

THE PEOPLE'S PASTIMES.

NOTES ON THE RECREATIONS OF THE DAY.

Third Day of the Pigeon Shooting Tournament on the Garrison Commons.

Premature Horses at Woodstock.
Charlie Howell is worth \$2000.
"Blower" Brown is in England.
Toronto lacrosse club dinner tonight.
Wallace Ross will leave for England next week.
Brantford lacrosse club has a small balance in bank.
Laycock's leg has healed, but he will not be fit to row before April.
Curtis' hopes are high. The club are practicing for matches after Christmas.
Football is growing in favor in the west. Several clubs have already been organized in St. Louis.
John Blong threw John McCloskey three successive times in a wrestling match at Leveille for \$25 a side.
Geo. Ross, brother of D. C. Ross, offers to wrestle any man in America Cumberland style for \$250 or \$300 a side.
Leo has been matched to row Cotford at Victoria, B. C., for \$400 a side. The British Columbia allowing \$100 for expenses.
The members of the Chicago baseball club average 5 ft. 11 in. in height. Harry Graham, their latest addition, is 6 ft. 7 in. high.
Peter Duryea has rented the Madison Square gardens for the Rowell Fitzgerald six-day go-as-you-please contest. Price \$5000.
Fred L. Crown, formerly a prominent player in the Acme and Toronto lacrosse clubs, died at Winnipeg on Dec. 19 of typhoid fever.
A last account of E. P. Weston had completed 60 miles of his 200 mile walk, and was at Melton Mowbray, the famous English hunting seat.
Fred Rogers of Philadelphia says if a race can be made with Myers, and the latter be tested as an amateur, he will concede him one yard in a hundred.
John Higgins, ex-champion carman of England, has imported an American souther called John Tread, believed to be from Lowell, Mass., to act as a bait for low-down scullers.
The licensed victuallers of Hamilton have offered to play the Toronto lacrosse club a match at pool, with three or five men a side, for four barrels of flour, to be donated to some charitable institution.
A phase of cricket record now agitating English circles is the bowling v. throwing question, one man despoiling of it by defining a "throw" as a bowler's arm, while bowling proper is the result of a straight arm. Moral: Don't crook your elbow.
The New York Clipper, referring to the formation of a Canadian amateur association, says: "Had such an organization been in existence for some years past, we are confident that the honors at the annual championship meetings would not have been so much at the mercy of athletes from the States as has been the case. We shall look for a better showing by Canadian amateurs hereafter."

Our friend Williams of the Globe assures us that his namesake, the 22-year-old, will W. own sister to the clever Princess, promise well and is as good as his sister to look at. He also says a younger brother, a yearling by name Brad, bids fair to be a better bowler than the family. Every sportsman will take our friend's word for it and prove the soundness of his usually excellent judgment.

While Princess is counting the fact of the judge in the martial city of New Orleans, her two brothers are in the hunting and vigorous, the air of Woodstock, both being in the stable of their breeder, Mr. Burgess of Woodstock, who must be congratulated for his success. Princeton, the famous sire of the family, is one of the best bred horses ever known in Canada, being by Oakland out of imp. Wombat. Rox, also, the dam, is a daughter of Malcolm and Maggie Mitchell, Malcolm being by Bonnie Scotland.

The Pigeon Shooting Tournament.

George H. Briggs' tournament was continued on the Garrison commons yesterday. There was the largest attendance of spectators yet, increased interest being felt from the fact that the result was to be decided on the conclusion of Wednesday's shooting the fourth round had one bird in the bag, and the prize, following is the total score together with the result of the fifth and sixth rounds and the final result:

Squad 1.

J. R. Humphrey 20
C. P. Pickering 20
J. D. Jones 18
A. H. Townsend 18
W. H. Harris 18
R. H. Grant 18

Squad 2.

J. R. Humphrey 20
C. P. Pickering 20
J. D. Jones 18
A. H. Townsend 18
W. H. Harris 18
R. H. Grant 18

Final.

J. R. Humphrey 20
C. P. Pickering 20
J. D. Jones 18
A. H. Townsend 18
W. H. Harris 18
R. H. Grant 18

Rock of Ages—Grandpa and grandma trying the new cradle.

READABLE PARAGRAPHS.

—Dr. Pierce's "Favorite Prescription" is the debilitated woman's best restorative tonic.
"Darling," he exclaimed, "I love you; will you marry me?" "Well, John, that will depend upon what you can give me for Christmas."
—James Bayley, Hamilton, says: "I read the testimonials for McGregor's Speedy Cure, and found that I had not to go to New York, Philadelphia, Louisiana or Texas to find living witnesses of its value, we had plenty of persons right here to prove its merits. I got a bottle and it helped me right away. I was as bad with bilious fever and indigestion as I think any one could be. I have taken three bottles and am nearly well and can eat any kind of food without hurting me. I may say that I am better than I ever expected to be." Free trial bottles at F. T. Burgess' drug store, 364 King street east.
This is a good time to propose to a girl. She will be afraid to refuse for fear she'll miss a Christmas present.
—P. M. Markell, West Jeddore, N.S., writes: "I wish to inform you of the wonderful qualities of Dr. Thomas' Electric Oil. I had a horse so lame that he could scarcely walk; the trouble was in the knee; and two or three applications completely cured him."
Rock of Ages—Grandpa and grandma trying the new cradle.

A Cure for Cuts, Sores, Etc.

The finest healing compound under the sun is McGregor & Farke's Carbolic Cerate. There is no sore but will succumb to its wonderful healing properties. It is an invaluable dressing for scalds, festers, etc. Price twenty-five cents at F. T. Burgess' drug store, 364 King street east.

About this time the thoughtful girl makes for her darling a round of pills.

For the young man's cardinal rule of life is to keep his system of health with the simple and delicious pills of Dr. Thomas' Pink Pills. The physical buoyancy and mental vigor the constipated should use them.

When you see a well-dressed man standing in front of a shop window and watching the air of one who has buried his last

earthly friend, do not be misled. The poor fellow isn't meditating suicide, but he's got a list of gifts that must be purchased and he doesn't know what to do with it.

The-Quickest Thing on Record

—Is Eliza Lightning for neuralgia, headache, toothache, etc. It does not blister or discolor the skin; requires but one application to banish all pain magically without using any greasy liniment or carrying your head in a poultice for weeks. Try a twenty-five cent bottle from F. T. Burgess' drug store, 364 King street east.

How beautifully and touchingly appropriate!

A Minneapolis girl has always taken a lively interest in the care of her father's horses, and now the old gentleman is whispering around that as a token of his appreciation of this noble trait in her character he will put a bale of hay in her Christmas stocking.

No other medicine has won for itself such universal appreciation in its own city, state and country, and among all people, as Ayer's Sarsaparilla. It is the best combination of vegetable blood purifier, with the iodine of potassium and iron, ever offered to the public.

If the children ask how Santa Claus got down the chimney, tell them he flew down in his winter suit.

So It Goes.

—Over 25,000 bottles of Burdock Blood Bitters were sold during the past three months without one single complaint of dissatisfaction; but, on the contrary, testimonials are pouring in of its efficacy in various lingering diseases of the blood and liver.

In Armenia girls are married at 12 and 13. If they are left unmarried at 16 they are likely to remain old maids, but there is hope for them till the 19th birthday.

—George Kelley of Dunbar, Parry Sound, suffered from dyspepsia for about seven years and was cured by Burdock Blood Bitters. He says half-a-dozen others of his acquaintance have derived similar benefit from the medicine, which he now recommends to all suffering from similar complaints.

"Bustles are coming to the front," says a fashion journal. That is rough. You can't tell whether a woman is coming out of or going into a church.

A Household Necessity.

—She would not keep house without it, so says Mrs. McArthur of Hopeville, regarding Hagar's Pectoral Balsam. This medicine is pleasant to take, and quickly cures coughs, bronchitis, asthma, weak lungs and all pectoral complaints.

A missionary tells a story of a Zulu chief who embraced Christianity at once when told it meant only one wife.

The tawny gentleman was in search of peace.

Mental depression, headache and nervous debility, are speedily remedied by that excellent blood-purifying tonic, Burdock Blood Bitters.

The editor of the "Record" states that he was cured of biliousness, liver derangement, and sick headache, by the use of this medicine.

"Oh," remarked Pogg, as he gazed busily at the ballet girl, "now I understand the full significance of the passage, 'The body is more than raiment.'"

Congested at Last.

—D. McCrimmon of Lancaster was afflicted with inflammatory rheumatism from youth; all remedies failed, until he tried Burdock Blood Bitters, which was one year ago, since which time he has had no attack of the complaint.

The time of year has arrived when the shy husband is seen to enter the house softly with a parcel, considerably larger than the curiosity of his wife is so great to discover what she will get for her Christmas.

The next day, when her husband is away from home, the cautious wife goes to his closet to painfully discover that the mysterious parcel was nothing but a pair of her husband's smelly pants which he had just brought from the dyer's.

To lessen mortality and stop the inroads of disease, use Northrop & Lyman's Vegetable Discovery and Dyspepsia Cure.

For all diseases arising from Impure Blood, such as Pimples, Blisters, Biliousness, Indigestion, etc., it has no equal. Mrs. Thomas, Elm, writes: "I am suffering from dyspepsia; I have tried many remedies, but this is the only one that has done me any good."

Some one asked a Maraisse tenor why he sang only in concerts. "It's very simple," he replied. "One day I fell down stairs and broke my voice, and this is why I only sing in pieces."

The Best Policy.

—Regarding insurance policies against accidents, it is a good policy to have at hand a bottle of that invaluable medicine for internal and external use—Hagar's Yellow Oil—worth more than gold in relieving pain and suffering, for lameness, sprains, bruises, burns, stiff joints and all wounds.

Beautiful manners are more captivating than good looks. If you see an ugly man set up in a street car and give his seat to a lady you can bet he has been reading this paper.

—Mother Graves' Worm Exterminator is pleasant to take; sure and effective in driving worms out of the system. See that you take no other and you will be satisfied.

A southern Dakota man recently promised his dying wife that he would meet her in heaven. When the fact became known that the man was an editor, the joke was regarded as too good to keep.

What He Has Done.

—Mrs. George Simpson, Toronto, says: "I have suffered severely with corns, and was unable to get any relief from treatment of any kind until I was recommended to try Holloway's Corn Cure. After applying it for a few days I was enabled to remove the corn, root and branch—no pain whatever, and no inconvenience in using it. I can heartily recommend it to all suffering from corns."

A Rockland man, who had been drinking, went home the other night, and provided so as his wife that she called him that again he'd liquor.

—The Star says are unexcelled for cheapness and fast colors.

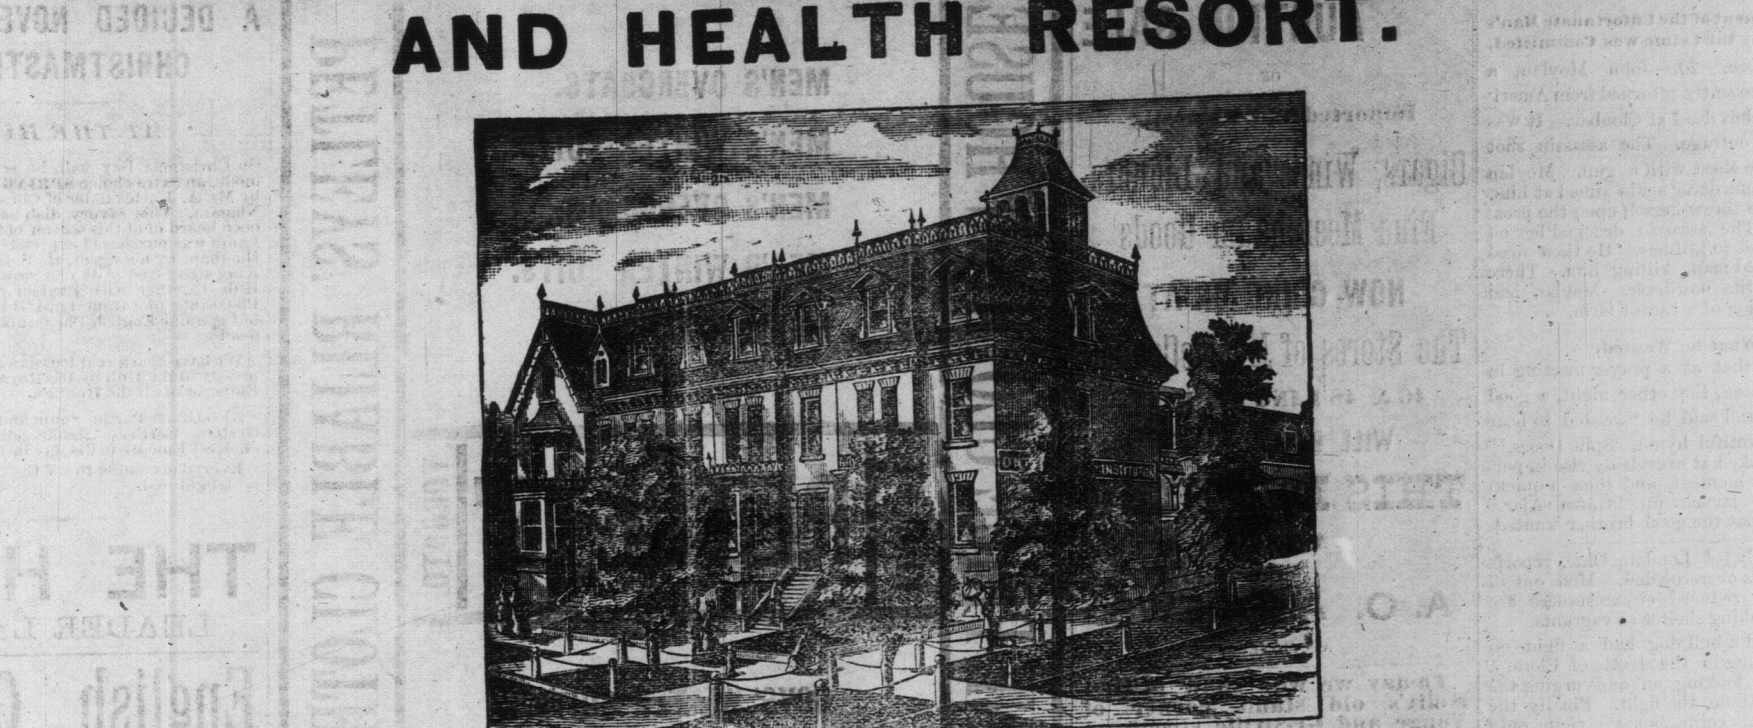

A person who was sent to prison for murdering two wives excused himself by saying that when he had one wife he fought him, but when he had two they fought each other.

—Give Holloway's Corn Cure a trial. It removed ten corns from one pair of feet without any pain.

Old toppers don't believe in the old maxim: "A kiss is as good as a smile."

—Himalaya (the abode of snow from the Sanscrit "hima," snow, and "alaya," abode) is the most powerful and stupendous system on the globe. The tea plant can be cultivated along the entire southern face of the Himalaya to an elevation of 3000 feet, the tea being produced at from 3000 to 3500 feet above the sea, and the best only is sold by the Li-Quor-Tee company at 39 cents per lb.

Ontario Pulmonary Institute AND HEALTH RESORT.

274, 276, and 278 JARVIS STREET (CORNER GERRARD), TORONTO, ONT.,
M. HILTON WILLIAMS, M.D., M.C.P.S.O., PROPRIETOR.
PERMANENTLY ESTABLISHED FOR THE CURE OF

CATARRH, THROAT DISEASES, BRONCHITIS, ASTHMA, AND CONSUMPTION.

Together with diseases of the Eye, Ear, and Heart; all Chronic Nervous, Skin, and Blood Diseases; also diseases of Women.

Our Institute is divided into three distinct departments, viz:
FIRST DEPARTMENT--For diseases of the Head, Throat, and Chest, including diseases of the Eye, Ear, and Heart.
SECOND DEPARTMENT--For all Chronic, Nervous, Skin, and Blood Diseases.
THIRD DEPARTMENT--For diseases of Women.

In the treatment of all diseases of the respiratory organs we adopt the "Ayer's" system of practice, whereby we are enabled to convey the medicine directly into the air passages, or disengage the system of the lungs, and thus remove the constitutional remedy for the stomach, liver, blood, etc.

In Catarrh--Inhalations dissolve the hardened secretions that form in the nasal passages, scatter inflammation, heal all ulcers of the surface, and cure every case of catarrh of the nose, so matter of how long standing or from what cause they may arise.

In Throat Diseases--Inhalations remove inflammation, heal all ulcers of the throat, remove the voice when lost or husky, and arrest all acute cases, as diphtheria, quinsy, etc., with amazing rapidity.

In Bronchitis--Inhalations perform wonders by restoring the mucous membrane to a healthy condition, and thus remove the cause of the cough, and effect a permanent cure in the most obstinate cases.

In Asthma--Inhalations immediately arrest the paroxysm and effect a permanent cure by removing all unnatural obstruction and by restoring the delicate mucous membrane to its normal condition.

In Consumption--Inhalations loosen the phlegm, ease the cough, increase the quantity of the blood, assist assimilation, remove constitutional poisons, and effect a permanent cure by restoring the delicate mucous membrane to its normal condition.

In the treatment of chronic diseases of the nervous system, we adopt the "Ayer's" system of practice, whereby we are enabled to convey the medicine directly into the air passages, or disengage the system of the lungs, and thus remove the constitutional remedy for the stomach, liver, blood, etc.

In the treatment of chronic diseases of the nervous system, we adopt the "Ayer's" system of practice, whereby we are enabled to convey the medicine directly into the air passages, or disengage the system of the lungs, and thus remove the constitutional remedy for the stomach, liver, blood, etc.
