Is yours an Up-to-date School?

Or are you eking out a dull and profitless existence on the methods and equipment of several decades back? Stop and think!

What about the little folks of the Infant Class? Are you providing them with the **Berean Leaf Cluster**, with its great coloured pictures, illustrating the S. S. Lessons, securing the delighted interest of the children, and impressing indelibly on their memories the events recorded? Or, do you leave their teacher to struggle on as best he may, when this popular aid may be had at a cost of **less than ten cents per Sabbath?**

Is Your Library Up-to-date?

When there is so much good literature to be had, and cheaper than at any time in this world's history, are you keeping your shelves replenished with the best of the new books? The children and youth must read and *will* read. If good books are not provided for them in the school and the home, they will take up the cheap and vicious literature that is only too abundantly at hand. We have a splendid new Catalogue of Sunday-school books, which we should like to place in every school. In it are many hundreds of choice books for the library. If you have not a library, invest in one at once, and you will find it a great help. We are offering larger discounts than ever.
