BOOK REVIEWS.

REGIONAL MINOR SURGERY.

By George Gray Van Schaick, Consulting Surgeon to French Hospital, N. Y. Second edition, enlarged and revised, 228 pages. Bound in cloth. Profusely illustrated. Price, \$1.50. International Journal of Surgery Co., N. Y.

The practicability and usefulness of this book is best indicated by the demand, necessitating a second edition in an unusual short time. This edition has been subjected to a thorough revision and additional chapters have been added.

The author's object, to furnish the general practitioner with such practical information on Minor Surgical Conditions as will be of the greatest service to him in his daily practice, has been well accomplished. Subjects of a technical character have been avoided, and only the most applicable methods demonstrated by twenty years private and hospital experience are presented. The book is liberally illustrated with original sketches and is so eminently practical and useful, we believe it will be run through many more editions.
