TIRE SHARES STRONG AT NEW YORK MARKET

Selling Movement of Previous Day Makes Reappearance -Main List Heavy.

By STUART P. WEST.

By STUART P. WEST.
Special to The Advertiser.

Wall Street, New York, March 22—
The selling, which had begun to show toward the close of business Wednesday reappeared in the market today. It brought about an appearance of heaviness in the main part of the share list, but did not prevent a number of upward movements in special stocks.

Tire shares were strong again, more particularly United States Rubber and Kelly Springfield, inasmuch as there is no thought of either of these companies resuming dividends during the current year at least. Sponsors for Bal and Object 252, 52 514 5152

Heavy selling of Standard Oil stocks was regarded in some quarters as fossibly suggestive of a less bullish attitude on the part of Standard Oil interests. Marland made the best showing of any of the oils, following the annual report.

Central I Corn Production Calif Paces of the oils of the o

terests. Marland made the best showing of any of the oils, following the annual report.

Rather unsteady forenoon diversion was created by buying orders thrown into a number of the rails. Wabash, preferred A, which has stood out prominently on several occasions during the last week in a manner to suggest developments of importance, again came to the front, Pere Marquette was bought on talk of a dividend before the year end, and so was Baltimore and Olio. Special weakness appeared in American Cotton Oil stock, following a deficience of over seven points within the last ten days in the five pep cent debenture bonds.

TRADING WAS LISTLESS | Everything the Farmer Trades In AT MONTREAL MARKET

Ontario Steel Products and Crown Reserve Reach New High.

Reported for The Advertiser
by Johnston & Ward.

Montreal, March 22.—Noon—With the exception of a couple of bright spots, the first two hours of trading did not produce any great activity.

The outstanding features were Ontario Steel Products and Crown Reserve. The former opened at 33%, and with a turnover of less than 300 shares jumped to the new high level price of 45, a net gain of 5½ points. At the data of 12,100 shares, from a low of 51 yesterday this stock is now up to 62 cents, a new high record price.

Outside of these two features the only change of consequence was in Canadian Cottons, which duplicated its recent high record price of 134. Dominion Textile was unchanged at 71, and the other cotton stocks were neglected. There was very little doing in the pulp and paper group.

The announcement at the annual meeting of the British Empire Steel that the authorized capital would be reduced from \$500.000,000 to \$250.000,000 to had no effect on the different issues of this corporation.

Public utilities were inactive and

Grain Markets WINNIPEG

Winnipeg. Winnipeg. Winnipeg. March 21.—Further export business and higher cables resulted in stronger prices during the early part of today's session of the wheat market here, and May advanced to \$1.17%, or 1½c above yesterday's close. The gain was not held, however, and closing figures were ½c higher for May and %c up for July.

There was a fair trade reported during the early hours. Undoubtedly there was a little buying in the nature of lifting of hedges, representing wheat sold at seaboard, but the trade appeared to be largely in the nature of covering of short interests, the buying against "cails" sold yesterday. There was also some spreading between here and Chicago.

New foreign business is still difficult

Chicago.

New foreign business is still difficult to work, but cables were about 13c better than yesterday, and private cables from 13c to 2c above Saturday.

to \$14 the received in the principal wheat, with farmers the principal sellers, and millers and exporters taking all offerings at unchanged premiums. With the exception of oats, cash coarse srains were unchanged. Oats were in better demand, and premiums advanced.
