
NOTICE TO READERS

The Canadian Embassy in Paris has identified opportunities in the fisheries sector for export promotion in 1995. This points to the existence of particular opportunities which Canadian fish and seafood exporters are encouraged to pursue. This document has been prepared with a view to providing small- to medium-sized Canadian fish and seafood exporters with basic information on the France market.

The report identifies market opportunities of potential interest to Canadian fish and seafood exporters and provides data on the characteristics of the France economy, such as economic structure and consumption differences. Information on the domestic French seafood market includes data on imports, seafood marketing opportunities, market access, and consumption habits. Lists of the major fish and seafood importers/distributors/users, International Trade Centres across Canada, and the Geographic Trade Divisions in the Department of Foreign Affairs and International Trade are provided as contact points for Canadian fish and seafood exporters interested in the France market.

Care has been taken to ensure the accuracy of the information in this guideline at the time of preparation. *However, prudent Canadian fish and seafood exporters are advised to check all relevant details with their commercial contacts and to adhere strictly to the requirements and regulations set by France importers and authorities.*

This report is one in a series of "Country Guidelines" being prepared by the Sectoral Liaison Secretariat, Foreign Affairs and International Trade.
