note the promptitude with which "The Ontario" has paid its c

able features and is the Only Purely Mutual Canadian Life Assurance Company.

Life Assurance has run up in a few years from *nothing* to a zenith of splendor, power, proficiency and philanthropy which has no parallel in the world's institutions.

As a Social Force

Life Assurance stands high; by it the widow is enabled to pay her liabilities, to keep her children together under her own care and influence, and to so educate and train them that they will become good and useful members of society.

The Great Aim of Mankind

is to accumulate *wealth*—to do so in the form of money or real estate is usually the result of many years of *incessant toil* and *saving*, while death may at any time cut short the process and leave the family unprovided for, and consequently objects of public charity. No man has a right to permit such a possibility while means of averting it are so available.

Life Assurance, unlike all other modes of accumulating wealth, *reverses* the process and ignores *time* as a factor, by the union of a *large number* of members, who, by paying their first premiums, *provide* the funds, and the subsequent premiums add to those funds and hold them available for the widow and orphan.

Investment at 6 per cent., Compound Interest versus Life Assurance.

Policy No. 678 was issued December, 1870, to H. F. J. Jackson, Esq., now of Brockville, for $1,000. Annual premium, $44.71.
