[Canadian Press.]

The chief reported that three of the department horses were unfit for service. and it was decided to call for tenders for a motor tractor to haul the big aerial truck from the central station. Such a tractor will cost between \$4,000 and \$5,000, and the horses at present used to draw the truck will fill the places of those now unfit for service. No mention was made of purchasing a combination truck to replace the one destroyed on the William street crossing of the Grand Trunk. Judgment has not yet been handed down in the city's suit against the G. T. R. to recover damages for the destruction of the truck, and until such is forthcoming, it is unlikely that any move will be made to re-

place the truck. The chief reported that the firemen's benefit fund has been increased to the extent of \$275 following the Dominion Savings Building fire, also that Fireman Hodges had been off duty for two days as the result of an injury to his eye at the same fire, and that Fireman L. Ferguson was ill.
