Non-Political Association Being Formed in Western Canada Will Do Buying and Selling For Farmers-Secure Needs at Net Prices.

From two miles under the ocean on west, Winnipeg, to be exact. Mr. the eastern boundary of Canada, to Reid said that city and the district the eastern boundary of Canada. to around it had not yet recovered from Victoria on the west, is the scope of the storm that struck it when the Victoria on the west, is the scope of a trip just completed by E. E. Reid.

Mr. Reid has visited practically every functions there in Canada east and west, his business being to hold conferences with the superintendents and agents of the company at these points.

"There was no actual coal strike in the east at the time I was there," said Mr. Reid, "although there was talk of the mer were conditions there that were gradually leading up to the point where it would be very easy for a strike or lockout to take place. The coal business is the backbone of trade and commerce of nearly every kind in that section of the east, and the depression that comes from a coessation in the mines is very quickly felt. I was not there long enough to speak definitely on the causes, but it does seem to me that there is a

to speak definitely on the causes, but it does seem to me that there is a lack on the part of the management recognizing anything approaching a Canadian spirit. Of course there are some of the leaders of the miners who are of the radical sort. from unbiased sources I gathered that the fault was largely in the way mines had been managed. The peoble of Nova Scotia in general would welcome a real wide-open investigation of the whole business, and things will not get much better until this takes place.

Quebec Is Busy.

Advertiser.

"In a general way it is better this that it is going to be a great city and the port that will take out a great year than last, and last year it was the port that will take out a great letter than the year before. It is not deal of the grain from the far west necessary to be on the prairie provinces very long before you see that the people there, for the most part, bave had their lesson about getting by the big idea to any remarkable very long their very long before you see that the people there, for the most part, but the people there are doing their very long their very long. into debt, and they are doing their extent. best to keep away from it. For years the farmers have had to sell their the farmers have had to sell their "The lumber business has been flat grain almost as soon as they got it for a couple of months, and mony of hreshed, because they had so many the residents of the coast city can't enough money lett in many cases to take care of other purchases which take care of other purchases which to God" and "God lost to the world." to have a little money coming in during all the months is what has made mixed farming more popular in the most of the months is what has made mixed farming more popular in the most of the

for the present it has become quite general, and it has turned out to be a good thing. One general merchant told me that he would not object to giving credit to a number of the farmers in his district, but now that farmers in his district, but now they were not asking for it, and were keeping themselves off his books through their changed method of

and it is spreading toward the east, continued Mr. Reid, "that aims to build up a great economic organization outside of politics entirely. The movement seems to be centered around Saskatoon, and it was there that I met the secretary of the or-ganization, and the claim was made ship at the rate of over a thousand a week. So far they are not saying very much in the open about it, but if I judged the spirit of the thing aright the idea was to weed out as aright the idea was to weed out as impressive of the army year. and build up a great organization part in the service. Songster brigades in the would do the buying and selling of the four corps, supported by the for the farmers. They will, I believe, young people and members of the scouts and guides will lead in the needs and secure their goods at net singing.

prices."
"Will this new organization enter the political field?"

Not a Political Move.

"From what I could gather, the idea was to keep out of politics entirely, because those who are at the back of the scheme hold that if they entered politics it would wreck the business entirely. Whether they will support any political candidates I can't say, but the idea seemed to be an enlargement of the wheat pool idea, and it is entirely separate and independent of existing societies.

They hold that if they get sufficient strength, the existing opening the second of strength the existing organizations and co-operative societies will have to come to them, and they seemed to believe that the Grain Growers' Guide would have to do the same.' Regarding conditions in the near-

APPEAL IS MADE FOR LOVE IN LIFE

Stirring Address Before Kiwanians.

Ending a stirring appeal to the Christian world for sympathy and love in life, Monseignor O'Connor, vicar-general of the Roman Catholic dioecese of London, stated: "Love rules the world and love is pain."

Addressing the Kiwanis club memobligations to meet, and their cre-ditors were pressing for their money. developments that every other perseignor O'Connor made the urge for fitter swere pressing for their money, developments that every trate of the bar seignor of common that as soon as the son says are sure to take place. Some a widespread observance of Holy farmer sold his grain he had to of the merchants there told me that part with most of his cash, and would the amount of money the people were reason for Christ's crucifixion. then have to proceed to look for credit again to carry him through to another crop. They have overcome this is many places by departing from the idea of growing wheat and noth-Stating that Jesus came to

West.

Not Asking For Credit.

"It is a fact that many of them do not care to bother with cows and chickens around the place, and a good crop of wheat at a high price might make a difference in their attitude toward mixed farming, but for the present it has become quite general, and it has turned out the second of the second of them as any of them."

Mr. Reid added in conclusion that in all his travels through the west he had heard nothing at all about the secession talk indulged in at the second that in the second talk indulged in at the second talk indulged in at the second talk indulged in at the second that the new had heard nothing at all about the secession talk indulged in at they and from that sympathy he knew the love of mankind would spring. Since sympathy and love are so closely related, the Lord knew what his sacrifice meant to the world."

fixion was the greatest crime in the world and, recognized as such, stood forever in the mind of man. He pointed to Christ's death as the end of one world and the beginning of another, which has lasted down through the ages.
