

The Massey Harvester is without a superior.

*Massey Manufacturing Co.,*  
BROCK, Dec 29th, 1882.  
GENTLEMEN,—I bought one of your Massey Harvesters from your agent Mr. John Gollaway, Uxbridge, and it has given me good satisfaction. I have cut my whole harvest and have no breaks or delays of any kind. It seems to be strong and durable and I would heartily recommend it to those in need of a Reaper.

**Buy the Reaper that is most extensively sold--The Massey Harvester.**

*Massey Manufacturing Co.;*  
BERTIE, Dec. 6th, 1882.  
GENTLEMEN,—The Harvester bought from your agent Mr. Mann, for the harvest of 1882 has proved a decided success, I would have no hesitation in recommending it to any farmer as a first class machine. It worked admirably the entire season in all kinds of grain and without a break. Wishing you as much success in your other ventures in the agricultural implement line.  
I remain, yours, etc.,  
E. A. DICKOUT.

A NOTED French doctor was telling how successful he had been in a case and what a triumph was his new method of treatment. He was assisted by two other physicians who boasted with him of their remarkable skill in the child-birth case. But says one, "didn't the child die?" "Yes, the child died." "But didn't the woman die also?" "Well—yes, but we brought the old man through all right."

## The Massey Harvester.

This Machine has become so well known to the Canadian Farmer that to talk about it is like conversation upon a familiar topic. It is an agreeable subject to us as well as to the Farmer for it is a pleasure to the manufacturer to turn out such an implement and a pleasure to the purchaser to buy it. The demand for this Machine last season was unprecedented in the history of Reaping Machines in Canada. Telegram after telegram was received asking for more Massey Harvesters. Agents wrote in requesting us to send them more Massey Harvesters, saying, I could have sold 10, 20, 30 or 40 more as the case may be. Although it made its first appearance only five years ago its growth into intimate acquaintance and popular favor with the farming public has been rapid and gratifying. From a manufacture of 356 in 1878 the merits of the Machine became more and more known till in 1882 we turned out the large number of 2,000, and yet hundreds of additional orders could not be filled owing to their not being received in time.

The question arises what has been the cause for such a demand? We answer that we have not done it simply by advertising. The Machine has had its place among the others without being exceptionally pushed. From the shower of testimonials that we get one can see at a glance the Machine has merited the patronage it has received, and on its own merit it stands.

He Did.

He hitched around on his seat for awhile, looked out of the car window and then around at the passengers, and finally touched the man in the seat ahead of him on the shoulder and asked :  
"Beg pardon, but do you use tobacco?"  
"Yes, sir," was the prompt reply of the stranger, as he turned over another leaf of his magazine and continued reading.  
This made it rather awkward for the man who was dying for a chew, and it was five minutes before he again leaned forward and asked :  
"Did I understand you to say that you used tobacco?"  
"Yes, sir."  
"Might I ask you for a chew?"  
"You might."  
The stranger continued his reading without moving a hand, and the other finally blurted out :  
"I thought you said you used tobacco!"  
"I do sir," was the quiet rejoinder. "I use it to kill vermin on cattle!"

### — THE MASSEY HARVESTER. —

KINGSBRIDGE, ONT., Dec. 7th, 1882.  
*The Massey Manufacturing Co'y, Toronto.*  
I am glad to be able to say that your Massey Harvester gives me the fullest satisfaction. I feel confident that it is the most perfect Machine that has come into my neighborhood. It is the only one of the sort as yet that has made its way into our neighborhood and has received general applause from those who came to witness its working. I cut over 50 acres of grain both heavy and light, lodged and unlogged, and through all it has done its work most complete. I believe it is the best balanced and lightest of draught of any machine that I have ever seen. The rake head and pitman are peculiarly well constructed both for service and durability. In a word, all who saw it work, call it "a perfect Machine."  
Yours truly,  
THOMAS HUSSEY.

**The Driver of a Massey Harvester has Perfect Control of the Machine Without Leaving His Seat.**

Harry, while looking on when his new little sister cried at being washed, turned away, saying, "if she screamed like that in heaven, I don't wonder they sent her off down here."  
SIDNEY TP., FRANKFORT P. O.  
Wm. Reynolds says his Massey Harvester works well and he is much pleased with it.

COLCHESTER TP., ESSEX CO., ONT.  
Nov. 29th, 1882.  
*Massey Manufacturing Co.:*  
GENTLEMEN,—The Massey Harvester we purchased from your agent Mr. P. McQuaide has given us entire satisfaction. The past season was well calculated to put any machine to a severe test, it cuts clean, makes a good sheaf, runs light, is easily handled, and very strong. We have no hesitation in recommending the Massey Harvester to our brother farmers.  
Yours respectfully,  
THOMAS LORANGO.  
JOSEPH RENEAN.

*Our Agent at Glencoe, Mr. W. C. McCarty, sends in the following names of purchasers of our Machines and Rakes who gladly testify to the high merits and excellent qualities of the same. He writes, "They are well pleased, in fact they cannot recommend them too highly."*

Charles King,	Mora,	Massey Harvester.
James Patterson,	"	Massey & Toronto Mower.
Donald Ferguson,	"	Toronto Reaper.
Hugh Cameron,	"	"
William Innis,	"	Toronto Mower.
Thomas Dixon,	"	"
Peter Mitchell,	"	Sharp's Rake.
and others.		

ANDERDON, Nov. 28th, 1882.  
*The Massey Manufacturing Co'y.*  
GENTLEMEN,—We have each purchased a Massey Harvester from your agent, Mr. P. McQuaide and we have great pleasure in bearing testimony to their good qualities. They are light of draft and simply constructed and for laying a sheaf we have not seen anything superior. The lifting of the grain wheel from the seat is a great convenience. Its tilt is complete for raising fallen grain. We recommend intending purchasers to buy the Massey Harvester, as we honestly believe it to be the best Machine in the Market. Wishing you every success, we are,  
Yours truly,  
JOHN PETHPIECE.  
G. M. GARNER.  
CHAS. LONG.

**The Tilting and Lifting Levers on the Massey Harvester are without superior for utility and convenience.**

MOSA, Jan 1st, 1883.  
*Massey Manufacturing Co.:*  
SIRS,—I recommend the Massey Harvester to be the best Reaper I can see "around the Diggins." A man came to me not long ago and asked me would I recommend the Massey Harvester, I told him yes and took him in and showed it to him and gave it a good recommend. He looked its works over carefully. I did not know him.  
Yours truly,  
CHARLES KING.
