

IT HAS COME AT LAST

READY-MADE CLOTHING AT PANIC PRICES.

The example of Wall-street Brokers Followed by "The Mammoth."—A Tremendous Drop in Ready-Made Clothing Prices.

We're determined to relieve the pressure caused by our gigantic stock. At no time in the last 10 years has there been such excitement in the wholesale clothing trade as in the past 6 weeks. At the beginning of the season every manufacturer predicted a booming trade. That they were "False Prophets" you all will attest. Owing to the exceedingly warm fall, trade was very poor, consequently they all had immense stocks on hand. When the demand is light prices are low. This season there was no demand at all and prices were simply paralyzed. We were offered from time to time the very finest clothing at prices usually commanded for the very best. Unable to resist these tempting offers, but as there is almost \$50,000 worth of clothing. Now that we have it we find ourselves with a "white elephant" on our hands. The clothing was bought at next to nothing prices, but as there is little demand for heavy goods these warm days our position is an exceedingly bad one. 4800 square feet of space literally packed with Men's Finest Suits and Overcoats. Signing and thinking of what might have been will do no good. Quick action is necessary. For the balance of this season we close our eyes to real worth and actual cost, and inaugurate a selling soiree that is destined to stand unequalled in the mercantile history of Toronto.

This great sale commences on Saturday Morning, To-day, at 10 o'clock, and store will be kept open till 10 o'clock to-night.
