

The first paragraph of the report states that the Commission was organized in 1951 to study the economic situation of the country and to recommend measures for its improvement. The Commission has since that time held a number of public hearings and has received many suggestions from the public. It has also conducted extensive research into the various economic problems of the country. The Commission's report is based on the results of this research and on the suggestions received from the public. It contains a number of recommendations for the improvement of the country's economy.

The Commission believes that these recommendations are essential for the economic development of the country and for the improvement of the living standards of the people. It urges the Government to take prompt action on these recommendations.

The Commission also wishes to express its appreciation to the many individuals and organizations that have assisted it in its work. It is particularly grateful to the members of the public who have attended its hearings and have expressed their views on the country's economic situation.

FOR THE COMMISSIONER OF THE GENERAL LAND OFFICE
AND THE COMMISSIONER OF THE GENERAL LAND OFFICE
AND THE COMMISSIONER OF THE GENERAL LAND OFFICE
