Always the Prettiest!

Always the Cheapest!

That's what the ladies say about our Whitewear. Special sale now on. Come and look the styles over. Don't need to buy unless you want to.

10c Flannelette, 34 inches wide, choice patterns, for 8c.

BAYLEY'S

R. E. BUTLER NOMINATED

North Oxford Conservatives in Convention at Woodstock.

Woodstock, Jan. 18.—Robt. E. Butler, of Woodstock, was nominated as the Conservative candidate in the coming bye-election in North Oxford at a well-attended meeting of the Conservatives of the riding in the city hall Saturday afternoon. His nomination was moved by Chas. A. Muma and seconded by John Youngs. Other nominations received were John Youngs, of West Zorra, Dr. West Zorra, J. G. Wallace, of Woodstock.

All these retired save Mr. R. E. Butler. The Conservatives present from a distance were W. J. Hanna, M. P. P. of Sarnia, Robert Birmingham and A. W. Wright, of Toronto, organizers of the party, and Donald Sutherland, M. P. P. of South Oxford. Addresses were delivered by these speakers.

The nominee, Mr. Butler, is a member of the firm of Butler Bros. in this city, and has been a resident of Woodstock for many years. He was born in Brighton, Northumberland County, Ontario, in 1862, being a son of the late John Butler. He was educated in the public and high schools of his own town and received his business training at the Forest City Business College. Upon graduation he entered the office of the Leishman Maundrell Company in Woodstock. Subsequently he managed the affairs of this company at Stratford. Several years ago, he entered into partnership with his brother, Ald. John Butler, which business has enjoyed the greatest success. Mr. Butler served in the Woodstock council three years ago. F. C. Martin moved, seconded by John Day, a resolution of sympathy in reference to the death of Andrew Pattullo, M. P. P.

REFORMS FOR RUSSIA

Peasants to Have a Say in Local Legislation.

St. Petersburg, Jan. 18.—Minister of the Interior Plehve has completed the draft of the peasant code, or scheme for the peasant reforms ordered by Czar's recent manifesto, and it will probably be sent to the local committees, throughout the empire within a few days. Members of the nobility in each province and district will be allowed to elect representatives of their committees, but the Zemstvos (or elective provincial assemblies, composed of landed proprietors and representatives of artisans and peasants) will be appointed by the governors. The committees will be allowed freedom to discuss the project and propose any changes therein except on three points which the Emperor has reserved for discussion, namely, that the peasant class must remain entirely separate legally from the other classes; that the commune is to remain untouched by legislation, and that the peasant lands are to remain inalienable. These points stamp the forthcoming legislation as conservative in the main, but the present chaos is so great and so much room is left for the arbitrary conduct of police and the local representatives of the ministry of the interior, as well as of peasant courts and administrative machinery, and their commune town meetings, that the liberals declare that any modification would be in the line of progress. The

The Cook's Good Morning

No matter how expert the chef, he cannot produce a better breakfast dish than a steaming bowl of Tillson's pan-dried Oats.

It makes strong bodies and quick, active brains. A food, not a fad. Try it for breakfast to-morrow.

Tillson's Pan-dried Oats

PRECOCIOUS PRINCE PAUL

Nephew of King Peter Lives Things at Belgrade.

London, Jan. 18.—Prince Paul, the son of Prince Arsen, brother of King Peter of Serbia, continues to make his existence known to all who happen about the palace. He pestered his uncle, the King, for a certain order reserved for learned men and authors until the latter informed him he could have it when he had written a book.

The nine-year-old hopeful is now writing a book which he intends having his father publish so that he may receive the order. He has exhibited a degree of interest in the Konak massacre of July 11 last, and often mentions the matter to King Peter. He bottled very strong views on the murder of King Alexander and Queen Draga, and airs them in public, despite the fact that he has been frequently punished for so doing. Recently at a musicale he approached Lieutenant-Colonel Peter Miskin, the head of the conspirators, as follows: "You are Colonel Miskin, who murdered King Alexander, are you not?"

The officer, embarrassed by the boy's question, tried to evade him, but the youth declared in tones that rang through the room that he knew very well that you did it, and I do not think that it was a very heroic thing to do."

Mr. A. L. Godfrey is well known to everyone in Victoria, where he has been engaged in business for many years. "Last winter I had a gripe," he writes, "and recovered very slowly. When well enough to leave the house I was many pounds lighter than my usual weight. My appetite was poor and my blood was thin. Ferrozone did me untold good. I recovered my weight in a short time and have felt like a different man ever since."

GERMAN POSTS IN PER

Revolted South African Tribes Marching on Settlements.

Berlin, Jan. 18.—A dispatch from Windhoek (German Southwest Africa) says the German post at Okahandja (a mission state of Damaland) is being hard pressed by the revolted Hereros tribe. Attempts made from Windhoek to relieve the garrison, which has suffered heavy losses, have been unsuccessful. Windhoek itself is threatened and the militia has been called out. The Hereros are well mounted and armed, having obtained horses and guns from settlers they have raided.

A band of natives is marching on Karibib, to which place reinforcements have been dispatched. One column arrived safely at Karibib, Jan. 15, but a force commanded by Lieut. Zuelow, with 120 rifles, appears to be in a dangerous position near Waldaun.
