of throats, hats were tossed into the air and general Bedlam broke loose as delighted spectators passed the glad tidings along.
