Any subsequent assignment may be upon a separate paper, but must be regularly attested before a Commissioner, and accompany the warrant in its transmission to the Land Office.

3. The third kind of scrip is that issued to the half-breed heads of families and to old settlers in the Province, under recent Acts.

A claim against the Government for lands may, by law, be committed by an issue of scrip which would be in form similar to that issued to the half-breed heads of families and old settlers before mentioned.

This scrip is a personalty, and there is no assignment thereof necessary to transfer the ownership. The bearer for the time being is held to be the owner, and we accept it in the Dominion Lands Office, in payment for Dominion lands, the same as cash.

The Surveyor-General stated further, in answer to a question, that land scrip cannot be used in payment of the half-breeds' claims; and explained that the land set apart for half breeds, under the Manitoba Act, was an absolute grant to the children. The extent to which lands belonging to minors will be tied up will depend greatly upon whether steps be taken to appoint trustees who would be able to make sales, or upon such other measure as the Government might see fit to adopt, with the view of bringing these lands into the market.

The only other Reserves in the Province are those of the Mennonites, which are rapidly filling up. There is still a very considerable extent of excellent land in the Province now available for settlement, but it can easily be understood the people who have been going into the Province for the last four or five years have selected the most favourable locations, and, consequently, the most of the good land in those localities have been taken up. The lands remaining, although generally desirable, are not so conveniently situated.

Col. Dennis further stated in answer to questions: The Province of Manitoba contains nearly nine millions of acres.

The Railway Reserve contains about 1,900,000 acres, and the Mennonite townships about 500,000 acres.

The Hudson's Bay Company's one-twentieth contains about 430,-000 acres.

There are granted for school purposes two whole sections, or 1,280 acres, being sections 11 and 29 in each township, which are, by law, dedicated throughout the whole North-West for educational purposes, and the grant amounts, in Manitoba, to 400,000 acres.

In Manitoba the greatest quantity of land available for settlement is in the west and south-west.
