217	etics	120	Spleen forming uric acid	30
67	flow of	107 n.	Squint, divergent, in cerebral tumour	6, 7, 12
135	..	207	Squire, case of hæmophilia	171
59	..	107 n.	Standardization of thyroid extract	146
38	id..	54	Starling and Bayliss on secretion	146
91	..	91	Starr, Allen, on tumours of auditory nerve	64
24	..	192	Starvation, diagnosis of	124, 127
45	myrin	137	— survival in	116
180, 181	nys-	101	Stereognosis	116
191	spinal	177	Stewart and Ballance on regeneration of nerve	154
177	..	165	Stewart-Harte case	158
194	x ..	185	Stomach, movements of	30
81	..	75	Stovain as local anæsthetic	146
166	..	213	Strychnine for shock	150
113	mor-	20	Stuart-Hart's test for β -oxybutyric acid	147
100	mata	144	Sudden death from chloroform	71
160	ation	152	Suprarenal glands, influence in maintaining blood-pressure	86
170	ation	17	Swallowing	172
26	..	74	TACTILE sense, conduction in spinal cord	10, 13
174	erior	177	Tea and gastric juice	92
21	ided	73	Temperature, in cerebral abscess	170
21	..	201	Temperature sense, conduction in spinal cord	86
155	loro-	178	Temporal lobe, functions of	90
20, 22	..	193	Tetany, experimental	64
20, 63	..	40, 41	— treatment of	125
18, 22	..	52, 116	Thalamus, lesions of	64
19, 28	..	197	Thiele on muscular tone	185
26	..	199	Thomas, R. E., on nutrient enemata	80
49	on of	100, 225	Thompson and Head on spinal tracts	188
175	ots..	185	Thrombogen	116
125	thy-	104	Thrombokinas	210
87 n.	..	104	Thyroid colloid, chemistry of	116
125	ny ..	43	— and bone formation	116
217	utan-	13	— effects of removal of	116
194	..	39, 42	— extract, standardization of	116
70	of..	54	— feeding	116
175	terior	42	— intoxication	116
208	rebral	51	— from iodoform	116
203	..	49	Tobacco and gastric juice	116
14	..	73	Tone, Deiter's nucleus and	116
177	cts of	190	— in diagnosis of cortical tumours	116
176	of ..	199	— influence of tracts on	116
185	e ..	176	— loss of from division of posterior nerve-roots	116
183	..	174	— lost in cerebellar lesions	116
178	divi-	100	Transfusion for hæmophilia	116
174	..	114	Transfusion with saline	116
180, 181	le of	114	Transplantation of bone	116
	..	114	— nerve	116
	180, 181	114	Treatment of acetonaemia	116
		114	— acidosis	116
		114	— acromegaly	116
		114	— adiposity	116
		114	— to prevent calculus	116
		114	— of chilblains	116
		114	— chloroform poisoning	116
		114	— late chloroform poisoning	116
		114	— of cholera	116
		114	— coma from starvation	116
		114	— concussion	116
		114	— cerebral vomiting	116
		114	— narcotic coma	116
		114	— to prevent diabetic coma	116
		114	— of dyspepsia by drugs	116
		114	— epigastric pain	116
		114	— facial palsy	116
		114	— fractures	116
		114	— gastric carcinoma	116
		114	— gastric crises	116
		114	— gastric ulcer	116
		114	— after gastrectomy	116
		114	— of gigantism	116
		114	— goitre	116
		114	— gout	116
		114	— Graves' disease	116
		114	— hæmophilia	116
		114	— hæmoptysis	116
		114	— hæmorrhagic tendency in jaundice	116
		114	— hyperchlorhydria	116
		114	— infantile palsy by nerve anastomosis	116
		114	— infantilism	116
		114	— injuries of spinal cord	116
		114	— intestinal paralysis	116
		114	— intracranial pressure	116
		114	— lymphatic headache	116
		114	— to prevent meningitis	116
		114	— of menopause	116
		114	— myositis ossificans	116
		114	— myxoedema	116
		114	— nerve injuries	116
		114	— by nutrient enemata	116
		114	— of oxaluria	116
		114	— painful inoperable cancer	116
		114	— pancreatic fistula	116
		114	— post-anæsthetic vomiting	116
		114	— to prevent salicylate poisoning	116
		114	— by saline transfusion	116
		114	— of shock	116
		114	— spasticity	116
		114	— transient albuminuria	116
		114	— tetany	116
		114	— uric acid deposit	116
