

## CANADA ORGAN & PIANO COMPANY.

*We would respectfully present to our friends a few testimonials, which we have selected from a large number received from our Agents and others, testifying to the superior quality of the instruments manufactured by us.*

PETERBOROUGH, 9th April, 1874.

*Canada Organ and Piano Company.*

GENTLEMEN,—Having had considerable experience in Organs, and the sale of them, for several years past, I have great pleasure in heartily recommending yours to all parties wanting such instruments.

They are fully equal to the best American, and superior to any Canadian make in use in Canada. The cases are well made, out of excellent material, the ornamentation is chaste and elegant, while the inside work is finished in a complete and substantial manner.

The full, rich tones, as well as the durability of the Instrument, should, and I trust will, commend it to the favour of all who desire a first-class family organ

Wishing you all the success your enterprise is entitled to,

I am, truly yours,

R. W. ERRETT.

PETERBOROUGH, 9th April, 1874.

*R. W. Errett, Esq.*

DEAR SIR,—The No. 16 Organ, by the "Canada Organ and Piano Company," which purchased of you some months ago, gives perfect satisfaction. It is a superior Instrument; for variety and delicacy of tone, for sweetness and power, I know not any superior. I can conscientiously and cordially recommend it to all who desire elegance and taste.

I am, dear sir,

Yours truly,

WALTENN BEAL.

BRANTFORD, April 7th, 1874.

*Canada Organ and Piano Company.*

DEAR SIRS,—I can bear testimony without hesitation to the excellent finish and superior quality of tone of your organs. I am in a position to do so, from the fact that I have in stock organs by several of the leading American makers. And a number of organists of this town, who have played on these and others referred to, pronounce them the best Canadian makes they have seen, and equal to the very best American organs in tone and beauty of finish.

Yours, &c.,

H. BOLTON.

BARRIE, April 14th, 1874.

*Canada Organ and Piano Company, Toronto.*

GENTLEMEN,—As you have asked our candid opinion, we have to say that your organs, from and including style No. 4 up, please us very much: freedom from reediness being what we admire more particularly.

We have taken particular notice of the improvement in your organs within the last four or five months.

Yours truly,

EDWARDS & LAIRD

BRAMPTON, April 6th, 1874.

*Canada Organ and Piano Company.*

DEAR SIRS,—In reply to your communication, asking me my opinion of the organs supplied by your company, I can only state that the large number I have sold and am still selling of your instruments, must of itself be a proof that they give entire satisfaction, and I consider them equal, if not superior, to the American makers', and vastly superior to any other Canadian makers' in the market.

Truly yours,

JOHN HAMILTON.
