THE SECOND COMING OF CHRIST

As Taught by Premillenarians, not in the Bible.

BY

REV. W. H. POOLE, LL.D.

12mo, PAPER, 96 PAGES. PRICE, 15 CENTS.

This paper was prepared at the request of the Pastor's Union, held in the city of Detroit, Mich. At that meeting its publication was unanimously requested. Other parties have since asked the author to give it to the public.

"It shows the wide acquaintance of the author both with the theories of his opponents and the Scripture arguments by which their position is overthrown. We know of no treatise, equally brief, which so pointedly and successfully refutes the troublesome errors of those who look for Christ to come in person and reign on earth with His Church a thousand years. Dr. Poole not only clears away false assumptions, but presents very forcibly the sound doctrine."—*Michigan Christian Advocate*.
