

Nitrous oxide emissions—Cont.

United States, 19:10-2, 21-2; 21:9

California, 19:13-6

See also Nitrous oxide emissions—Standards

Washington Summit agenda, including, 19:23

See also Cities; Climate—Changes; Emissions, trans-boundary flow—Canadian flow into United States—United States, flow into Canada; Environment; Motor vehicles, emissions; Ozone

Nitrous oxides

Critical levels/loadings, determining, 19:25-6; 21:18

See also Aquatic environments—Oceans; Emissions, reducing—Targets; Health effects

Non-government organizations see Emissions, reducing—United Nations Economic Commission for Europe

Noranda, Inc.

Acid plant, Horne smelter, sulphur recapture, constructing, Quebec provincial government, federal assistance, 1:34-5; 3:20

Attitudes, status as corporate citizen, 2:23

Emission levels

Federal funding, 11:21; 17:15

Negotiations, agreement, difficulties, social, economic impact, 3:13; 9:18-9; 11:20-1, 24-5

Percentage of total acid rain pollution, 17:18

Quebec, legislation, 2:22

Reducing, 1:33-4; 2:22

North America see Sulphur dioxide (SO₂) emissions—Decreases

North American Wildlife Association

Conference, Quebec City, 8:12-3; 9:4

Prime Minister Mulroney, address, 9:8

Quebec Environment Minister, Clifford Lincoln, address, 9:20

Norway see Aquatic environments—Lakes, Acidification

Norwegian Institute for Water Research see Aquatic environments—Nitrate/nitrites

Nova Scotia

Areas affected, potentially affected, 4:6-7

Employment, dependency on natural resources, 4:18-9

Energy, coal vs oil, importance of self-reliance, 4:26-7

Population, 1986, 4:6

Premier, references see Committee—Witnesses

Sources, production, 4:29-30, 32

See also Aquatic environments; Coal—Clean coal; Emissions, reducing; Emissions, trans-boundary flow; Environment; Fish—Salmon stocks; Forests; Gasoline—Prices; Gulf Oil Refinery; Heavy water plants—Closure; National Task Force on the Environment—New Brunswick; Oil refineries—Closure; Ozone—Concentrations; Pulp and paper industry—Emissions, Reducing; Sulphur dioxide (SO₂) emissions; Sulphur oxide (SO_x) emissions—Manitoba

Nova Scotia Environment Department see Appendices; Witnesses

Nova Scotia Power

Electricity, production, sources, 4:34

Coal-fired, Lingan, N.S., emissions, levels, 4:7, 10, 13, 15-6; 11:10

Coal, sources, 11:4-5, 12

New plants, plans, 11:10

Tufts Cove, N.S., emissions, reducing, 4:28

Hydro-electric power, 11:5

Nuclear power, 11:5

Emissions, reducing, 4:10-1, 18, 26

Circulating fluidized bed combustion boiler, construction, proposing, costs, 4:9, 11-2, 24-5, 27-8, 31; 11:23

Coal

Clean coal, 11:4-5

Replacing, washed coal, better quality coal, 4:11, 24

Environment, awareness, 4:11

Financial status, 4:25-6

See also Witnesses

Nuclear power

Public opinion, 14:9

Safety, problems, 11:5

Radioactive waste, disposal, 11:5

See also New Brunswick Power—Electricity—Emission levels; Nova Scotia Power—Electricity; Ontario Hydro—Electricity production

Nutrition see Forests; Waterfowl—Population trends, Food chain

Oceans see Aquatic environments

Office of Technology Assessment see Health effects—Deaths

Oil see Fuel—Alternatives to oil

Oil-fired power see New Brunswick Power—Electricity

Oil refineries

Closure, Nova Scotia, 4:10

Emissions, New Brunswick, 10:6

See also Gulf Oil Refinery

Ontario

Legislature, simultaneous translation, 6:17

Select Committee on the Environment see Ontario Hydro—Emission levels, Standards

Sources, production, 6:4

See also Agriculture—Crops, Southwestern Ontario; Aquatic environments—Lakes—Sensitivity; Canada-United States negotiations; Electricity, production—Manitoba—Requirements; Emissions, reducing; Emissions, trans-boundary flow—Canadian flow into United States, Quebec; Fish—Sport fishing; Forests; Gasoline—Prices—Unleaded, Price; Health effects—Asthma—Children, New Zealand, Saskatchewan, Studies—Deaths; Inco Ltd.—Emissions, Sudbury, Ont.; Motor vehicles, emissions—Emission controls; Ontario Hydro—Emission levels, Standards; Private sector polluters—Emissions; Public awareness, opinion

Ontario Environment Department see Witnesses
