

their analyses and descriptions of plants may be made more fully, exactly, and systematically; all these points [and especially the last] being weak in all the papers submitted.

The examiner would, therefore, suggest the providing of schools with blank forms for the purpose, and the devoting of as much time as possible to the practical examination of plants.

In conclusion, the examiners wish again to express the hope that the present system may continue to serve as a link between the public schools and the universities, and so lead the candidates, whether successful or not at the examination, to strive after the highest educational training afforded in this province.

GENERAL RESULT OF THE EXAMINATION.

	No. of Candidates.	Passed for A. A.	Junior Certificate.
High School, Montreal.....	18	17	0
Girls' High School, Montreal.....	14	9	1
