

# NEWS OF SPECIAL INTEREST TO WOMEN

## CHECKS ARE SHOWN FOR AUTUMN WEAR

New Designs Exploit Color Effects or the Popular Shepherd's Plaid.

## SEAL MUCH FAVORED

Fur is Used for Trimming on High Collars and Close Fitting Cuffs.

Much depends on the cut of the suit this autumn, when strictly tailored designs are most widely favored. Lack of trimming necessitates faultless lines and unimpeachable materials. Checks are considered quite good style for early autumn wear, but should be small and inconspicuous in black and white, green and white or brown and white.

It is on one of these smart early fall street costumes, developed in a neat black and white shepherd's plaid, that bands of seal skin are most effectively used as trimming for collar and cuffs. A row of novelty buttons of medium size down the centre front of the single-breasted coat is the only other ornamentation which relieves the severity of line.

The skirt is quite a medium length, slightly fitted at the waist, and the normal waist line in the latest approved mode. The coat sleeves are long, narrow and set into a normal shoulder line, every feature of this smart model exploiting the newest details.

The hat worn is made entirely of heavy black corded silk, with shirred crown sections and flat turban brim. Erected on both sides are fifty little pleated cockades with short ends and a crosspiece of the silk. Washable kid gloves in an inconspicuous soft tone of gray are worn and a pair of high returned vogue of fancy buttons.

A number of the colored check designs have collar and cuffs in plain harmonizing shades, and when these are of the popular Russian or olive green cloth topped shoes are often worn to match.

### MELBA'S RED CROSS CONCERT.

What promises to be the greatest musical event with which Massey Hall has ever opened any season in the concert annals of Toronto is the appearance at Massey Hall in October of the incomparable Melba, who is by arrangement with their Royal Highnesses the Duke and Duchess of Connaught, donating the entire proceeds of the event to the Canadian Red Cross authorities. At least \$10,000 is the sum which the prima donna wants to hand over to the local authorities. The advance sale opens at 9 o'clock on Monday morning at the Massey Hall box office.

## PRAYERS FOR ALL WHO ARE AT FRONT

Those in Peril on Land, in Air or Under Sea to Be Included.

## GENERAL SYNOD SESSION

Bishops to See Lenten Letters Before They Are Published in Future.

That those who are in captivity, in peril in the air or under the water should be remembered in the prayers of intercession used through the Anglican churches was the decision reached at yesterday's sessions of the general synod.

There were two resolutions, each of which was passed unanimously, which affected the services of prayer. The first was that at the noonday season special intercession with Almighty God should be offered every day in behalf of the empire and the success of the allied armies in the battle for right and truth. It was moved by Archdeacon Armistead and seconded by Chancellor Davidson.

The second, moved by Archdeacon Mackay, read: "Whereas the present form of intercession for the war now used in our churches is not sufficiently comprehensive, the house of bishops be respectfully requested to issue a revised form of intercession with petitions for those in captivity, those in peril in the air and under water and for the final victory of our cause."

At the opening of the board of missions of the Anglican Church, the general secretary read a cablegram which conveyed the news of the death of Mrs. Archer, wife of Rev. Dr. G. B. Archer, missionary at Kanara, India. Dr. Gould commented on the fact that Mrs. Archer, who had left Canada but a year ago as a happy bride, Bishop Richardson moved that the board send a cablegram of condolence. Rev. E. B. McIlhennan, B.A., seconded the motion as rector of the parish supporting Dr. Archer.

Dr. Archer was a resident of Toronto before taking up his duties in the far east. The board endorsed the appointment of Rev. T. B. Westgate, D.D., as field secretary west of the great lakes. Dr. Westgate is a prisoner of war in Germany. He was taken a prisoner shortly after the war broke out. His position will be held open for him until his return.

The board of missions held a spirited discussion over Lenten letters to children as many of the speakers held that they were too awe-inspiring for children. The bishop of Montreal was opposed to the using of the bishops' names to these letters.

The question was settled by the primatial suggestion that the letters should go thru the local diocese so that the bishops would be able to see them before publication.

The report of the committee on the primatial charge recommended that it should be printed and distributed to every church in Canada. The committee also endorsed the sentiment expressed in regard to the war.

### WOMEN'S AUXILIARY.

The triennial report of the women's auxiliary showed a total membership of \$3,812 in 1910 parishes, or an increase of 12,165 in three years. The expenditure on bales and furnishings for churches, hospitals, missions and schools amounted to \$80,976.84. Is the children's department there are 19,475 members who have given \$25,490. The full receipt from the various sources were \$231,529.82. The women's auxiliary gave \$17,380.85 to Hong Kong, China; \$15,730.48 to mid-Japan and \$3,301 to Kanara, India.

The synod voted to rescind the required payment of each member of \$10 to cover expenses of the synod. The \$10 payment was required as a result of the possibility of the synod going to Vancouver.

### MUSICIAN WANTS TO BE NATURALIZED.

Among the applications for naturalization made yesterday afternoon was that of Luigi Von Kunitz, 148 Spadina road, a teacher in the Canadian Academy of Music. In his affidavit he stated he was born in Vienna.

As doubt exists as to the nationality of Lieut. Donald M. Goudy at Niagara camp, Judge Coatsworth will issue a certificate.

### HOPING FOR INCREASE.

Hope is expressed by friends of Toronto University that the Ontario Government will increase the appropriation of successful studies by \$100,000 to offset an expected deficit of \$115,000.
