The Weight of Rain.

To the Editor:—The annual rain fall in the province of British Columbia is 45 inches at Victoria, and at Fort Simon (600 miles north) seventy-five inches. THE INDIAN REFERRED.

IN PARIS the dremaking trade represents the movement of \$50,000,000 a year, and gives employment to 250,000 men. The contractors are using cheap Belgian iron wherever iron is needed in the buildings, and have hitherto offered their workmen the best of the market, but are now substituting the brands of well-known ironfoundries in Scotland. The Scotch ironmasters are protesting against the practice of the cheapening of the market, and many Scotch ironmen propose to take revenge by voting against the Conservatives.

LONDON, Nov. 11.—Geo. J. Fryer, who was postmaster, telephone agent, express agent, and kept a drug store at Montreal, has been promised his departure he had appropriated a small amount of money belonging to the Post-office Department, and also some that should rightfully have been returned to the Telephone Company. But by far the greatest loss appears to devolve upon the Express Company, for he received four express parcels containing \$6,000, which were entrusted to him as agent of the company, and which he gave a receipt for in due form, but which he is said to have taken with him. Five thousand dollars belonged to the Trades' Bank and the other \$1,000 to Swaisland Bros. He left his wife behind.

LOST IN THE BUSH.

YOUNG GIRL'S TERRIBLE EXPERIENCE IN AUSTRALIA.

Graphical Account of the Finding of a Child Who Had Been Lost in the Wilderness for Three Weeks. (Melbourne Argus.) A special correspondent gives the following graphic account of the finding of a young girl, Clara (Tohbi, who had been lost in the bush for three weeks. It was on the twentieth day after the girl left Mrs. Halton's house that a couple of friends started out to look for a horse which had strayed in the ranges. J. G. Curran, a farmer and contractor of Warrburton, who has been fourteen years in the district and knows his way about the wilderness, was accompanied by a man named Mr. Curran, a piano-tuner of few, who was on a tour through the district. They struck the Cooberootee creek and as they watched the turbid stream flowing through the bush, they saw a small figure in the distance. They went to the spot and found the girl, who was very much exhausted and had been in the bush for three weeks.
