A SAVING OF 40%

IS MADE BY USING OIL FOR FUEL UNDER

The Aerated Fuel Co.

SPRINGFIELD, MASS.

SYSTEM

This System uses oil, with a higher pressure of air, and is adopted in the United States and Canada for all kinds of iron and steel forging, tempering, welding, annealing, etc.; for generating steam; for burning lime, cement, sewer pipes, terra cotta, brick, etc.; for heating chemicals and asphalt; for japanning; for oxidizing lead; for drying sand, salt, etc.; for singeing cloth, etc.

Its advantages over coal and wood are:—A perfectly even fire, at all times under complete control, free from gas and dust, and ready for use in a minute after turning valve, and no increase in insurance rates.

Some of the companies now using this system in Canada are:—The Massey-Harris Company, The Wilkinson Plough Company (of Toronto), The D. F. Jones Manufacturing Company, The Spring and Axle Company, and George Gillies (of Gananoque), The Dominion Bridge Company (of Lachine).
